# JANSEN PROTECTS.

## SAFETY THROUGH INNOVATION - HIGHLIGHTS IN 2025

Our fire protection doors provide reliable protection against fire and smoke and are available in a wide range of sizes and designs. Classified according to European standards and made of premium materials, they guarantee the highest level of safety and quality.

We focus on custom solutions for fire protection, explosion protection, soundproofing, burglary protection, heat protection and plant protection.

Discover the many possibilities for your construction project – with Jansen you're guaranteed best possible protection.

## HIGHLIGHT

### BURGLARY PROTECTION SAFELINE 60 SECTIONAL DOOR

Combine safety with energy efficiency:  
The SAFELINE 60 sectional door offers certified RC3 burglary protection and excellent thermal insulation. It's perfect for modern building design.

## JANSEN NETWORKS.

### JUNO - THE SMART IOT PORTAL FOR YOUR GATE SYSTEMS

Discover **JUNO** – the smart gate system solution!  
A low-cost IoT module and independent network technology gives you easy access without local connections. **JUNO** offers predictive maintenance, reduces service costs and has 3GP LTE technology to protect against unauthorised access and attacks on the network infrastructure.

### SMART CONTROL DUO - IOT CONTROL UNITS FOR FIRE PROTECTION AND INDUSTRIAL APPLICATIONS

Experience our **SMART CONTROL DUO** – the JBS 601 / 701  
Door control maximises fire protection safety, and JTS Connect+ delivers convincing connectivity and efficiency in industrial settings. Both systems integrate the latest IoT technology for maximum control.

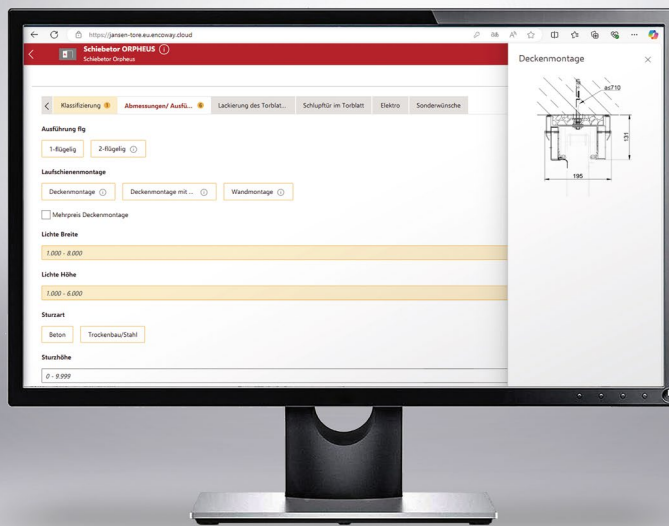

### THE INTERNET OF THINGS (IOT) IN BRIEF

The Internet of Things connects devices to the internet for data collection and exchange.

This means that industry, healthcare and smart home processes can be automated and enhanced in terms of efficiency by real-time data.

# JANSEN IMPLEMENTS. ELJOT - THE CONVENIENT CONFIGURATOR FOR OUR PARTNERS

**ELJOT** enables the simple and efficient design of tailor-made door solutions. Our user-friendly configurator allows you to create customer-specific quotations quickly and easily.

Choose from a variety of product types, customise dimensions, materials and colours, and integrate additional functions such as drives and security systems. With realistic visualisations and direct quotations, **ELJOT** simplifies the planning and implementation of your construction projects.

**ELJOT** is your dependable tool for successful sales. Use **ELJOT** to improve your efficiency and impress your customers with individual door and gate solutions!

For further information visit us at our exhibition stand! We look forward to talking with you.

## JANSEN HELPS.

**INSPIRING SERVICE FOR  
MAXIMUM SAFETY AND  
EFFICIENCY**

Service is Jansen's number one priority. Our experts support you from the initial consultation to the final implementation – with customised solutions for your projects. Our Service 4.0 smart service portfolio integrates innovative technologies to offer you efficient and networked services. With a nationwide network of own branches and

certified technicians, we deliver fast and reliable on-sitesupport. Whether you need regular maintenance, legally compliant inspections or quick repairs – our all-inclusive service portfolio ensures the smooth operation of your door systems. Trust in Jansen for quality, expertise and a personal service directly from the manufacturer!

# JANSEN ADVISES.
