The world's largest trade fair
for quantum technology

**World of
Quantum**

June 24-27, 2025
Messe München

The meeting place for the Quantum Community

Discover all the important trends at the Munich trade fair, innovations and visions for the next technological revolution — quantum technology.

The third edition of the **World of Quantum** will again take place parallel to Laser World of Photonics, World of Photonics Congress and automatica.

The unique exhibition concept of World of Quantum is based on three pillars and thus perfectly meets the needs of the quantum community:

Facts and figures 2023

17k+

Visitors

86

Exhibiting companies

120+

Presentations

Visitors particularly appreciated

- The presence of the market leaders
- Atmosphere at the trade fair
- Opportunities for networking
- World-leading trade fair character
- Application orientation of the trade fair content

Number of visitors per application area

- 4,500 Laser systems for quantum technology
- 3,300 Quantum computing
- 2,400 Quantum communication
- 2,100 Quantum sensing & quantum metrology
- 1,800 Quantum imaging
- 1,500 Quantum cryptography
- 1,500 Quantum simulation
- 1,500 Subsystems and components for quantum technology

3 pillars for the quantum community

Exhibition area
Presenting innovative concepts

Information area
Inform about current projects

Networking area
Find partners and investors

The combination of companies, start-ups, forums, poster sessions and networking, combined with the Laser World of Photonics, is the ideal platform for presenting innovative products and research results and discussing the fields of application with potential customers.
