THE meeting place for the laser and photonics industry

Since 1973, Laser World of Photonics has been bringing together the ever-growing community of industry and research in the field of photonics. With a total area of 55,000 square meters and more than 1,390 exhibitors, the World's Leading Trade Fair is an absolute magnet for visitors.

Laser World of Photonics will also take place in 2027 alongside the World of Photonics Congress, World of Quantum and automatica.

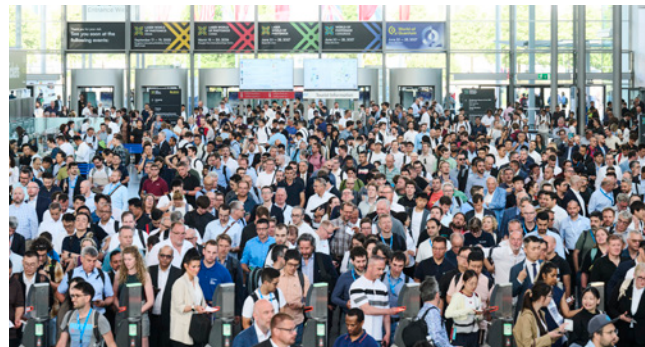

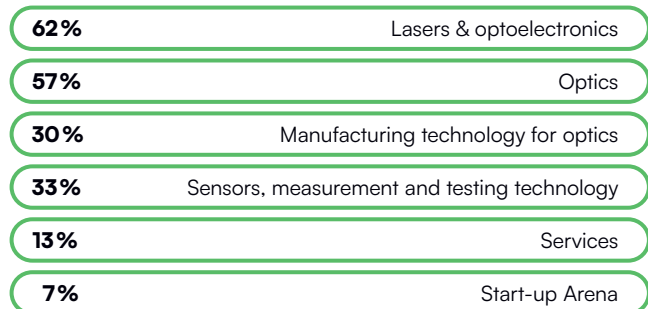

Facts and figures 2025

Visitors particularly appreciated

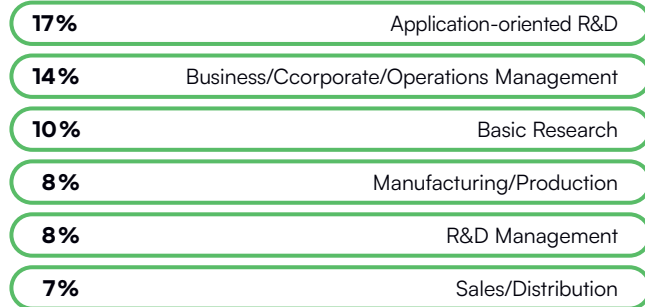

- Presence of market leaders
- Internationality of exhibitors
- Atmosphere at the trade fair
- The breadth of the range on offer
- The character of the world's leading trade fair
- Opportunities for networking

Product areas visited

In 2025, over 44,000 visitors attended the World's Leading Trade Fair with Congress for Photonics Components, Systems and Applications.

Main areas of interest for the visitors

Exhibitors particularly praised

- Internationality of visitors
- Quality of visitors
- Trade fair experience
- Quality of exhibitor services
- Opportunities for networking
- Location of the exhibition stand
