

# SCAN2LEAD SMART - ALL CONTACTS IN YOUR HAND

- + perfect for every booth concept, especially for staff with intensive customer contact
- + app for scanning barcodes on the visitor passes or business cards with a smartphone or tablet (iOS / Android)
  - scanned visitor data is immediately shown on the display and can be edited and amended individually
  - adding of notes (via keyboard or voice recognition)
  - lead qualification by using a digital lead form: selection of pre-defined interest tags, follow-up activities etc.
  - capturing pictures and documents with the camera of the device
- + internet connection is required, data backup and limited use in offline case
- + data is transmitted in real time and immediately available online in the Scan2Lead PORTAL for export and further post-processing
- + access to the Scan2Lead PORTAL with all its features (automatic backup of captured data, data export, management of devices, graphical reports about your visitors etc.)
- + for each device (smartphone or tablet) one SMART licence is required, discount from 5 licences on
- + app can be tested nonbinding and free of charge, requests by e-mail: [contact@scan2lead.com](mailto:contact@scan2lead.com)
