Mumbai - April 23-25, 2025
Jio World Convention Centre

Hyderabad - September 18-20, 2025
HITEX Exhibition Centre

analytica Lab India: A Unified Powerhouse for Laboratory and Analytical Technology

analytica Lab India marks a new era for India's laboratory, analysis, and life sciences sectors through the integration of analytica Anacon India and India Lab Expo. This powerful merger creates a single, expansive platform where the industry converges, offering exhibitors direct access to a diverse audience of professionals—researchers, lab managers, purchasing heads, and decision-makers from multiple sectors.

The event features two impactful editions: the **Mumbai edition, happening from 23 - 25 April 2025 at Jio World Convention Centre**, focuses on pharmaceuticals, food & beverage, chemicals, research, and cosmetics. The **Hyderabad edition, from 18 - 20 September 2025 at HITEX Exhibition Centre**, attracts leaders in pharmaceuticals, nutraceuticals, food, and research. This dual presence amplifies exhibitors' visibility, providing unique engagement opportunities, fostering partnerships, and prioritizing industry progress.

By participating, you're positioning your brand at the forefront of innovation within a forward-thinking community dedicated to advancing the industry.

Exhibitor Testimonial

“ We have been participating in analytica Anacon India since its inception we've never missed a year. We meet good quality crowd, reinforcing the importance of relationships and networking in our field. This event provides a valuable platform to learn, share, and connect with peers, customers, and those interested in the instrumentation industry. Each year brings improvements, and this year's addition of events like AI and smart labs discussions highlights the organizers' efforts to cater to everyone's interests. ”

Arvind Thyagarajan, JT Managing Director
Spinco Biotech Pvt. Ltd.

Buyer Testimonial

“ This exhibition has been like a learning institute for me. It provided insights into innovative techniques for making and testing high-quality products, covering trends in OSD, parenteral, manufacturing, packaging, and digitalization. I achieved my goals of exploring advanced techniques like LCMS and meeting vendors for SEM, TEM, and PXRD studies. It's also an excellent platform for networking with colleagues and discovering future technologies—all under one roof. I believe this event can become even more impactful and accessible for the pharmaceutical industry in India and globally. ”

Gouri Prasad Nanda, Vice President & Head Investigations Quality, Compliance & Investigations
Glenmark Pharmaceutical Limited
