### Specifications

#### Media equipment

Room 5 is equipped with 32+8-channel digital mixing console and an L-Acoustics sound system.

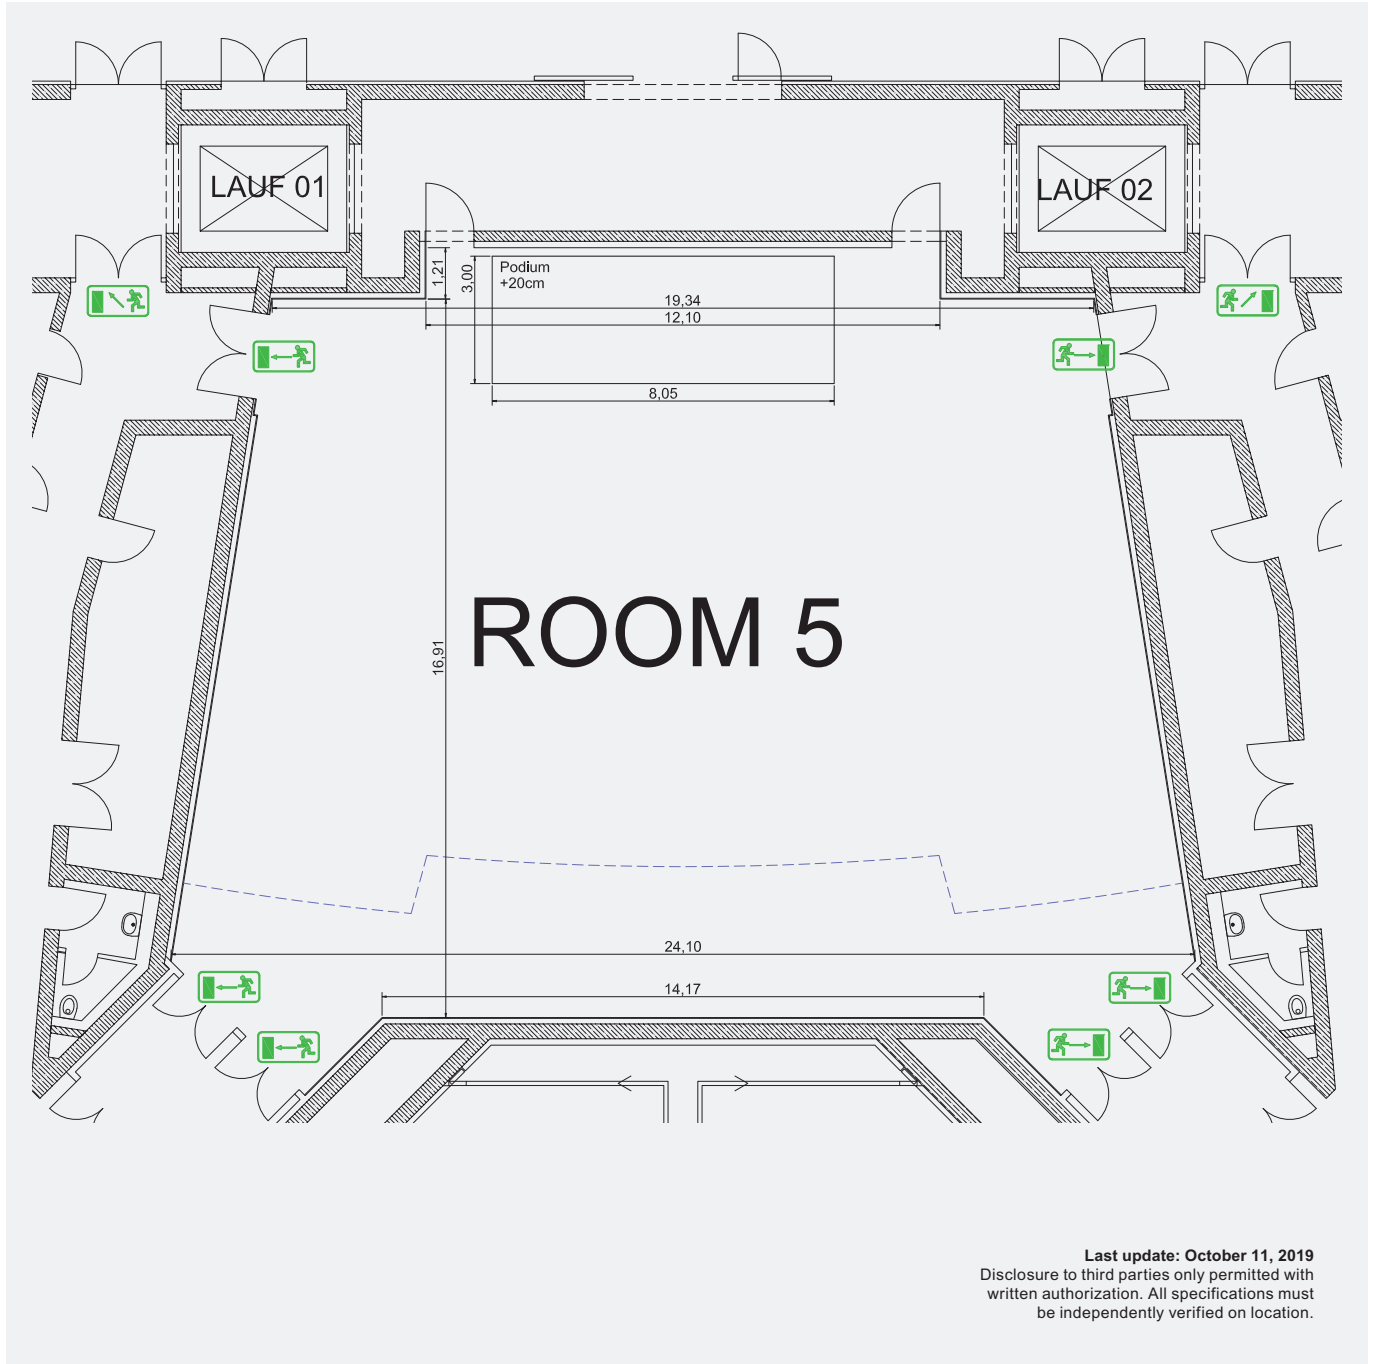

- 8-channel UHF microphone system
- Digital interpretation system
- PTZ camera
- Option to install additional media technology.
- Audio and video cross-connections into other halls and rooms possible

#### Lighting

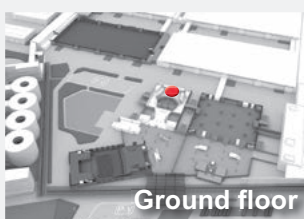

- There is a lighting hoist on the ceiling of the room. Highest position: 4.50 m above room level. Distance from stage: 2.50 m. The standard configuration is four Frensel-lens spotlights and four profile spotlights. A sufficient number of dimmable and fixed-current outlets (safety-contact and CEE plugs) as well as DMX 512 connections are available. Infinitely dimmable downlights are used to evenly light the entire room. Like the lighting for the performance area, they can be controlled from the lighting console (Grand MA Micro) or the DMX 512 network. There are also two control panels at the entrances to the hall that can be used to adjust the lighting in the room.
