## The three exhibition areas in detail

### FBC – Fenestration BAU China

**At a glance: Asia's Largest and the Most Professional Exhibition in the Fenestration Industry**

FENESTRATION BAU China (FBC) was founded in 2003. With 17 years of development, FBC is not only the annual place for companies to launch new products in the fenestration industry all over the world, but also the development, communication and learning platform for the whole industry chain.

Highlights in this area are the Fenestration Days, which take place two days before the fair, various forums during the fair and the Window Installation Demonstration Area.

### CADE – China Architecture Design Expo

**At a glance: a high-end building system solutions and a high-quality architect communication platform**

CADE is organized together with ASC – Architectural Society of China. It aims to achieve the perfect integration of architecture with art and technology, and the tracing of the origin of architecture, through the interworking and blending of solution enterprises and architectural designers with the whole industrial chain.

A special highlight in the supporting programme is the BAU Congress China and the International Urban Project Award (IUPA) presented there.

### New: RealTech Expo

**At a glance: A Future Trade Fair for Property, Investment & Technology**

RealTech Expo is the new launch of another world-class event of BAU CHINA in 2020. Cooperating with its partner – CRECC (China Real Estate Chamber of Commerce), RealTech aims to bring together the world's outstanding real estate brands, the developers, high-tech solution providers and service providers; thus, sharing and exhibiting the future trends of the real estate industry. The new brand is committed to building a B2B2C platform integrating brand promotions and exchanges, enabling real estate enterprises to achieve transformations and developments.

#### Exhibitor's Testimonial

As an exhibitor who has participated in FBC for more than ten consecutive years, YKK AP deeply feels that FBC is constantly developing and improving itself in terms of exhibition scale, visitor professionalism, relevant supporting activities, exhibitor services, etc. FBC has not only built a good platform for us to better communicate with various enterprises, but also provided a good opportunity for us to establish and improve our brand image. YKK AP also can't wait and see FBC to grow even further in the future!

YKK AP (China) Investment Co., Ltd.
