

Conference on Smart manufacturing with lasers: India's pathway to new revolution in manufacturing

14 September, 2023 | BIEC, Bengaluru

The International Conference on "Smart manufacturing with lasers: India's pathway to new revolution in manufacturing" brings together researchers, technology leaders and users industry under one roof which will help the industry to improve the quality of products and reduces the cost of manufacturing process by working smartly with lasers.

WHY YOU SHOULD ATTEND

- ▶ Learn from leaders in manufacturing on how to move from 'intention' to 'action'
- ▶ Case studies from the industry
- ▶ Learn about cutting edge technologies in manufacturing
- ▶ Learn more from the latest technologies
- ▶ Networking with industry leaders and manufacturing peers

WHO SHOULD ATTEND

- ▶ Managing director/CEO/VP/ proprietor
- ▶ CTP/CIO
- ▶ Production/technical head
- ▶ Project head
- ▶ Quality controls/quality assurance
- ▶ Researchers/scientists
- ▶ Design engineers
- ▶ Maintenance engineers
- ▶ Research and development labs
- ▶ Professors/faculties and many more ...

INDUSTRY TO ATTEND

- ▶ Automotive
- ▶ Toolmaking/machine manufacturing
- ▶ Railways/metro
- ▶ Defense and aerospace
- ▶ Contract manufacturing/job shops
- ▶ Electrical engineering/electronics
- ▶ Science/research
- ▶ Science/research
- ▶ Government bodies and many more...
