Innovation Hub B0

Science-Materials-Visions

One of the many highlights of BAU 2023 is the Innovation Hub in Hall B0, which is designed with sustainable materials. The focus here is in particular on the topics of resources and recycling, urban mining, modular construction, innovative construction processes.

You will find the following companies and institutes in the Innovation Hub:

- Exhibitors of the B0
- Start-ups with Innovation Challenge and guided tours
- Universities and Colleges

Exhibitors of B0

In the Innovation Hub B0, exhibitors at BAU 2023 will present their innovative products and solutions to the interested public. In addition to the Federal Ministry of Housing, Urban Development and Construction, the companies Triflex and its project partners, NFG Germany, the RKW Competence Center, Interzero and Eigner Betonmanufaktur, among others, will present their products here.
