

Job Well Done Modern Construction Solutions

Enter the world of Selena
to discover all the benefits!

○ Walls & Facades

○ Finishing Works

Ready, Steady, Bond!

Our **foam adhesives** provide superior performance for any construction project. They offer **strong initial tack, quick curing and a powerful bond, ensuring reliable results every time.** Due to polyurethane technology, our adhesives provide **excellent adhesion, flexibility, and long-lasting strength,** making them ideal, even for the toughest jobs. Foam adhesives deliver high-quality results and dependable performance in any project.

- Works well with many types of materials, including delicate surfaces.
- Stands up to temperature changes and tough conditions.
- Forms a strong, durable and long-lasting bond.

○ Windows & Doors

Assembling with Confidence

Our **polyurethane foams** are known for improving the energy efficiency of buildings by providing high-performance insulation and acoustic properties that stand the test of time. Trusted by industry professionals, Tytan Professional foams are the **go-to solution for safe, reliable window and door installations, as well as other supporting construction works such as cracks, pipes filling, etc.** Selena's extensive experience with foams has led to the creation of exceptional products, including the WINS System – a groundbreaking insulation standard that uses liquid foils and comes with a 20-year seal warranty.

○ Foundations ○ Roofs ○ Terraces & Balconies

Waterproofing Without Compromise

With over 120 years of waterproofing expertise and close collaboration with the professional roofers and contractors, we've developed innovative systems that ensure solid protection for roofs and foundations. Discover solutions that not only prevent leaks but also help reduce building temperatures. From systems designed for green roofs to those tailored for renovating older roofs with moisture trapped beneath the waterproofing layer, our products deliver reliability and performance for every project.

- **Long-Lasting Durability:** Solutions with up to 15 years of resilience against wear and weathering.
- **No Primer Needed:** Applied directly to surfaces, even wet ones, saving time and resources.
- **Enhanced Adhesion and Tear Resistance:** High adhesion and fiber reinforcement for extra durability.

○ Finishing Works

Technology That Connects

Our **hybrid adhesives and sealants**, built with advanced polymer technology, meet modern construction demands with exceptional performance across applications. These versatile products combine mounting and sealing, offering durable, flexible bonds for various materials. Solvent-free and VOC-certified.

- **High Bond Strength:** Supports up to 400 kg/10 cm², even on vertical surfaces.
- **Multi-Surface Compatibility:** Works on natural stone, mirror, metal, glass, ceramics.
- **Indoors and Outdoors Usage:** Maintains a strong hold in varying temperatures and environmental conditions.

Sealants Designed for Professionals

Our versatile sealants are essential for every construction professional. Within our extensive range of silicones, you'll find products offering up to 15 years of mold protection, food-safe certifications, compatibility with delicate surfaces, and rapid curing time. Each sealant is designed to meet the highest standards, ensuring reliable performance for demanding projects.

- **15-Year Mold Protection:** Resists mold and fungi, perfect for high-humidity areas.
- **Certified Safe & VOC-Free:** Free from harmful chemicals, suitable for all spaces.
- **Rapid Curing:** Waterproof within an hour for quick projects.

We are a global leader and distributor of construction chemicals and one of the four largest manufacturers of assembly foam for the construction industry in the world.

Our range includes high quality and innovation products from the foundation to the roof: foams, hybrids, sealants, adhesives, waterproofing products, insulation systems and complementary products. Our manufacturing plants are located in Poland, South Korea, China, Türkiye, Kazakhstan, Spain and Italy.

Over **30** years, of experience, established in **1992** in Wrocław, Poland

Operating by **30** companies, present in **19** countries, on **4** continents

6 globally integrated R&D labs

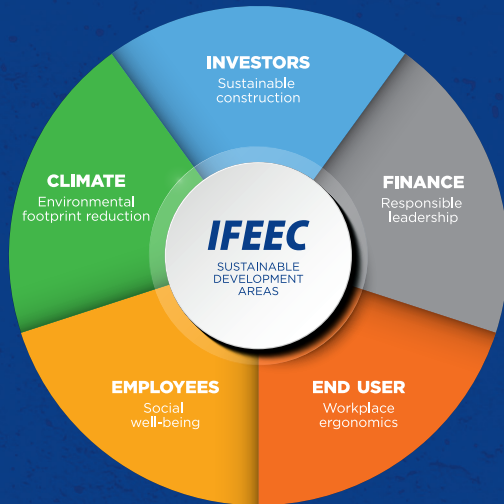

Sales to **MILLIONS** of contractors in more than **100** countries worldwide

Our TOP brands

Building a Safer, More Sustainable World

We are shaping the future of the construction industry by setting global standards, driving innovation, and inspiring positive change. Our products are designed with both the environment and end users in mind, enhancing energy efficiency and reducing environmental impact. From start to finish, our solutions meet the needs of investors and users, delivering performance and sustainability approach throughout the entire product life cycle.

Private Label Solutions

Our over 30 years of experience allows us, based on proprietary technologies, to provide construction chemistry products under our clients' private labels.

Dedicated international **team of experts**

Precisely engineered product formulation based on **unique proprietary technologies**

Highly efficient production at **16 plants** in Europe, Asia and South America

Globally integrated **R&D laboratories**
