

IRX SMART HOME SENSOR FOR WINDOWS AND DOORS

Transform your home into a fortress of security and well-being with the iRX Smart Home sensor for windows and doors – the ultimate addition to your safety arsenal.

WHY IRX SENSOR?

Enhanced Security: Receive instant notifications when doors or windows are opened or if there's any unauthorized access.

Real-Time Monitoring: Stay updated with outside weather conditions and inside ambient conditions, such as temperature, humidity, and air quality. The data is refreshed every 15 minutes.

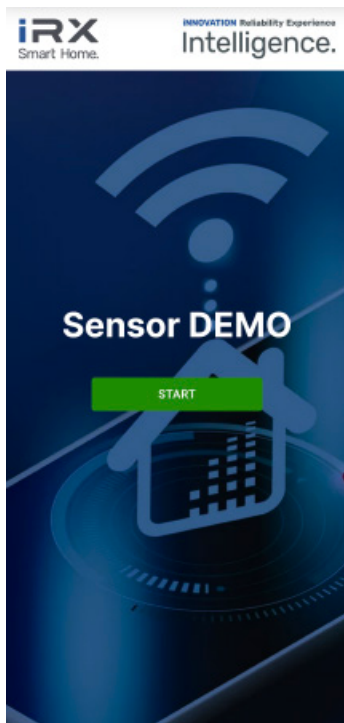

Convenient Reminders: Set reminders for open doors or windows to avoid energy waste and enhance home security.

Detailed Insights: Access activity history to track past statuses of doors and windows, enabling better understanding and management of your home environment.

Long Battery Life: Enjoy hassle-free operation with sensors boasting a battery life of up to 5 years.

Scalable Solution: Connect over 100 sensors to a single receiver, covering a wide building area.

Easy Installation and Integration: Effortlessly install sensors on windows and doors with simple setup procedures, seamlessly integrating with your existing iRX Smart home ecosystem for immediate functionality.
