What's New in 2026

1 Dual-Venue Expansion to 400,000 sqm

For the first time, bauma CHINA 2026 operates across two venues—SNIEC and SWEECC. This expansion provides a record-breaking 400,000 sqm of exhibition space to bring together more exhibitors, products, and global buyers in one unified event.

2 Full Supply Chain Coverage: from Machinery to Tech Solutions

Explore the entire industrial ecosystem. The show covers traditional sectors—including construction machinery, core components, power transmission, hydraulics, mining and building material machinery, and construction vehicles—while introducing dedicated areas for emerging technologies, including clean energy, AI, and digital industrial solutions.

3 Industry Leaders Gathering and New Product Launches

Global brands and leading Chinese manufacturers gather to debut their latest machinery, core technologies, and global strategies. This is the premier platform to directly evaluate the manufacturing, innovation, and sourcing capabilities of the Chinese market.

What’s New in 2026

4 Dedicated Zones for Green, Intelligent & Automated Technology

Under the theme "New Quality, Boundless Innovation, Shared Future", key displays feature cutting-edge solutions in action, including electric construction machinery, battery-swapping infrastructure, smart mining, and AI-driven autonomous construction.

5 High-Level Forums and Live Machinery Demonstrations

Go beyond static booths. The event features a practical supporting program including industry forums, live equipment demos, product launches, and business matchmaking. Attendees can evaluate equipment in real-world scenarios, discuss market trends with technical experts, and gain direct strategic insights from industry leaders.

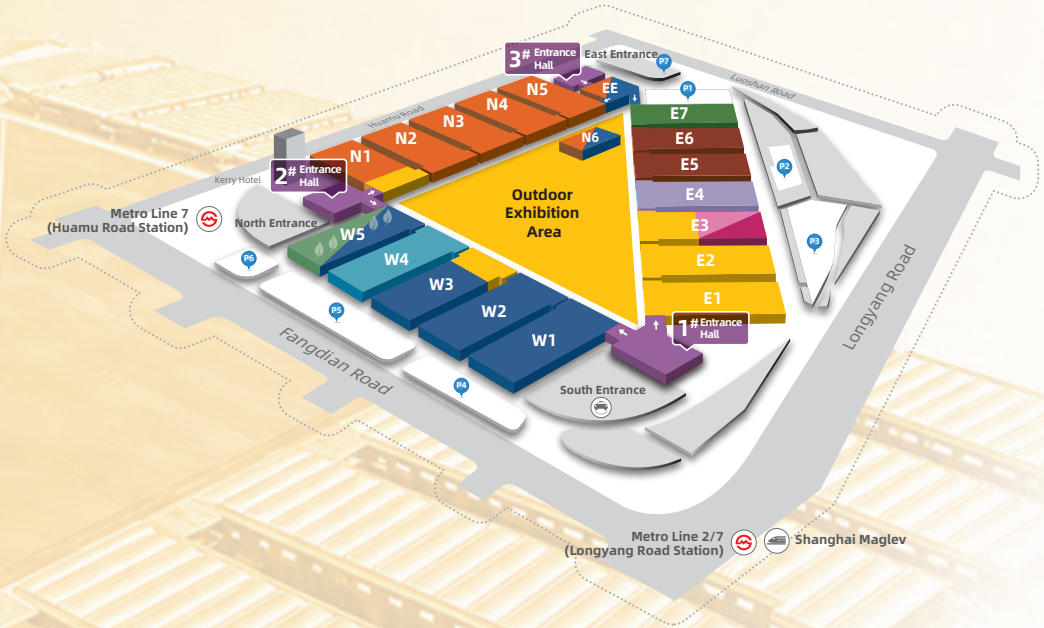

6 Matchmaking with Suppliers and Buyers from China and International Markets

Leveraging bauma NETWORK and local partnerships, the exhibition connects international attendees directly with premium Chinese manufacturers and top-tier buyers from the Asia-Pacific region to facilitate efficient, high-value sourcing and partnerships.
