Chief Executive Officer
bauma CONEXPO INDIA

No power on earth can stop an idea whose time has come, and the India growth story is one such powerful idea that is executed in every corner of the country everyday in the form of infra development. I'd like to say the same about this sixth edition of bauma CONEXPO INDIA that has returned after a four-year hiatus. With the largest ever domestic participation in the history of the show, this edition truly demonstrates the sheer power of the industry's faith in India's ambitious development goals. Hence, we are delighted to receive support from the leading industry associations, and we are truly proud to welcome some of the pioneering construction companies during the four days of this trade fair.

Indian manufacturing is at the cusp of global expansion, and Made in India construction equipment and heavy vehicles are being exported to some of the most developed markets of the world. The Indian equipment manufacturing ecosystem is likely to become the second largest in the world, and we at bauma CONEXPO INDIA are delighted to offer our contribution towards this bold target. Through our well-curated technology displays, focussed conferences, participation of high-level industry influencers, and government support, we are confident that this platform will continue enabling meaningful handshakes and unlocking business opportunities for all stakeholders.

I hope this Exhibition Directory serves as a handy guide to the plethora of products and programs available during the four days of the trade fair. Here's to more knowledge, insights, and business at bauma CONEXPO INDIA 2023, and beyond!

MESSAGE

I am happy to learn that *bauma CONEXPO INDIA 2023* — the International Trade Fair for Construction Machinery, Building Material Machines, Mining Machines, and Construction Vehicles will be organized from January 31 to February 03, 2023 at India Expo Centre (IEC), Greater Noida, Uttar Pradesh.

The construction industry plays a major role in a country's development. India is making great leaps and bounds in all areas of technological advances and the support system can help this growth. The construction industry is the second largest employer of manpower after agriculture. Besides, construction and infrastructure are very fundamental and vital for development of all the sectors of economy.

Our government is committed to developing world class infrastructure for the country. Innovation, Research & Technology, and Conversion of Knowledge into Wealth, will be the 3 key elements propelling us to this \$5 Tn GDP goal. We have made significant and visible progress over the last few years in Highway construction as a result the pace of road construction has been elevated and continuous investment has been ensured for development of our countries infrastructure.

bauma CONEXPO INDIA has been playing a pivotal role in the inculcation of new construction technologies. I am sure *bauma CONEXPO INDIA* will further encourage mechanization of construction processes across India especially in North Eastern States.

On this occasion, I congratulate the Organisers and extend my best wishes for the success of *bauma CONEXPO INDIA 2023*.

MESSAGE

Despite many global challenges, India is on a firm growth path as indicated by our Government's commitment towards the Gati Shakti Yojana with a total investment of over Rs.100 lakh crore. Currently, we have one of the highest rates of highway construction in the world. Indians will surely see the benefits of this fast-paced development in the years to come. To realise India's full potential as a construction and manufacturing hub, the industry needs to actively converge to solve the key challenges confronting this sector. Hence, trade shows of the standards of bauma CONEXPO INDIA 2023 are essential towards taking Indian construction to the global stage of leadership. Wishing you success in CONEXPO INDIA 2023.

[General (Dr.) V.K. Singh]

Welcome Address

We are delighted to host the 6th edition of bauma CONEXPO INDIA in Greater Noida this year. Infrastructure development is the key focus for economic growth and employment creation in the country today. Infra projects across the country, especially in

Uttar Pradesh, are designed to solve complex problems on the ground and improve citizens' quality of life. For instance, over the next few years, UP will be the only state in India with the highest number of six-lane, access-controlled expressways. The proposed international airport in Jewar, Greater Noida is another example of transport and connectivity infra that is expected to significantly improve the state GDP.

Therefore, I am delighted to welcome all the Indian and international delegates exhibiting and visiting bauma CONEXPO INDIA 2023. Technology is an important growth enabler, and we are confident that the wide range of equipment and heavy vehicle technologies displayed at this international trade fair will benefit the infra development ecosystem in India. I extend a special warm welcome to the global companies exhibiting their solutions on this platform. As demonstrated before, large-scale equipment manufacturers will certainly benefit from the entrepreneurial spirit and hardworking nature of the people of Uttar Pradesh.

Once again, I welcome all the exhibitors, technical experts, conference speakers, policy-makers, delegates, and visitors from India and across the globe to this 6th edition of bauma CONEXPO INDIA. On behalf of the State Government, I wish you all more wealth and success at this platform, and hope you enjoy the warmth and hospitality of Uttar Pradesh. I extend best wishes and gratitude to the organizers for choosing this location to do business. I am looking forward to many more such partnerships and opportunities in our state.

**Thank You,
Shri. Nand Gopal Gupta
Cabinet Minister for Industrial Development, Export Promotion, NRI,
Investment Promotion,
Government of Uttar Pradesh.**

Message

Bauma CONEXPO INDIA trade fair is one of the key events which addresses the "Infrastructure" sector, one of the key drivers for India's Economy Growth. I am happy that the organizers chose Greater Noida, Uttar Pradesh for this event.

The state has a well-developed social, physical, and industrial infrastructure. The state has witnessed a high rate of infrastructure growth in the recent past. The state is building the largest network of expressways of which 929 km has already become operational and another around 980 km is under construction. Eastern & Western Dedicated freight corridors, Delhi-Ayodhya-Varanasi high speed rail corridor, RRTS in NCR, India's first inland waterway project between Haldia & Varanasi, DMIC & AKIC are coming up with GOI support. The air connectivity is rapidly increasing & a number of metro projects are coming up. There has been a considerable rise in the number of industrial clusters/hubs/Parks and Public-Private-Partnership (PPP) projects in the infrastructure domain. Significant investment have already been attracted in various defence corridor nodes one of them being the Brahmos manufacturing facility in lucknow node.

We look forward to this industry gathering.

Yours sincerely

Arvind Kumar

Ms. Gunjan Dutt,

Welcome Address

The construction industry plays a vital role in the economic growth of our nation and helping the government to translate the socio-economic development plan for constructing building and infrastructure projects (including housing, schools, highways, airports, ports etc.), which significantly improve the quality of life of our citizens

India's GDP is projected to grow at 7.5%. Construction industry is expected to grow at 10% due to the various initiatives of the Government, like increased investment in infrastructure – like National Highways, Railway Infrastructure, Defence Sector, Nuclear Power Sector, etc. It is also estimated that by 2025, 110 million housing units are required due to the mass urbanisation. Requirement of commercial real estate is also expected to increase. With such a large amount of investment in infrastructure construction and housing construction planned by the Central and various State Governments, use of latest technology and materials will be very important.

Faster construction with quality will be the key to success in meeting the anticipated infrastructure and real estate requirement. For this latest machinery and methods will be have to be used.

Instead of we contractors and builders going abroad to various countries or the various factories in India to source our machinery and materials, exhibitions like 'bauma CONEXPO INDIA' bring the technology and material to our doorstep and hence we encourage bai members to visit 'bauma CONEXPO INDIA'.

Players of the Indian building and construction industry look forward to exhibitions like 'bauma CONEXPO INDIA' for their requirements.

BAI is proud to be associated with Messe Muenchen India and Association of Equipment Manufacturers (AEM) as a Joint Organiser in organising bauma CONEXPO INDIA.

BAI is sure that members from across India will immensely benefit from the information and display at 'bauma CONEXPO INDIA 2023'.

As President of Builders' Association of India, it is my privilege to welcome the national and international exhibitors and visitors.

Wishing 'bauma CONEXPO INDIA 2023' the very best.

Niimesh Paatel
President
Builders' Association of India

I would like to express my felicitations for the upcoming 6th edition of bauma CONEXPO INDIA, to be held at India Expo Centre, Greater Noida between 31st January and 3rd February, 2023. The event is one of the largest in North India for the Construction Equipment sector, focusing on heavy vehicles and equipment that have the capacity to drive India's infra-led growth.

ICEMA, in the spirit of its long-standing cooperation agreement with bauma CONEXPO INDIA, continues to be a convergence point for industry stakeholders to network, explore business opportunities and showcase the latest innovations at the event. Further, with its steadily growing membership comprising leading OEMs, suppliers and financiers, ICEMA continues its collaboration with bauma CONEXPO INDIA to create and provide networking platforms to CE stakeholders for enhanced outreach and business promotion.

Having long played a pivotal role in curating innovative, state-of-the-art construction technologies and showcasing the latest machines and new product variants from Indian and global companies, bauma CONEXPO INDIA provides an ideal opportunity for sharing knowledge of technologies and best practices. The forthcoming edition of CONEXPO will spotlight the CE industry, which is poised for recovery on the back of infrastructure development in the country. This exposure to the extensive range of products from the Indian CE industry is, further, expected to encourage increased mechanization and help develop a robust manufacturing ecosystem in the country, bolstering India's standing as a major potential exporter of construction equipment to global markets.

The event is expected to host over 600 exhibitors from more than 20 countries, showcasing 10,000 plus products and solutions, and drawing more than 50,000 visitors in the four-day duration. Besides being a platform to disseminate information about technological advancement and the range of construction equipment available, the event will also highlight the industry's focus on sustainability and gender diversity.

It is, my pleasure and privilege to present the Catalogue for bauma CONEXPO INDIA 2023.

On behalf of ICEMA I wish all the participants overwhelming success.

Dimitrov Krishnan
President
ICEMA

Welcome Address

The Global Aerial Work Platform Industry is expected to witness a significant growth owing to its widespread utilization in various end-use industries such as transportation, logistics, retail, storage, construction and warehouse. Boomlifts are anticipated to be in high demand due to their adaptability and wide range of applications and also their ability to maneuver around numerous barriers, particularly in the maintenance of electric utilities, telecommunications and construction related activities.

It is anticipated that the availability of a wide range of associated Aerial Platforms and portable vehicle-mounted equipment would accelerate market expansion over the forecast period. It includes Truck-Mounted Boomlift, Self-propelled electric and diesel boom and scissor lifts.

The Global Aerial Work Platform market size was valued at USD 15.64 billion in 2020 and is expected to expand at a compound annual growth rate (CAGR) of 6.3% from 2020 to 2028. Substantial increase of government's investments in constructing residential buildings, commercial complexes, public transport infrastructure and others are expected to propel the demand for Aerial Work Platform (AWP) over the forecasted period.

Aerial Platform Association of India (APAOI) is proud to be associated with Bauma Conexpo India 2023. AWP industry across the globe will get immensely benefitted from the information and display at Bauma Conexpo India 2023.

On Behalf of APAOI, as President of Association wishing all the best to "Bauma Conexpo India 2023".

Manish Maheshwari
President
Aerial Platform Association of India (APAOI)

The year 2022 was the year when the Indian construction industry saw exceptional and tremendous growth which laid a very strong foundation for future projects.

As we have entered 2023 the industry is showing no signs of slowing down rather it is heading toward significant growth.

2023 is expected to see a significant rise in new projects across the country leading to an increase in demand for construction equipment.

The Indian construction industry is forecast to register an annual average growth of 6.2% from 2023 to 2026, supported by a strong pipeline of infrastructure projects across various sectors.

We must really appreciate the initiatives taken by the Indian Government to put our country's Infrastructure on the right track.

We are very hopeful that Construction companies will continue to consider renting construction equipment because it allows them to keep up with technological advancements at lower costs.

Rented equipment also allows construction companies to test whether different machines deliver the expected results.

As can be seen, 2023 is shaping up to be a fantastic year for construction. With technological advancements and the high demand for services, the only way to go is up.

Crane Owners Association of India is proud to be associated with team bauma Conexpo India and is very much hopeful that the esteemed members of COAOI will be hugely benefited from the networking opportunities, range of world-class machinery, and the new technologies available during bCI 2023.

COAOI proudly welcomes all the exhibitors and visitors to be part of this huge event.

As a President of the Crane Owners Association of India and on behalf of our COAOI Family esteemed, I wholeheartedly wish lots of good luck to team bCI and to be one of the best and most successful editions of bCI.

Premal Thaker
President
Crane Owners Association of India

Welcome Address

Message From The President

Greetings.

It is my immense pleasure to know that bauma CONEXPO INDIA 2023 is happening in Greater Noida, India. Me, as president of Federation of Contractors' Associations of Nepal (FCAN), am very proud to be associated with bauma CONEXPO INDIA. I would like to express my heartfelt appreciation for the outstanding job the team is doing in organizing this mega Expo. From the impressive lineup of speakers to the engaging and informative exhibitions, every aspects of the Expo looks expertly planned. I am sure there has been tireless efforts from the whole bauma team. I am very hopeful with the contribution that the entire team has done; the expo will be a memorable and valuable to all the delegates attending it.

Further, FCAN has also been organizing events such as Nepal Build Tech and other expos previously but due to the pandemic it was on hold, however, since now things are back to normal I would like to ensure we shall again organize such mega construction expos under the flagship of FCAN with the support of organizations such as bauma.

Lastly, I wish for the grand success of CONEXPO INDIA 2023 and I look forward in being a long term associate with it.

Thank You.

With best regards,

**Mr. Rabi Singh,
President,
International Federation of Asian and Western Pacific Contractors' Associations (IFAWPCA)
and
Federation of Contractors' Associations of Nepal (FCAN)**

Why RRR will be the Government's formula too in 2023

As we enter the new year in 2023, the market investors will begin to search for clues from the Union Budget 2023-24. This will be the Modi administration's final full-year budget before the Lok Sabha elections in May 2024. Some anticipate that the government will continue to prioritise infrastructure improvement while following the path of fiscal restraint. On the other hand, people anticipate new changes and tax advantages.

In FY 21, the year that faced lockdowns a record 13,327 km of highways were built at 36.51 km per day. However, last year in FY22 the pace has slackened to 10,457 km at 28.64 km per day. This year in FY23, only 4,766 km of the targeted 12,000 km of highways for FY23 had been built from April to November, indicating a decline of nearly 7 per cent from 5,118 km in the same period last year. Sadly, the target of 12,000 km is likely to be missed.

According to the investment lead growth paradigm, infrastructure will continue to be a major growth engine. The \$5 trillion economic dream of India cannot be realised without the construction equipment sector, thus as a sector, we are hoping that the Budget will help unlock the prospects this market has to offer.

Just like the super hit movie from South India which has received rave reviews and box office collections both within India and overseas, we expect Roads, Railways & Rural Development (RRR) to be top of the agenda for the government in 2023.

Pratap Padode
Founder & President
FIRST Construction Council

I am extremely happy to know that Bauma **CONEXPO INDIA 2023** the Incineration Trade fair for Construction Machinery, Building Material Machines, Mining Machines and Construction Vehicles will be held from January 31 until February 3, 2023 at India Expo Centre, Greater Nodia/Delhi NCR, Uttar Pradesh.

Infrastructure sector is a key driver for the Indian economy. The sector is highly responsible for propelling India's overall development and enjoys intense focus

from Government for initiating policies that would ensure time-bound creation of world class infrastructure in the country. Infrastructure contributed around India's GDP is projected to grow at 9.2% Construction industry is expected to grow at 12% due to the various initiatives of the Government; Infrastructure sector includes power, bridges, dams, roads, and urban infrastructure development. In other words, the infrastructure sector acts as a catalyst for India's economic growth as it drives the growth of the allied sectors like townships, housing, built-up infrastructure and construction development projects.

Gujarat Contractors Association is proud to be associated with '**Bauma CONEXPO INDIA**' – Trade Fair for Construction Machinery, Building Material Machines, Mining Machines and Construction Vehicles and is sure that **GCA members from across Gujarat** will immensely benefit from the information and display at '**Bauma CONEXPO INDIA 2023**'.

As Chairman of Gujarat Contractors Association, it is my privilege to welcome the national and international exhibitors and visitors.

I convey my good wishes on this Occasion, my hearty congratulation and best wishes for the Success of **Bauma CONEXPO INDIA 2023**.

Arvind V. Patel

Chairman

Gujarat Contractors Association

office@gcaindia.co.in | www.gcaindia.co.in

President's Message

bauma CONEXPO INDIA—the International Trade Fair for Construction Machinery, Building Material Machines, Mining Machines, and Construction is a known event in the Indian Construction fraternity. The India Chapter of ACI being one of the most renowned organizations in the field of Building Material is happy to be associated with this event and promote the concept of “Progress through Knowledge” with regards to the Concrete and the Building Material Industry.

At the time the Construction Industry is rebounding to its pre-pandemic growth levels, events such as bauma CONEXPO will help bring the industry together with exposure to new technologies, exchange of ideas and much needed networking opportunities.

We are glad to support bauma CONEXPO's focus future trends, latest innovations and new projects in the construction, building materials and mining machinery industries. We are looking forward to bauma CONEXPO coming back even more successful with full zest and vigour. We wish the event all the very best.

**Er. Sunny Surlaker,
President,
India Chapter of American Concrete Institute**

Welcome Address

Rajan Bandelkar

President

National Real Estate Development Council

On behalf of National Real Estate Development Council (NAREDCO), I would like to extend my heartiest congratulations to Messe München and the Association of Equipment Manufacturers for organising the **bauma CONEXPO INDIA** on 31st January to 3rd February 2023 at India Expo Centre, Greater Noida.

We are very proud to announce that NAREDCO will be participating in the event as an Association Partner, representing the Real Estate Sector of India. We hope this event would be a great success, just as it has been year after year.

PAVERS AND BLOCKS MANUFACTURERS ASSOCIATION

(Regd. Under Section 8 of Companies Act, 2013), CIN No. U74999MH2018NPL308583

President's Message for bC Expo 2023:

“This bC Expo we, Pavers and Blocks Manufacturers Association (PBMA), wish our members and the entire Concrete Products manufacturing industry a very successful and prosperous year in 2023.

Our non-profit association of Indian Concrete Paving Blocks industry is making renewed efforts to promote the increased and widespread use of, not only Precast Concrete Paving Blocks, but also other Precast Concrete products such as Permeable Paving, Paving Grids, Grass Pavers, Flags, Tactile Ground Surface Indicators (TGSI), etc. This is in line with growing demand in the construction industry for such new products and developments. These requirements have been aided by the Bureau of Indian Standards moving swiftly to strengthen product quality of existing concrete products as well as quickly introducing new standards for concrete product developments in the market.

As the leading voice of Concrete Paving Block industry, PBMA reiterates its commitments to promote the proper usage and specification of quality Concrete Paving products in a sustainable and efficient manner across Residential, Commercial, Industrial segments as well as with Municipal, State Government, Oil Marketing Companies, National Highways, Railways Ports and Airports authorities.

PBMA continues to provide a platform for education, information sharing and networking among its members and with external agencies through its quarterly and annual meetings. PBMA invites other Precast Concrete Paving Blocks producers to join this remarkable platform to strengthen their business image and let their customers know that their products and practices are of reputable quality and meet or exceed industry standards.”

For tapping the business opportunity in the emerging Indian Infrastructure and Real Estate Sector, **BAI offers . . .**

Advertising in 'Indian Construction'

The widely circulated monthly Journal is not only the mouth piece of BAI but a regular and dependable authenticate information provider to the constituents of the Indian construction sector. It has a captive subscription base.

Product Write-ups

Write-ups of products are carried in the 'Indian Construction' Journal in a way that it is of interest and information to readers. Most of the times it complements an advertisement of a product in the same issue.

Exhibitions/Trade fairs

Exhibitions/Trade fairs are regularly held by BAI in various parts of India.

Conventions/Seminars /Conferences

Conventions/Seminars/Conferences are organised regularly by BAI in various parts of India and on specific topics too. These events are many times clubbed along with Exhibitions/Tradefairs.

Construction Industry Referencer

BAI publishes Construction Industry Referencer (CIR) the official membership directory of BAI containing all details of its members. Being a collector's volume, advertisements in the CIR get multiple exposures.

Website

The newly launched and regularly updated BAI Portal 'www.baionline.in' is a much sought after website for the information hosted on it. Advertisements, banners, messages and links on the website get wide exposure.

One-to-One meetings

One-to-One meetings with specific groups of members are also arranged by BAI on request by a supplier/manufacturer in various parts of India.

Research/Survey/Opinion gathering exercise

This is also done as per requirement.

12th edition

The largest Fair of Machinery and Equipment for Construction and Mining in Latin America

PART OF **bauma NETWORK**

— April **2024**
23rd to 26th
São Paulo Expo

WHAT IS M&T EXPO?

Since 1995, M&T Expo has been the most important event of the segment in Latin America.

A reference and meeting point for manufacturers, users and suppliers. It is part of the international **bauma NETWORK** and promotes the development of the sector by conducting businesses, disseminating knowledge, presenting launches and innovations, in addition to fostering networking among professionals in the market 365 days a year.

- Market News
- Business Showcase
- Demo Arena
- Road show LATAM
- M&T Expo's exclusive App
- Innovative formats for brand activation
- Webinars M&T Expo

EVENT SECTORS

Concrete and Asphalt

Sector related to machines and equipment for construction works, both related to infrastructure and buildings, as well as machines and equipment for mining.

Equipment for Construction and Mining

Space that brings together exhibitions of machines and equipment for the production, launching and finishing of concrete and asphalt, in its various applications.

Components and Services

Sector dedicated to suppliers of parts, components, inputs and services for the maintenance and retrofit of machinery and equipment.

Lifting of Loads and People

Area destined for machines and equipment that carry out work for lifting loads and people, in the numerous applications of the sector.

Hon'ble Lt. Governor, Jammu & Kashmir

Shri Venkaiah Naidu
Former Hon'ble Vice President of India

Shri Nitin Gadkari
Hon'ble Minister for Road Transport, Highways and Shipping, Govt. of India

About NAREDCO

National Real Estate Development Council (NAREDCO) was established, in 1998, under the aegis of Ministry of Housing and Urban Affairs, Govt. of India, and is the premier real estate government industry association of India. It aims to provide the government, real estate industry and the general public a legitimate platform to address their concerns and find effective solutions for issues plaguing the real estate sector. NAREDCO hopes to raise the standards of operations related to building, construction and marketing in the real estate sector. They participate in the formulation of national policies for fiscal reforms and work towards boosting economic development by acting as a catalyst in the Indian Real Estate Industry. NAREDCO's structure comprises National, State and City Councils ensuring that the Policy Recommendations by NAREDCO are a true reflection of ground realities and capture the geographical spread. While the National Council concentrates on macro issues, the State Councils address state level concerns and City Councils focus on local and ground issues. Currently, the organization has over 5000+ members pan India directly under NAREDCO and its State Chapters associated with it.

KEY NAREDCO ACTIVITIES

- Policy Advocacy • Knowledge Hub
- Member Support • Education & Training
- Publication of National Realty • Special Projects

STATE PRESENCE

- Rajasthan • Haryana • Andhra Pradesh • Telangana
- Odisha • Karnataka • Maharashtra • Madhya Pradesh
- Uttar Pradesh • Gujarat • Jammu & Kashmir

- 1.5.9 Forklifts
- 1.5.10 Lift trucks
- 1.5.11 Lifting technology, others

1.6 Construction equipment, tools and special systems

- 1.6.1 Stone processing equipment
- 1.6.2 Equipment and tools for reinforcing steel processing
- 1.6.3 Ground water lowering systems, construction pumps
- 1.6.4 Compressed air tools
- 1.6.5 Hydraulic tools
- 1.6.6 Electrical tools
- 1.6.7 Petrol-driven drills
- 1.6.8 Joint cutters
- 1.6.9 Laser cutting systems
- 1.6.10 High-pressure and steam cleaners
- 1.6.11 Sand and shot blasting cleaners
- 1.6.12 Surveyor's equipment
- 1.6.13 Bolt cutters
- 1.6.14 Welding sets and accessories
- 1.6.15 Compressors
- 1.6.16 Canal sheeting equipment
- 1.6.17 Canal maintenance equipment
- 1.6.18 Wheelbarrows and construction ladders
- 1.6.19 Garbage compactors

1.7 Handling and processing concrete and mortar at construction sites

- 1.7.1 Concrete pumps
- 1.7.2 Distributer booms for concrete pumps
- 1.7.3 Truck mixers
- 1.7.4 Pneumatic conveyors
- 1.7.5 Mortar pumps
- 1.7.6 Concrete guns
- 1.7.7 Concrete injectors
- 1.7.8 Waste concrete recycling, residual concrete washing systems
- 1.7.9 Rendering machines
- 1.7.10 Concrete compaction
- 1.7.11 Telescopic conveyor belts (self propelling)
- 1.7.12 Aggregates for the concrete and mortar processing
- 1.7.13 Concrete vibrator

1.8 Formwork and scaffoldings

- 1.8.1 Formwork systems for civil engineering

- 1.8.2 Formwork systems for bridge building
- 1.8.3 Formwork systems for tunnel construction
- 1.8.4 Formwork plates
- 1.8.5 Formwork cleaning, repair and regeneration
- 1.8.6 Software systems for formwork planning
- 1.8.7 Formwork accessories
- 1.8.8 Scaffolding

1.9 Site installations

- 1.9.1 Portakabins
- 1.9.2 Motor caravans, job site and office caravans
- 1.9.3 Mobile toilet units
- 1.9.4 Hangars, mobile and stationary
- 1.9.5 Contractors' air heaters
- 1.9.6 Power distributors
- 1.9.7 Signal and locking systems for construction sites
- 1.9.8 Safety nets and belts
- 1.9.9 Concrete removing and rust-protection agents
- 1.9.10 Concrete and mortar buckets
- 1.9.11 Loading rails
- 1.9.12 Construction site lighting
- 1.9.13 Construction site fences
- 1.9.14 Mobile gas stations
- 1.9.15 Construction waste chutes

2 Mining, Extraction and Processing of Raw Materials

2.1 Machines for extraction of raw materials and for mining

- 2.1.1 Shaft sinking
- 2.1.2 Exploration drilling
- 2.1.3 Heading (also for tunneling)
- 2.1.4 Shaft support
- 2.1.5 Roof for roadways supports
- 2.1.6 Facilities for lowering groundwater
- 2.1.7 Pumps
- 2.1.8 Scrapers for gravel extraction
- 2.1.9 Longwall mining
- 2.1.10 Room and pillar and vein mining (also tunneling)
- 2.1.11 Ventilation and air-conditioning
- 2.1.12 Stowing
- 2.1.13 Dewatering
- 2.1.14 Open cast mining, extraction
- 2.1.15 Marine mining

- 2.1.16 Blasting equipment
- 2.1.17 Surveying/measuring technology for mining

2.2 Handling of raw materials

- 2.2.1 Continuous conveying
- 2.2.2 Bin equipment
- 2.2.3 Stockyard systems

2.3 Mineral processing (incl. coke oven equipment)

- 2.3.1 Complete processing plant
- 2.3.2 Crushers
- 2.3.3 Mills
- 2.3.4 Screening machines
- 2.3.5 Sorting equipment
- 2.3.6 Dewatering units
- 2.3.7 Briquetting plants
- 2.3.8 Palletising machines
- 2.3.9 Granulation machines
- 2.3.10 Bins
- 2.3.11 Dryers for sand and gravel
- 2.3.12 Dedusting units
- 2.3.13 Water treatment systems
- 2.3.14 Coking plants

3 Production of Building Materials

3.1 Manufacture of cement, lime and gypsum compounds for building materials

- 3.1.1 Machinery and plant for the cement industry
- 3.1.2 Machinery and plant for the gypsum industry
- 3.1.3 Machinery and plant for the lime industry
- 3.1.4 Ovens, cookers, autoclaves
- 3.1.5 Pulverizing calcination plants
- 3.1.6 Coolers
- 3.1.7 Mixing plants / mixers
- 3.1.8 Machines and systems for producing gypsum and gypsum plasterboard

3.2 Machines and systems for producing concrete, concrete products and pre-fabricated components

- 3.2.1 Machines and plants for producing fresh concrete
- 3.2.2 Machines and plants for producing concrete blocks and plates
- 3.2.3 Plant engineering for piping and shaft construction
- 3.2.4 Plant engineering for producing pre-fabricated concrete parts

- 3.2.5 Plant engineering for lightweight building blocks
- 3.2.6 Machines and plants for working reinforced concrete

3.3 Machines and plants for producing asphalt

- 3.3.1 Turnkey mixing systems
- 3.3.2 Mixing plants / mixers
- 3.3.3 Cookers
- 3.3.4 Systems for the bitumen production

3.4 Machines and plants for producing pre-mixed dry mortar, plaster, screed and building supply store products

- 3.4.1 Turnkey systems
- 3.4.2 Mixing plants / mixers

3.5 Machines and plants for producing lime sandstone and building products using power plant residue (fly ash, slag, etc.)

- 3.5.1 Turnkey systems
- 3.5.2 Mixing plants / mixers
- 3.5.3 Lime sandstone presses
- 3.5.4 Autoclaves

3.6 Building material handling and packaging (in a plant)

- 3.6.1 Mechanical conveyor systems (conveying worms, band conveyors, conveyor belts, vibration machines)
- 3.6.2 Pneumatic conveyor systems
- 3.6.3 Transport and storage systems
- 3.6.4 Metering and weighing equipment
- 3.6.5 Packaging systems and accessories
- 3.6.6 Control and process control engineering

4 Component and Service Suppliers

4.1 Transmission engineering, fluid technology and power generation units

- 4.1.1 Motors and engines
- 4.1.2 Gearwheels
- 4.1.3 Gear units
- 4.1.4 Axles
- 4.1.5 Cardan shafts
- 4.1.6 Steering mechanisms
- 4.1.7 Coupling
- 4.1.8 Brakes
- 4.1.9 Hydraulic drive, control and process control engineering

- 4.1.10 Pneumatic drive, control and process control engineering
- 4.1.11 Power generation units, stationary
- 4.1.12 Power generation units, mobile
- 4.1.13 Frequency and current transformers
- 4.1.14 Batteries
- 4.1.15 Electricity equipment for vehicles
- 4.1.16 Other power distribution elements and lighting
- 4.1.17 Equipment and accessories
- 4.1.18 Electrical drive, control and process control engineering
- 4.1.19 Hybrid drive

4.2 Attachments, Accessories and wear parts

- 4.2.1 Attachments for construction vehicles
- 4.2.2 Attachments earth-moving machines
- 4.2.3 Rubber/metal connectors
- 4.2.4 Track-laying chassis
- 4.2.5 Teeth and cutting strips
- 4.2.6 Round shaft chisels and similar tools
- 4.2.7 Hydraulic hoses
- 4.2.8 Tubes and hoses for concrete pumps, mortar pumps and pneumatic conveyors
- 4.2.9 Ropes, reels, chains, etc.
- 4.2.10 Linings for crushers, mills, etc.
- 4.2.11 Screen decks
- 4.2.12 Vulcanization equipment and materials
- 4.2.13 Brushes, technical
- 4.2.14 Drivers' cabs
- 4.2.15 Driver seats
- 4.2.16 Heaters, coolers, etc.
- 4.2.17 Special tires
- 4.2.18 Tire chains and anti-skid chains
- 4.2.19 Brake and clutch linings
- 4.2.20 Filters for motors/engines
- 4.2.21 Gaskets
- 4.2.22 Central lubrication systems, lubricants
- 4.2.23 Noise-protection systems
- 4.2.24 Coolers
- 4.2.25 Protective ventilation and air-conditioning systems
- 4.2.26 Remote radio controls
- 4.2.27 Fire extinguisher systems
- 4.2.28 Explosion protection equipment's
- 4.2.29 Engine exhaust gas purifiers
- 4.2.30 Equipment and accessories, other
- 4.2.31 Steel Material

4.3 Services

- 4.3.1 Trade publishers, trade literature, films and photographic documentation
- 4.3.2 Professional associations / organizations
- 4.3.3 Equipment rental companies
- 4.3.4 Financing / leasing / insurance companies
- 4.3.5 EDP hardware and software for fleet management
- 4.3.6 Consulting / engineering
- 4.3.7 Research and advice
- 4.3.8 Public agencies, business and professional associations, other organizations

4.4 Test, measurement and process control engineering

- 4.4.1 Measuring, steering, controlling (software, sensor technology, recording, documentation and evaluation)
- 4.4.2 Testing facilities
- 4.4.3 Automation

4.5 Communication and navigation

- 4.5.1 Remote control technique and data transmission
- 4.5.2 Goods technology and operation, monitoring, documentation and evaluation
- 4.5.3 Telephones, radio systems, intercom systems and signal systems
- 4.5.4 Navigation equipment

4.6 Job safety

- 4.6.1 Respiratory Equipment
- 4.6.2 Rescue equipment
- 4.6.3 Testing equipment
- 4.6.4 Clothing
- 4.6.5 Dedusting

CONSTRUCTION TIMES is India's leading magazine on Construction & Infrastructure industry, and **EQUIPMENT TIMES** is India's most read magazine on Construction & Mining Equipment industry, published by ARK Events & Media Pvt. Ltd. which deliver quality contents and updated information on the Construction & Infrastructure industry.

INDUSTRIES COVERED

- Construction
- Infrastructure
- Mining
- Expert Opinions
- Construction Technologies
- Construction Equipment
- Construction Materials
- Product Updates
- Real Estate
- Architecture & Interiors
- Logistics

SECTIONS COVERED

- Construction Equipment
- Infrastructure
- Mining
- Equipment Technologies
- Authored Articles
- Project Report
- Site Report
- Product Launch
- Case Study
- Industry Update
- Components, Accessories & Spares

Infrastructure Line

(The Newspaper Connecting Infrastructure Business)

Encash Billion Worth Business Opportunities by reaching out to the decision makers...

Subscribe & Advertise
in the monthly Newspaper

TOPICS COVERED :

Concrete, Roads & Bridges, EPC, Transport & Logistics, Steel, Welding, Facades & Roofing, Water Proofing, Scaffolding, Construction Equipment, Construction Chemicals, Finance, Cement, Fabrication, Industrial Automation, Earth Moving Equipments

TARGET AUDIENCE :

Circulated throughout the country, Infrastructure Line enjoys a readership of more than 1,00,000 including Project Developers, Project Promoters, Vendors, Project Managers, Architects and Consultants.

CONTENTS :

New Projects, Project Updates, Contract & Awards, Interviews, Special Issues, Site Report, Technology Updates, Events Update
