

Exhibitor Forum - Technical Presentation Topics

Wednesday - 5th July 2023

Time	Company Name	Speaker Name	Topic
10:00	SALDA	Sarah Cohen	Key Note
10:30	OPENING CEREMONY		
10:45	Wirsam	Carmen Kaiser-Bruegmann	XRF Best Operating Practices BOP using the ZSX Primus IV
11:00	Vaccubrand	Christian Ehret - Area Sales Manager	Modern vacuum supply. Vacuupure & Vacuu-Lan Networks
11:20	Intercal	Guy Sneling	facility and equipment qualification (IQ/OQ/PQ) and the general calibration of laboratory equipment
11:40	Berthold	Dr. Christian-H. Kuechenthal	automation solutions (Zoom HT and Crocodile ELISA miniWorkstation)
12:00	Asecos 1	Sascha Kunkel – Vice President of Global Markets	Hazardous Materials: Knowing and Avoiding the Risks
12:20	Metrohm	Romola Issari	Unleash the power of Ion Chromatography with more Metrohm detectors
12:40	Labrecycling BV	Herwin Smit	Why should you buy refurbished chromatography instruments
13:00	Copan	Nicolo Tagliani - Business Development Manager	The importance of sample collection and transport. "Little investment, massive gain"
13:20	Apex	Ir. Tibo Volleman	Real time, continuous, label-free in vitro cell based assays
13:40	Leco	Christina Kannigadu (PhD) Application Specialist	Microplastics and the environment by TGA-TAU-GCxGC-MS: A world first coupling of a TGA to a GCxGC-MS platform using the Twister
14:00	Lauda	Marco Hauser - Area Sales Manager	Water distillers - safe technology and economic alternative to ultra filtration systems
14:20	Metrohm	Pieter Norval	Why wait longer than a minute for Food Analysis results? Go fast, go green, go Metrohm NIR.
14:40	Gerstel	Pieter Stoutjesdijk Regional Sales Manager Western-Europe, Middle-East, Africa	A Modern Lab Automation tool for Efficient, Miniaturized PFAS Analysis
15:00	Perkin Elmer	Victoria Wagener, Inorganic Applications Specialist, PerkinElmer	DeMISTifying Hydride elemental analysis using ICP-OES
15:20	Labotec	Natasha Malan, Water Specialist Labotec for Elga	Harmonising your lab's water purity for effective, optimised results

Exhibitor Forum - Technical Presentation Topics

Thursday - 6th July 2023

Time	Company Name	Speaker Name	Topic
09:40	Sartorius	Ron Elligsen	Lab Tutorial - Purification With Syringe (Sartobind)
10:00	Onpoint Diagnostics	Dionne Rauff	new novel method for Salmonella serotyping
10:20	Radwag	Radoslaw Wilk - Laboratory Production Manager	Moisture analysis in food industry
10:40	Bettersize	Eric Xu	our latest application fields and particle characterization solutions with different scholars and industry users
11:00	Metrohm	Ivana Munaretto	Boost titration output by up to 60% with FOUR parallel titrations on a Metrohm Omnis system
11:20	Perkin Elmer	Gertrude Makgatho, Field Applications Specialist	An Overview of the Current PFAS Analysis
11:40	Labcon	Frédéric Laboroi - Region Manager EMEA	Ideas to help reduce your lab waste while voiding greenwashing
12:00	Leco	Alexander Whaley - Director – Separation Science Sales – Africa, Asia, Pacific Rim	Food Safety by LC-GCxGC-MS/FID, the ultimate in MOSH/MOAH and POSH/POA analysis
12:20	Sartorius	Viktor Milokumov	Novel Digital Solutions for Your Lab: Ensuring Data Integrity
12:40	Don Whitley Scientific	Joe Walton - Export Manager	Maintaining reliable and measurable conditions in Modified Atmosphere Workstations
13:00	Apex	Andrea Polo	Labour Security Systems products
13:20	Behr Labor-Technik GmbH	Mr. Jürgen Behr	Extraction for foodstuffs and environmental analysis
13:40	Labchem	Christine Stott	various new legislations pertaining to chemicals
14:00	Lovibond	Mondher Zaghdoudi – Sales Manager Middle East & Africa	Water Testing - Instruments & Reagents for Today's Water Analysis
14:20	Leco	Alexander Whaley	New tools for Analysis, where to next for GCx-GC-MS?
14:40	Giorgio Bormac	Mattia Galimberti - Service Technician	The importance of protecting your data
15:00	Labotec	by Jani Bosman, Product Specialist Labotec for Thermo Bioproduction	Scale up your promising vaccine candidate from research to manufacturing. Presented

Exhibitor Forum - Technical Presentation Topics

Friday - 7th July 2023

Time	Company Name	Speaker Name	Topic
09:40	Sartorius	Gilles Berne	In-House Prepared Water as an Alternative to Bottled HPLC-Grade Water
10:00	Metrohm	Pieter Norval	Sample Preparation for elemental analysis – get it right from the start with a solution from Milestone
10:20	AQA	Vanessa Bunn	Applications in beverage and environmental samples using flow injection analysis
10:40	Asecos 2	Sascha Kunkel – Vice President of Global Markets	Learn how to safely store your Lithium-Ion batteries.
11:00	Restek	Olivier Griffaton, Distribution Manager - EMEA (Europe, Middle East, Africa)	Unlocking the Mysteries of Reference Standards: Storage Stability and Usage.
11:20	Apex	Régis François	Monitoring system in regulated life science industries
11:40	Haire	Peter Pedersen Director of International Business Operations	Focused on the frontier of science and technology! Haier Biomedical - Globalization through Localization!
12:00	Labotec	Gökhan Mutludag, Hettich Germany	WHAT ARE THE EFFECTS OF CENTRIFUGAL FORCE ON YOUR SAMPLE? A deep dive into the care & safety of your centrifuge & samples. Presented by
12:40	Norgen	Juan Gijzelaar - Technical Sales Specialist	From Sample to Result: Revolutionizing Molecular Diagnostic Testing in Africa

as on 5th June 2023
