B 7 Stand design and equipment

Stand designs for stands larger than **100 m²** or stand structures exceeding **3 m** in height require prior authorization. Dimensioned drawings including floor plans and elevations on a scale of 1:100 must be submitted in duplicate to Messe München GmbH, Technical Exhibition Services Division for approval no later than 6 weeks before setup begins.

Halls, general

One-story construction

The maximum construction height is **4 m** in Hall B0, Foyer ICM **2.50 m** (higher on request). The advertising height (top edge) is also **4 m** in Hall B0 and **2.50 m** in the ICM foyer.

Stand sides facing neighboring stands must be kept neutral, white and free of installation material from a height of **2.50 m**. It is recommended that exhibitors install partition walls (height **2.50 m**) as demarcation to neighboring stands. Messe München GmbH supplies partition walls only at the request and expense of the exhibitor. Partition walls or additional cabin walls can be ordered in the Exhibitor Shop. In the case of advertising structures directly facing adjoining stands, there must be a minimum distance of **2 m** to the stand perimeters. Flashing or changing lights must not be used for advertising purposes. The stand design must be adapted to suit the type of rented stand (row, corner, end, island stand), e.g. by partition wall systems. The exhibition stand should also meet the character of the respective trade fair to preserve the visual identity of the event. Messe München GmbH is entitled to demand changes in stand design on this account.

Stand construction approval

As a matter of principle, every planner/designer of an exhibition stand is responsible for compliance with public statutory regulations, insofar as applicable to exhibition stands, and compliance with Messe München GmbH's Technical Guidelines as well as the General Terms of Participation. No approval of plans from Messe München GmbH is necessary given compliance with the following requirements:

- stand and/or advertising structures no higher than **3 m**
- stand area no larger than **100 m²**
- stand is without covering.

Any stand concepts in non-compliance with the aforementioned requirements are to be submitted in duplicate for approval to Messe München GmbH's Technical Exhibition Services Division, containing to-scale stand design plans (ground plan, elevations and sectional drawings) no later than 6 weeks prior to official setup date. If items are to be suspended from the hall ceiling, the work involved must be carried out by Messe München GmbH's contractors. The placing of motor vehicles of any kind on the stand area for exhibition or decorative purposes is prohibited and is permissible only in exceptional cases on the prior written consent of the Exhibition Management. Moreover, multi-story stands and special constructions (such as bridges, stairs, cantilever roofs, galleries, etc.) are as a general rule subject to separate approval. Please consult the "Building Regulations" set out under "Leaflets—applications" in the Exhibitor Shop for further information. **Please note under all circumstances the requirements set out in the Technical Guidelines and the information included in the individual notices.** For further processing, the exhibitor service forms for ordering additional stand services will be made available to you online via our Exhibitor Shop in due time.
