B 7 Stand design and equipment

Halls

Stand designs for two-story constructions, for stands larger than **100 m²**, stand structures exceeding **3 m** in height or with a stand covering require prior authorization. Dimensioned drawings including floor plans and elevations on a scale of 1:100 must be submitted digitally in PDF format (not protected) to Messe München GmbH, Technical Exhibition Services Division for approval no later than 6 weeks before setup begins.

Single-story construction

The maximum construction height is **7.50 m**. The maximum advertising height (upper edge) is **7.50 m**.

Two-story construction

The partition walls facing the neighboring stand must be kept white, neutral, free of installations and clean above a height of **2.50 m**. It is recommended that exhibitors install partition walls (height **2.50 m**) as demarcation to neighboring stands. Messe München GmbH supplies partition walls only at the request and expense of the exhibitor. Partition walls or additional cabin walls (height **2.50 m**) can be ordered in the Exhibitor Shop. In the case of advertising structures directly facing adjoining stands, there must be a minimum distance of **2 m** to the stand perimeters. Flashing or changing lights must not be used for advertising purposes. The stand design must be adapted to suit the type of rented stand (row, corner, end, island stand), e.g. by partition wall systems. The exhibition stand should also meet the character of the respective trade fair to preserve the visual identity of the event. Messe München GmbH is entitled to demand changes in stand design on this account.

Stand construction approval halls

As a matter of principle, every planner/designer of an exhibition stand is responsible for compliance with public statutory regulations, insofar as applicable to exhibition stands, and compliance with Messe München GmbH's Technical Guidelines as well as the General Terms of Participation. No approval of plans from Messe München GmbH is necessary given compliance with the following requirements:

- stand and/or advertising structures no higher than **3 m**
- stand area no larger than **100 m²**
- stand is without covering.

Any stand concepts in non-compliance with the aforementioned requirements are to be submitted digitally, in PDF format for approval to Messe München GmbH's Technical Exhibition Services Division, containing to-scale stand design plans (ground plan, elevations and sectional drawings) no later than 6 weeks prior to official setup date. If items are to be suspended from the hall ceiling, the work involved must be carried out by Messe München GmbH's contractors. Moreover, multi-story stands and special constructions (such as bridges, stairs, cantilever roofs, galleries, etc.) are as a general rule subject to separate approval. Please consult the "Building Regulations" set out under "Notices—Applications" in the Exhibitor Shop for further information. **Please note under all circumstances the requirements set out in the Technical Guidelines and the information included in the individual notices.** For further processing, the exhibitor service media for ordering additional stand services will be made available to you online via our Exhibitor Shop in due time, or sent to you per e-mail.

Outdoor exhibition area

For anchorages of tents, guy-ropes and flagpoles as well as for other earthworks in the outdoor exhibition area, detailed site plans have to be submitted to the Technical Exhibition Services for written approval. No earthwork in the grounds may be performed without written approval. Structural elements, stand signs and flags must be designed such that they do not constitute an unreasonable disturbance for neighboring stands. Misleading company signs must be removed at the request of the Exhibition Management.

Special Terms of Participation (B)

The General Terms and Conditions of Participation A and the Technical Guidelines of Messe München GmbH shall apply, insofar as the present Special Terms of Participation do not contain any provisions in derogation thereof.

Cont. B 7 Stand design and equipment

Depending on the infrastructure to be installed and if Messe München GmbH, Technical Exhibition Services so requests, a gap of **0.50 m** must be left between the perimeter of the neighboring stand to the rear and any permanent fittings and fitments. Any foundations required in the same location for the next exhibition can be left in if their component parts are at least **30 cm** below the topsoil and relevant contractual provisions have been agreed upon with Messe München GmbH. Plans showing the precise location and size of these foundation are to be submitted to Messe München GmbH, Technical Exhibition Services, in good time. During all construction work, existing supply lines, distribution boxes, hydrants, light poles, etc. must be taken into account. If such facilities are located on the premises of individual stands, access to them must be assured at all times. To prevent any damages, no underground work may be started without prior consultation of Messe München GmbH, Technical Exhibition Services. Exhibitors whose stands border on the perimeter of the exhibition grounds may not use the fencing for stand setup purposes. The outside fences may not be used for advertising purposes.

Exhibitors can book additional listings, e.g. in the product directory and other presentation opportunities in these communication media in a separate order process. The booking option will be made available to applicants in good time by the media service partner commissioned, who handles these extra listings with the applicant in his own name and on his own account. Messe München GmbH assumes no responsibility for the accuracy and completeness of the ordering media.

The exhibitor is solely responsible for the permissibility under law—and particularly the law on competition—of entries placed in the trade show media (online and/or mobile) of Messe München GmbH at the instigation of the exhibitor. Should third parties assert claims against Messe München GmbH

on account of the impermissibility of the entries under law in general or the law on competition, the placer of the entries shall hold Messe München GmbH fully safeguarded against all claims asserted including all costs of any necessary legal defense on the part of Messe München GmbH.
