MEPLAN

INTERNATIONAL

Perfect service everywhere in the world

MEPLAN is an expert trade fair partner for international markets worldwide. Our team of experienced trade fair designers and project managers creates trade fair booths with a total exhibition space in excess of 100,000 m² each year for companies from around 200 countries.

Whether in Shanghai, Hanoi, Dubai, Algiers, New Delhi or Moscow – as a cooperation partner for your trade fair abroad, we guarantee exhibitors and organisers around the world premium support with optimum services.

Outside of Germany, MEPLAN also offers you everything from a single source – from communication with the trade fair on site to booth planning in accordance with country-specific regulations, right through to constructing and dismantling your trade fair booth. So that you can concentrate on your primary objective: the success of your trade fair participation!

Thanks to excellent contacts with national organisations and associations and intensive long-term cooperation with our partners and service providers, we ensure that you have the best general conditions on the international stage.

From the low-cost solution to customised luxury class

With MEPLAN as your booth partner, you as an exhibitor have freedom of choice. Our package booths are tailored exclusively to specific events and can be configured and booked online. If you want to present your CI in a customised design, MEPLAN's design team will be there to assist you. But hybrid solutions, which combine a system booth and individual design, also provide an ideal solution for many exhibitors, allowing them to project their own image onto the trade fair's language on a more modest budget.

- **SIMPLE TO ORDER.**
Using the online configurator at www.meplan.com
- **SECURE.**
High quality standards, support on site
