THE HEARTBEAT OF OUR INDUSTRY

bauma, Munich, April 7-13, 2025

VISIT bauma:
[bauma.de/en/
trade-fair/why-visit](https://bauma.de/en/trade-fair/why-visit)

Boost your success: the construction machinery industry's future begins at bauma—the World's Leading Trade Fair for Construction Machinery, Building Material Machines, Mining Machines, Construction Vehicles and Construction Equipment.

Bhupinder Singh

Chief Executive Officer

Messe Muenchen India Pvt. Ltd.

The India growth story is a driving force, powering innovation, ambition, and transformation across the nation. At the core of this journey lies the construction and infrastructure industry, building a foundation for a more prosperous India. bauma CONEXPO INDIA 2024 embodies this vision, BANAYENGE VIKSIT BHARAT uniting the gathering of leaders, pioneers, and innovators at its largest edition.

This landmark edition, with record-breaking participation, highlights the industry's confidence in India's growth and its emergence as a global hub for advanced construction technologies and manufacturing excellence. We are honoured to welcome top companies and grateful for the support of industry associations and stakeholders.

India is not only building for itself but for the world. 'Made in India' construction equipment and heavy vehicles are gaining global recognition for quality and innovation. With Indian manufacturing on track to become a world leader, bauma CONEXPO INDIA serves as a powerful platform to drive this expansion. By connecting innovators, manufacturers, and decision-makers, we are advancing India's bold vision of global competitiveness.

Showcasing advanced machinery, sustainable solutions, and insights from industry leaders, bauma CONEXPO INDIA 2024 is more than an event—it's a catalyst for growth. Here, knowledge meets innovation, and leaders come together to shape the future of infrastructure.

This Exhibition Catalogue is your guide for the four days of the trade fair. We hope it helps you explore new technologies, build connections, and unlock business opportunities.

Welcome to the largest, most ambitious edition yet—let's build the future together!

Welcome Address

Greetings.

It is my immense pleasure to know that bauma CONEXPO INDIA 2024 is happening in Greater Noida from 11th to 14th December, 2024.

Me, as President of Builders Association of India, I am delighted to be associated with bauma CONEXPO INDIA. I would like to express my heartfelt appreciation for the outstanding job the team is doing in organising this mega Expo

From the impressive line-up of speakers to the engaging and informative exhibits, every aspects of the Expo looks expertly planned. I am sure there has been tireless efforts from the whole organising team. I am very hopeful with the contribution that the entire team has done; the expo will be a memorable and valuable to all the delegates attending it.

Builders Association of India (BAI) is the apex all-India association of civil engineering construction contractors and builders, founded in 1941. Some of the main BAI's objectives are, to promote and protect the interests of the construction industry, foster cooperation among members, government & other stakeholders and enhance industry standards, skills, and best practices. BAI represents industry interests to government and regulatory bodies. BAI publishes industry insights, research, and best practices through seminars, workshops, and publications. BAI offers Networking Opportunities, facilitating connections among members, architects, engineers, and policymakers. BAI offers training programs for professionals and workers.

BAI supports its members through, Government Liaison, Technological Advancements, Market research & intelligence, Legal & regulatory guidance and Business opportunities and partnerships.

BAI's efforts contribute to India's economic growth, infrastructure development, and employment generation. By serving as a unified voice for the construction industry, BAI plays a vital role in shaping India's built environment and promoting sustainable growth.

Lastly, I wish for the grand success of bauma CONEXPO INDIA 2024 and I look forward in being associated with it on a long term.

K. VISWANATHAN
President
Builders' Association of India

I would like to extend my heartfelt congratulations on the upcoming 7th edition of bauma CONEXPO INDIA, scheduled to be held at the India Expo Centre, Greater Noida, from 11th to 14th January. A highly anticipated event for the Construction Equipment (CE) sector, this platform plays a key role in showcasing cutting-edge construction technologies along with the latest technologies and products from both Indian and global companies.

The event, primarily focusing on construction equipment, mining machinery, and earth moving equipment, serves as an ideal platform for networking with industry leaders and understanding latest trends and cutting-edge technologies in the Construction Equipment industry.

The 7th edition of bauma CONEXPO INDIA assumes added significance in the context of the ongoing significant growth of Indian CE industry in recent years. Driven primarily by the Indian Government's ongoing thrust on infra-led development, this growth momentum is bolstered by large-scale infrastructure projects, as well as emerging demand segments for construction equipment. Therefore, as the Indian economy spans new horizons, the CE sector is poised for further expansion, positioning itself to meet the escalating demands of end-users.

The Indian Construction Equipment Manufacturers' Association (ICEMA), as the apex body of the Indian CE industry, has a long-standing cooperation agreement with bauma CONEXPO INDIA, serving as a convergence point for industry stakeholders to network, explore business opportunities and showcase the latest innovations at the event.

Representing over 140 OEMs, suppliers and financiers in the Indian CE industry, ICEMA continues its collaboration with bauma CONEXPO INDIA to drive enhanced outreach and business promotion for its member companies. The forthcoming edition of the CONEXPO will spotlight the high growth trajectory of the CE industry on the back of infrastructure development in the country, as it drives the technological imperatives of safety, solutions for enhanced productivity and sustainability. This widespread exposure is further expected to escalate India's standing as a major sourcing hub for construction equipment in global markets.

The event is expected to host over 1000 exhibitors from more than 100 countries, showcasing 20,000 plus products and solutions, and drawing more than 75,000 visitors over its four-day duration.

It is my honor to present the Catalogue for bauma CONEXPO INDIA 2024. On behalf of ICEMA I wish all the participants overwhelming success in their endeavours.

V. Vivekanand
President, ICEMA
Managing Director, Caterpillar India Pvt. Ltd.

Welcome Address

Greetings.

It is my immense pleasure to know that bauma CONEXPO INDIA 2024 is happening in Greater Noida from 11th-14th December, 2024.

I, as the President of Aerial Platform Association of India, am delighted to be associated with bauma CONEXPO INDIA and would like to express my heartfelt appreciation for the outstanding job the team is doing in organizing this mega Expo. From the impressive lineup of speakers to the engaging and informative exhibitions, every aspects of the Expo looks expertly planned. I am sure there has been tireless efforts from the whole bauma team. I am very hopeful with the contribution that the entire team has done; the expo will be a memorable and valuable to all the delegates attending it.

AERIAL PLATFORM ASSOCIATION OF INDIA, an association formed by Mobile Elevated Working Platforms (MEWP) industry players was formed in 2016 initially by few members. Today APAOI has over 110 members consisting of rental companies, manufacturers from India as well overseas, Dealers and service providers to the MEWP Industry. The Associations has members from 50+ cities across India.

APAOI's objective is to create awareness, promote and standardize use of MEWP. The Vision of the Association is to fulfil the objective by providing all kinds of best available support services and skill up gradation programs. The Mission of the Association is aligned with the Objective and Vision and aims at implementing various skill sets and educational programs and initiatives like customized training courses for aerial operators, awareness seminars, cost and inventory controls activity etc, on an ongoing basis.

Lastly, I wish for the grand success of CONEXPO INDIA 2024 and I look forward in being a long term associate with it.

President
Aerial Platform Association of India

Greetings,

It gives me immense pleasure to associate with bauma CONEXPO INDIA 2024, scheduled from 11th to 14th December in Greater Noida. This prestigious platform exemplifies excellence and innovation, bringing together global and Indian stakeholders from the infrastructure construction sector to address pressing challenges, exchange transformative ideas, and pave the way for a robust and sustainable future for the industry.

As President of the Construction Federation of India (CFI), an apex body representing the collective interests of leading players in the construction and infrastructure sectors, I extend my heartfelt appreciation to the Bauma team for their meticulous planning and execution of this event. The seamless synergy between Messe München and CFI has ensured a thoughtfully designed event that will leave a lasting impact on the construction ecosystem.

At CFI, we are proud to partner with Bauma CONEXPO INDIA to host a series of Thought Leadership Sessions on 11th December 2024, featuring eminent government officials, industry leaders, and renowned experts. These sessions aim to address critical issues such as crafting quality DPRs to ensure precision in planning and execution; fair and equitable contractual frameworks, which are the foundation of trust and collaboration in projects; addressing liquidity challenges through innovative financing mechanisms, including green funding, long-term financing, and opportunities for MSMEs and exploring arbitration and dispute resolution frameworks to streamline execution. This partnership reflects CFI's unwavering commitment to the advancement of India's infrastructure sector. Guided by our vision of "Transforming India's Construction Sector", our mission is to act as a catalyst for change by addressing policy and operational challenges, advocating for industry-friendly reforms, and fostering collaboration among all stakeholders.

The Construction Federation of India has always played a pivotal role in shaping the industry's trajectory. From spearheading strategic dialogues to resolving critical sectoral constraints, we strive to ensure that India's infrastructure sector continues to serve as a backbone for economic growth and a driver of national development. Our members actively contribute to the creation of key infrastructure, including highways, railways, bridges, power stations, water supply systems, and other projects of national significance.

As the construction industry evolves to meet the aspirations of "Viksit Bharat 2047", CFI is deeply committed to fostering a sustainable ecosystem that aligns with global best practices while addressing India's unique developmental needs. Events like Bauma CONEXPO INDIA 2024 provide an invaluable opportunity to deliberate on these critical aspects and create actionable strategies that benefit the nation as a whole.

I am confident that this grand event will inspire all participants, delivering meaningful outcomes through engaging discussions, impactful exhibitions, and valuable networking opportunities. It will not only reinforce India's position as a leader in construction and infrastructure but also strengthen global partnerships that are essential for achieving sustainable growth.

I wish Bauma CONEXPO INDIA 2024 resounding success and look forward to a continued and fruitful association with Messe München India in our shared mission to advance the infrastructure sector and contribute to India's growth story. "

With warm regards,

(Vinayak Pai)
President, CFI
MD & CEO, Tata Projects Ltd.

Message from DFI of India Chairman - bauma CONEXPO INDIA 2024

Date: 25 Nov 2024

Greetings all the Readers,

I am truly honoured to learn that bauma CONEXPO INDIA 2024 will be taking place in Greater Noida from December 11th-14th, India. As the Chairman of the Deep Foundations Institute of India, I am delighted to be associated with this prestigious event. I would like to extend my heartfelt gratitude to the team for their exceptional efforts in organizing this major expo. From the impressive lineup of speakers to the engaging and informative exhibitions, every aspect of the event appears to be meticulously planned. I am confident that the entire bauma team has dedicated tremendous effort, and I am optimistic that this contribution will make the expo a memorable and valuable experience for all attendees.

DFI of India (DFII) is a non-profit organization and is a chapter of Deep Foundations Institute (DFI), a US-based international non-profit organization established with the goal of advancing the deep foundation construction industry. DFI is an international association of Owners, Contractors, Consultants, Specialized Contractors, Manufacturers, Suppliers, Service Providers, and Academia in the deep foundations industry. Our multidisciplinary membership creates a consensus voice and a common vision for continual improvement in the planning, design and construction of deep foundations and excavations. DFI is committed to ensuring safety, promoting quality, enhancing durability and increasing sustainability of foundation projects.

DFI brings together members through networking, education, communication and collaboration. DFI promotes the advancement of the deep foundations industry through technical committees, educational programs, seminars, webinars, workshops and conferences, publication of guides and specifications, a peer-reviewed journal, a flagship magazine, research, government relations and outreach.

DFI has a rich history of 50 years. DFI of India was formed in 2013 following the success of the "Deep Foundation Technologies for Infrastructure Development in India" Conference held in Chennai, India, in 2012. It established its full-time office in Chennai in December 2017. DFI has more than 4,000 involved, knowledgeable and committed members making an impact in the deep foundations industry worldwide. The diverse membership encompasses all disciplines of the foundation industry and performs the various specialties that comprise deep foundations.

Finally, I wish bauma CONEXPO INDIA 2024 great success and look forward to a long-term partnership with the event.

Sincerely,
Er. Mohan Ramanathan

We at FIRST Construction Council are delighted to extend our warmest greetings to the organizers, Messe Muenchen India and participants of bauma Conexpo India 2024, scheduled from December 11–14 in Greater Noida. As one of the premier events in the construction equipment industry, this exhibition consistently elevates the standards of trade shows by bringing together the latest innovations and industry leaders under one roof.

We eagerly look forward to the launch of new technologies and equipment set for display and demonstration at the expo. The event promises to be a hub of cutting-edge solutions that will drive the future of construction and infrastructure development in India.

At FIRST Construction Council, we are dedicated to supporting the construction industry through our policy advocacy, research, and recognition platforms. Our mission is to foster sustainable development, promote best practices, and acknowledge the achievements of industry stakeholders. We believe that collaborations like these are pivotal in building a stronger, more resilient infrastructure landscape for the nation.

We wish bauma Conexpo India 2024 immense success and are excited to be part of this transformative journey.

Sincerely,

A handwritten signature in blue ink, reading 'Pratap Padode' with a stylized flourish underneath.

From Chairman's Desk.

Greetings!!!

It is my immense pleasure to know that Bauma CONEXPO INDIA 2024 is happening in Greater Noida from 11th-14th December in India.

As Chairman of Hydraulic Trailer Owners Association, we are delighted to be associated with Bauma CONEXPO INDIA.

I would like to express my heartfelt appreciation for the outstanding job the team is doing in organizing this mega Expo. Starting from the impressive lineup of speakers to the engagement and informative aspects of the exhibitions, looks expertly planned. I am sure your team has been tireless working to make the event a success. I am very hopeful with the contribution that the entire team has done; the expo will be a memorable and valuable to all the delegates attending it.

Hydraulics Trailer Owners Association (HTOA) is a solo body representing modular hydraulic trailer owners catering to road transportation needs of over dimensional / overweight consignments of indivisible nature with the sole motive of acting as a bridge between Government and Trailer owners for improvement of legal provisions leading to better compliance with Ease of Doing Business and serve nation.

The Association is a non-profit making body and works for the benefit of the members and in the interest of public with total commitment to service in professional and efficient manner.

Our members are one keys for transporting equipment of large weight and dimensions on roads of India, in spite of infrastructure challenges have been instrumental in set-up plants, across the length and breadth of India for mega Refinery, Petrochemicals & Fertilizer Projects, Power, Steel, Cement Plants and other infrastructural projects of National importance.

HTOA has been actively pursuing issues on Over Dimensional / Overweight indivisible consignments for road transportation with union ministries such as MoRTH, Railways, Commerce and state regulatory authorities and other critical stake holders.

We work with regulatory authorities to format regulations - implement / resolution for ease of doing business leading to new opportunities to new entrants in the industry & scaling the regulations to global standards

We also support to defence projects by providing logistics support of critical assets to varied locations in collaboration with the Indian defence team.

HTOA is in a quest to acquire and disseminate knowledge on the working of Hydraulic Trailer operations in different countries and induce the members to raise the standards of service to various core industries by issuing circulars, pamphlets, and periodicals including skill updation of transport industry workforce through training, webinars etc. HTOAs contribution facilitates nation building through Aatma Nirbhar Bharat.

Lastly, I wish for the grand success of CONEXPO INDIA 2024 and look forward in being a long-term associate with it.

Welcome Address

Indian Buildings Congress (IBC) was founded on 1st September 1992, when a Founders Meet was organised in New Delhi with the initiative of the then Director General (Works), CPWD, Shri O.P. Goel. About 250 professionals attended this meet. IBC was registered as a Society under the Societies Registration Act 1860, in New Delhi, on 29th March 1993. At present IBC has 95 Institutional Members, 6500 Individual members and 367 Student Members. The wide spectrum of membership gives it a unique place in the entire gamut of Building engineering discipline and construction industry.

Vision

To build a living environment which is sustainable, affordable, aesthetic, eco-friendly, energy-efficient, cost competitive, technology driven and conducive to healthy life meeting the needs of Indian population.

Mission

To bring all professionals connected with built environment like administrators, financiers, planners, managers, developers, architects, structural engineers, civil engineers, public health engineers, electrical engineers, energy engineers, mechanical engineers, eco-scientists, horticulturists, builders, manufacturers of building materials, researchers, teachers, etc. together on one platform to form collective opinion to enable development of a sustainable built environment in the country.

To promote and encourage the science and practice of conceptualizing, planning, designing, constructing, caretaking and maintaining built environment, by adopting the latest standards, State of the Art practices, use of innovative and new materials. To review and make suggestions to the Government for improving the built environment, working conditions and general welfare of construction workers and to provide a common platform for expression of collective opinion of members on the matters relating to built environment and strive to achieve the following aims:

1. To promote interface between various disciplines related to built environment on one hand, the Construction Industry and the Government on the other.
2. To promote improved system of administration, planning, design, construction, operation, use and maintenance of built environment.
3. To promote conservation and upgradation of eco-environment.
4. To promote the use of appropriate technology & building materials to enhance quality, productivity and affordability.

5. To disseminate the knowledge of built environment to various stakeholders.

6. To promote safety, health, wages, working conditions & welfare of construction workers and supervisors.

India of today is the young India and as Country moves to Vikshit Bharat-2047 stage, the role of engineers is of paramount importance in taking our country to the next level of infrastructure development.

There is rapid influx of technology in the construction sector over the last two decades and it has made it imperative to not only to keep pace with these technological advancements but also to channelize these into development of infrastructure which meet varied societal expectations. Advent of Artificial Intelligence, Internet of Things, Block chain, BIM and other technologies in the construction sector have thrown up opportunities and challenges for the practicing engineers.

It is important for the Public & Private Sectors to increasingly adopt the emerging technologies planning and development of projects.

It is my immense pleasure to know that bauma CONEXPO INDIA 2024 is happening in Greater Noida. Indian Buildings Congress is delighted to be associated with bauma CONEXPO INDIA. I would like to express my appreciation for the Team bauma CONEXPO INDIA, which is organizing this mega Expo. This event has an impressive lineup of speakers and the Expo looks expertly planned. I am sure there has been tireless efforts from the whole bauma team. I am sure that the expo will be a memorable and valuable to all the delegates attending it.

Shri C. Debnath
President
Indian Buildings Congress (IBC)

Welcome Address

Greetings to fellow professionals!

It is a matter of pleasure to see Indian Concrete Institute associating with bauma CONEXPO INDIA 2024 which is being held in Greater Noida. Looking at the host of activities viz., mega exhibition, invited speakers to share their knowledge & expertise and professional connect will benefit the participants and construction professionals.

Indian construction and infrastructure building is an ongoing activity. Government of India, through its policies and initiatives, has provided huge budgetary support in the areas of housing, roads and infrastructure. India has evolved as the third biggest market for the construction industry.

In a way, bauma CONEXPO and Indian Concrete Institute (ICI) have several common objectives. To promote the growth of concrete construction and its sub-specialisations, to disseminate knowledge, expose and train industry professionals to the latest developments in the materials, construction techniques and machinery, collaboration with allied professional agencies and organising technical events.

ICI, a National body with close to 50 centres across the country and around 15,000 members, has tied up with similar organisations in other countries like Japan, Korea, Australia, USA, UK etc. It actively collaborates with Governments, Research Institutes and Standardisation Agencies like BIS in developing building Codes and useful Handbooks for concrete & construction fraternity.

My heartfelt appreciation for the outstanding teamwork in organising this mega event. I wish that this event will see huge participation of all those involved in construction industry.

Once again, I wish CONEXPO INDIA 2024 grand success and look forward to continued association of ICI with it.

Regards,

Dr. V. Ramachandra
President
Indian Concrete Institute

It is with great pleasure to extend my warm greetings to the organizers and participants of Bauma Conexpo India 2024, scheduled during December 11-14, 2024, at the India Expo Center, Greater Noida, UP. As the leading international trade fair for construction machinery, building material machines, mining machines and construction vehicles, Bauma Conexpo

India stands as the heartbeat of the industry, driving innovation, international success, and offering a global marketplace for groundbreaking solutions.

As an organization deeply committed to road safety and infrastructure development, the International Road Federation – India Chapter (IRF-IC) is proud to be associated with this prestigious event. At the International Road Federation – India Chapter (IRF-IC), we are committed to enhancing road safety through our flagship 5E Program, which integrates Engineering of Roads, Engineering of Vehicles, Education, Enforcement & Emergency Care. This holistic approach not only aims to improve road safety across the country but also emphasizes sustainable infrastructure development.

One of our key areas of focus is the safety of school zones. Every year, thousands of children are impacted by road accidents, and we believe it is our responsibility to ensure that these vulnerable areas are equipped with the necessary infrastructure and safety measures. Through our school zone safety audits and interventions, we work to create safe, sustainable environments for children, helping them navigate the roads with confidence.

This event provides a significant platform for industry leaders, technology innovators and policymakers to converge and showcase the latest advancements that are essential to transforming infrastructure and construction practices worldwide. As the demand for smarter, safer and more sustainable infrastructure grows, the innovations presented at Bauma Conexpo India will be instrumental in shaping the future of road safety and the development of resilient road networks. I am confident that the collaboration and knowledge-sharing at this event will help pave the way for smarter, more secure infrastructure solutions that support India's road safety goals.

I extend my best wishes for the success of Bauma Conexpo India 2024 and I look forward to the impactful discussions, collaborations and innovations that will help us achieve our collective vision of safer roads and sustainable infrastructure.

Akhilesh Srivastava
Executive Vice President
International Road Federation – India Chapter (IRF-IC)

Welcome Address

This bC Expo 2024 we, Pavers and Blocks Manufacturers Association (PBMA), wish our members and the entire Precast Concrete Products manufacturing industry a very successful and prosperous forthcoming year in 2025.

Our not-for-profit association of Indian Concrete Paver Blocks industry is continuing efforts to promote the increased and widespread use of, not only Precast Concrete Paving Blocks, but also other Precast Concrete products. Our Association initiated the introduction of two new Indian Standards which have been published recently:

1. IS 18889 : 2024 Specification for Precast Concrete Paving Flags.
2. IS 18894: 2024 Specification for Precast Concrete Grids and Grass Pavers.

As the leading voice of Precast Concrete Paving Block industry, PBMA will be hosting the 13th International Conference on Concrete Block Pavement (ICCBP) on 9th -10th April 2026 in Hyderabad (<https://iccbp.pbma.in>). This Conference is being organised with support from Small Element Pavement Technologists (SEPT), as a part of a long-term series of events to discuss and promote technical and scientific progress with recent developments /issues in the design and construction of block pavements worldwide. PBMA invites researchers, engineers, practitioners and manufacturers to share their international experience in various aspects of block pavement design and construction. Contributions from specialists from all over the world are invited. Attendees will have a unique networking opportunity with like-minded experts and will be able to bring back the international expertise they learn at ICCBP into their local markets. The deadline for submission of abstracts is 31-Jan-2025.

PBMA reiterates its commitments to promote the proper usage and specification of quality Concrete Paving products in a sustainable and efficient manner across Residential, Commercial, Industrial segments as well as with Municipal, State Government, Oil Marketing Companies, National Highways, Railways Ports and Airports authorities.

PBMA continues to provide a platform for education, information sharing and networking opportunities among its members and with external agencies through its quarterly and annual meetings. PBMA invites other Precast Concrete Paving Blocks producers to join this remarkable platform to strengthen their business image and let their customers know that their products and practices are of reputable quality and meet or exceed industry standards.

Sudhakar Mody
President

Pavers and Blocks Manufacturers Association (PBMA)

Greetings.

It is my immense pleasure to know that Bauma CONEXPO INDIA 2024 is happening in Greater Noida, India, from 11th-14th December.

Myself as the president of Pre-engineered structures society of India (PSI) , and PSI are delighted to be associated with Bauma CONEXPO INDIA. It is one of the biggest events showcasing the Equipment's used in the construction sector. Everyone associated with construction sector need to attend and explore the equipment needed for construction, and the new equipment being showcased by the Industries from across the world. People need to be updated with the latest equipments being showcased in the Exhibition, and as well as listen to the speakers who will give valuable information about the Equipments and about the construction sector

I would like to express my heartfelt appreciation for BAUMA CONEXPO INDIA 2024 for the the outstanding job, the team is doing in organizing this Mega Expo, from the impressive lineup of speakers to the engaging and informative exhibitions, every aspects of the Expo looks expertly planned. The expo will be a memorable and valuable to all the delegates attending it.

Brief about the Pre-engineered structures society of India (PSI) and its role in infrastructure growth story as per the association research. PSI has been conducting the two-day workshops across India, since 2013, and it has so far held about 7 no. workshops. The information presented in the workshops is about various construction technologies adopted in India, viz., Precast Construction, Prefabricated construction using Structural Steel, Composite construction, Insultaed wall construction, Light Gauge steel construction, Polymer wall construction, etc., PSI is disseminating the knowledge and is creating the awareness about these construction Technologies to the various Govt, sector organisations such that they are aware about them and make a decision to implement new construction Technologies which will make construction faster and durable structures to last long are built.

Brief about the role of the Pre-engineered structures society of India what it is doing for the industry. PSI helps the Entrepreneurs in setting up the Industries duly giving the information required for it. PSI is also contributing to the research helping the research work duly funding for the same to the Universities. Lastly, I wish for the grand success of CONEXPO INDIA 2024 and I look forward in being a long term association with it.

A handwritten signature in blue ink, followed by a circular official seal of the Pre-engineered structures society of India (PSI). The seal features a gear-like border and text in the center.

To 23rd November 2024,

BAUMA CONEXPO INDIA 2024.

Greetings sir,

It is my immense pleasure to know that Bauma, CONEXPO INDIA 2024 is happening in Greater Noida from 11th-14th December, India.

Me, as president of Visakhapatnam Crane Owner Association, I am delighted to be associated with Bauma CONEXPO INDIA. I would like to express my heartfelt appreciation for the outstanding job the team is doing in organizing this mega Expo.

From the impressive lineup of speakers to the engaging and informative exhibitions, every aspect of the Expo looks expertly planned. I am sure there has been tireless efforts from the whole bauma team. I am very hopeful with the contribution that the entire team has done, the expo will be a memorable and valuable to all the delegates attending it.

The Visakhapatnam Heavy Crane Owners Association (VHCOA) was established in 2014 and officially registered in 2016 with Registration No. 25/2016. The association was formed with the objective of uniting all crane owners under one umbrella to address their common interests and welfare.

Achievements and objectives of VHCOA

1. **Unity Among Owners:** Bringing together crane owners to collectively tackle industry challenges and protect their rights.
2. **Payment Recovery from Corporate Companies:** Successfully organizing efforts to ensure payment dues from corporate companies are collected efficiently.
3. **Accountability Measures:** Enforcing measures like cutting crane supply to defaulting companies until their dues are cleared, thus safeguarding the financial interests of members.

The association continues to serve as a strong platform for the welfare and benefit of its members. Lastly, I wish for the grand success of CONEXPO INDIA 2024 and I look forward to being a long-term associate with it.

President

**BUILDING A BETTER TOMORROW
WITH SMART, SUSTAINABLE AND SAFER SOLUTIONS**

Day 1 - Wednesday, 11th December 2024

Advancing Tunnelling Through Innovation: Cutting-Edge Equipment and Techniques

10:15 hrs to 16:00 hrs

Topaz Hall, IEML Building, 2nd Floor

Organized by

10:15 hrs - 11:00 hrs	Inaugural Session
11:00 hrs - 11:30 hrs	Tea/ Coffee Break
11:30 hrs - 12:00 hrs	Presentation 1: I-System's Tunnelling Method: An A-Z Solution for Underground Works from Pre-Design to Post-Construction
12:00 hrs - 12:30 hrs	Presentation 2: Revolutionizing Tunnel Route Investigations: Leveraging Passive Seismic Tomography for Investigations in High Overburden Areas
12:30 hrs - 13:00 hrs	Presentation 3: Technical Paper on: Contemporary Technologies & Latest BIS and International Standards for Tunnel Lining
13:00 hrs - 14:00 hrs	Lunch Break
14:00 hrs - 14:30 hrs	Presentation 4: Urban tunnelling interactions and challenges
14:30 hrs - 15:00 hrs	Presentation 5: Revolutionary Geophysical Investigation Technologies for Minimizing Geological Uncertainties During Construction
15:00 hrs - 15:30 hrs	Presentation 6: Construction of Sela Tunnel - World's longest bi-lane tunnel at 13700 ft. elevation - A Case Study
15:30 hrs - 16:00 hrs	Tea / Coffee Break

Day 1 - Wednesday, 11th December 2024

Charting India's Infrastructure Growth Journey for Viksit Bharat

14:00 hrs to 19:00 hrs

Opal Hall, IEML Building, 2nd Floor

Organized by

MESSE
MÜNCHEN

14:00 hrs - 16:00 hrs

Plenary Session 1 – Reinventing Indian construction industry

16:15 hrs - 17:30 hrs

Plenary Session 2 – Power of Digital & Alternate Technologies to Transform Construction Operations

17:40 hrs - 19:00 hrs

Plenary Session 3 – Making Construction Industry an Employer of Choice

Day 2 - Thursday, 12th December 2024

Construction Times Awards	
09:30 hrs to 14:30 hrs	Jade Hall, IEML Building, 2nd Floor

Organized by

National Meet - Discussion on Modern Construction Technologies	
10:00 hrs to 13:30 hrs	Crystal Chamber Hall, IEML Building, 2nd Floor

Organized by

Day 2 - Thursday, 12th December 2024

Advancing Tunnelling Through Innovation: Cutting-Edge Equipment and Techniques

10:30 hrs to 14:00 hrs

Topaz Hall, IEML Building, 2nd Floor

Organized by

10:30 hrs - 11:30 hrs	Presentation 1: Emerging Technology in Tunneling: Tools for efficiency and safety
11:30 hrs - 12:00 hrs	Tea/ Coffee Break
12:00 hrs - 12:30 hrs	Presentation 2: A Green & Sustainable Solution for Tunnel Infrastructure
12:30 hrs - 13:00 hrs	Presentation 3: Large Diameter Urban Tunneling Using TBM with a Case Study
13:00 hrs - 14:00 hrs	Lunch Break

Day 2 - Thursday, 12th December 2024

Use of Waste Materials in Road Construction

10:30 hrs to 15:45 hrs

Amber Hall, IEML Building, 2nd Floor

Organized by

10:15 hrs - 11:00 hrs	Inaugural Session
11:05 hrs - 12:15 hrs	Session 1 - Waste Materials in Granular Layers
12:15 hrs - 13:30 hrs	Session 2 - Utilization of Slag Aggregates
13:30 hrs - 14:30 hrs	Networking Lunch
14:30 hrs - 15:45 hrs	Session 3 - Waste Materials in Bituminous Layers

Day 2 - Thursday, 12th December 2024

Charting India's Infrastructure Growth Journey for Viksit Bharat

11:00 hrs to 16:30 hrs

Opal Hall, IEML Building, 2nd Floor

Organized by

11:00 hrs - 12:00 hrs	Panel Discussion – Planning for a bright future for the Indian CE industry
12:15 hrs - 13:15 hrs	Panel Discussion – Make in India for CE manufacturing: Roadmap to become globally competitive
13:30 hrs - 14:30 hrs	Panel Discussion – Skill development for the construction industry – Bridging gaps & gauging future demand
14:30 hrs - 15:30 hrs	Panel Discussion – Role of finance & innovation in propelling Indian CE industry forward
15:30 hrs - 16:30 hrs	Panel Discussion – How technology adoption is making giant strides in construction operations

Equipment Times Awards

17:30 hrs to 22:00 hrs

Jade Hall, IEML Building, 2nd Floor

Organized by

Day 3 - Friday, 13th December 2024

Modern Construction Technologies in India

09:30 hrs to 14:45 hrs

Topaz Hall, IEML Building, 2nd Floor

Organized by

09:30 hrs - 10:15 hrs	Registration & Tea/Coffee
10:30 hrs - 11:00 hrs	Inauguration & Welcome Address
11:00 hrs - 11:45 hrs	Technical Talk 1 – “Role of Modern Machinery in Development of Highway Infrastructure in India”
11:45 hrs - 12:30 hrs	Technical Talk 2 – “Future of Precast RCC in Construction of High rise Buildings in India”
12:30 hrs - 13:10 hrs	Technical Talk 3 – “Role of Anchor Technology in Modern Constructions”
13:10 hrs - 13:45 hrs	Technical Talk 4 – “Modern Machineries for Construction in India”
13:45 hrs - 14:00 hrs	Presentation of Mementos & Vote of Thanks
14:00 hrs - 14:45 hrs	Lunch

Day 3 - Friday, 13th December 2024

Innovative Techniques in Demolition & Recycling

10:00 hrs to 18:00 hrs

Crystal Chamber Hall, IEML Building, 2nd Floor

Organized by

10:00 hrs - 10:30 hrs	Registration
10:30 hrs - 11:15 hrs	Inaugural Session
11:15 hrs - 11:30 hrs	Keynote Note Lecture - A Perspective on the Present and Future Status of Demolition and Recycling in India and Worldwide
11:30 hrs - 11:45 hrs	Partner Presentation
11:45 hrs - 12:00 hrs	Tea Break
12:00 hrs - 12:45 hrs	Lecture 1 - Circular Economy of present infrastructure development, ongoing & future demolition
12:45 hrs - 13:15 hrs	Lecture 2 - Controlled Demolition with Right Power and Diamond tools
13:15 hrs - 14:15 hrs	Lunch
14:15 hrs - 14:45 hrs	Lecture 3 - importance of c&d waste recycling and current scenario
14:45 hrs - 15:15 hrs	Lecture 4 - use of Different Demolition attachments for special purpose
15:15 hrs - 15:45 hrs	Lecture 5 - Creating awareness about safe demolition
15:45 hrs - 16:00 hrs	Partner Presentation

Day 3 - Friday, 13th December 2024

Innovative Techniques in Demolition & Recycling

10:00 hrs to 18:00 hrs

Crystal Chamber Hall, IEML Building, 2nd Floor

Organized by

16:00 hrs - 16:30 hrs	Lecture 6 - Key learning's regarding failures during demolition jobs
16:30 hrs - 17:00 hrs	Lecture 7 - Precision Demolition: The Role of Diamond Cutting Technologies in Modern Deconstruction
17:00 hrs - 17:15 hrs	Coffee / Tea Break
17:15 hrs - 17:25 hrs	Partner Presentation
17:25 hrs - 17:55 hrs	Lecture 8 - Diamond wire
17:55 hrs - 18:00 hrs	Vote of Thanks

Day 3 - Friday, 13th December 2024

Quarry Forward 2024

13:30 hrs to 18:30 hrs

Amber Hall, IEML Building, 2nd Floor

Organized by

13:30 hrs - 13:45 hrs	Lamp Lighting & Welcome Note
13:45 hrs - 14:30 hrs	Debate 1 : Drilling & Blasting - Improving Productivity
14:30 hrs - 14:40 hrs	Partner Presentation - 1
14:40 hrs - 15:25 hrs	Debate 2 : Crushing & Screening - Increasing Efficiency
15:25 hrs - 15:35 hrs	Partner Presentation - 2
15:35 hrs - 16:20 hrs	Debate 3 : Sand Classification - Saving Resources
16:20 hrs - 16:30 hrs	Tea Break
16:30 hrs - 16:40 hrs	Partner Presentation - 3
16:40 hrs - 17:25 hrs	Debate 4 : Material Handling Tech - Saving Energy
17:25 hrs - 17:35 hrs	Partner Presentation - 4
17:35 hrs - 18:00 hrs	Certificate Handover to Prestigious Quarry Owners & Expert Panellists

Builders' Association of India

(All India Association of Civil Engineering Construction Contractors and Builders)

For tapping the business opportunity in the emerging Indian Infrastructure and Real Estate Sector, **BAI offers . . .**

Advertising in 'Indian Construction'

The widely circulated monthly Journal is not only the mouth piece of BAI but a regular and dependable authentic information provider to the constituents of the Indian construction sector. It has a captive subscription base.

Product Write-ups

Write-ups of products are carried in the 'Indian Construction' Journal in a way that it is of interest and information to readers. Most of the times it complements an advertisement of a product in the same issue.

Exhibitions/Trade fairs

Exhibitions/Trade fairs are regularly held by BAI in various parts of India.

Conventions/Seminars /Conferences

Conventions/Seminars/Conferences are organised regularly by BAI in various parts of India and on specific topics too. These events are many times clubbed along with Exhibitions/Tradefairs.

Construction Industry Referencer

BAI publishes Construction Industry Referencer (CIR) the official membership directory of BAI containing all details of its members. Being a collector's volume, advertisements in the CIR get multiple exposures.

Website

The newly launched and regularly updated BAI Portal 'www.baionline.in' is a much sought after website for the information hosted on it. Advertisements, banners, messages and links on the website get wide exposure.

One-to-One meetings

One-to-One meetings with specific groups of members are also arranged by BAI on request by a supplier/manufacturer in various parts of India.

Research/Survey/Opinion gathering exercise

This is also done as per requirement.

For more details of the above services, please contact :

ABS House, W-116 (A), T.T.C. Industrial Area, MIDC Khairane
Navi Mumbai - 400710, Maharashtra, India
Email: harisankar@absgroup.in
Website: absgroup.in/

COMPANY PROFILE

Advanced Bolting Solutions Pvt. Ltd. (ABS) is a leading multinational provider of precision bolting and machining solutions. With a consultative sales approach, ABS delivers expert on-site controlled bolting and machining services across India and the Middle East, ensuring efficiency, precision, and safety.

Controlled Bolting

ABS offers comprehensive bolting services, including torquing up to 71,180 Nm and tensioning for nut sizes up to 4 inches, catering to various industrial applications with a focus on accuracy and effectiveness.

In-situ Machining

Our skilled onsite machining team, backed by top international brands, provides cold pipe cutting, beveling, and a range of portable flange facer services, all designed to keep pipes safe and damage-free.

Specialized Services

In addition to bolting and machining, ABS supports specialized needs with rental kits for Wind OEMs to ensure turbine readiness. Our NABL-accredited ABS Service Van also provides torque calibration up to 27,000 Nm, adding a mobile, high-standard service offering.

With a strong presence across multiple locations, ABS remains a trusted partner for precision bolting and machining solutions in the region.

PRODUCTS

Battery Operated Torque Wrench, Electric Torque Wrench, Pneumatic Torque Wrench, Hydraulic Torque Wrench, Hydraulic Bolt Tensioners

AERIAL PLATFORM ASSOCIATION OF INDIA

Mumbai Suburban - 400022, Maharashtra, India
Email: info@apaoi.com
Website: www.apaoi.com

COMPANY PROFILE

We would like to inform you that currently we have 110 + association members in our association with their presence in 50+ cities in India as well as globally. I would request you to kindly refer to the below introduction of our association.

AERIAL PLATFORM ASSOCIATION OF INDIA is a company registered under section 8 of the Companies Act 2013 on the 14th September 2016, as a Pvt. Ltd. Co. The main objective of the Association is to create awareness, promote, standardize and protect the interest of all the members who are owners, users, suppliers and manufacturers of Aerial Work Platform and related products in India. The Vision of the Association is to fulfill the objective by providing all kinds of best available support services and skill up gradation programs. The Mission of the Association is aligned with the Objective and Vision and aims at implementing various skill sets and educational programs and initiatives like customized training courses for aerial operators, awareness seminars, cost and inventory controls activity etc, on an ongoing basis.

Why APAOI?

We hold educational meetings that provide updates on different issues. APAOI has greater opportunity which provides to either be a mentor or find one. We organise numerous events throughout the year that allow to network with their peers. Our access to resources also provides news about upcoming events, conferences, meetings, and even opportunities. It's about ideas, large and small, that keep us connected, that help us move, that spark even bigger ideas. Our association provides members with access to industry standards and best practices related to aerial platforms. This includes safety guidelines, maintenance procedures, and operational guidelines to ensure that equipment is used safely and effectively. With different and to the point educational resources and training programs for members to help them improve their skills and stay up-to-date on industry trends. This includes webinars, seminars, and certification programs.

ALKRAFT THERMOTECHNOLOGIES PVT LTD

H9.D11

35 A and B/1, Alkraft Thermotechnologies Pvt Ltd
Chennai - 600058, Tamil Nadu, India
Email: info@alkraft.com
Website: alkraft.com

COMPANY PROFILE

Alkraft is a leading manufacturer of Thermal Management products and systems based in Chennai. Our Heat Transfer products are core powertrain components of commercial vehicles, defence vehicles, construction and industrial equipment, power generation equipment, agricultural equipment and renewable energy installations both within and outside India. Alkraft was founded three decades ago as a small R&D unit that designed and developed India's first Aluminium Heat Exchanger. That pioneering effort led to new benchmarks being set for heat transfer in the Indian automotive industry. The company has since consistently developed proprietary and unique thermal management solutions that has provided superior value to customers. This relentless focus on delivering customer success has driven all of our technology, design and process innovations.

All through the journey, Alkraft has stayed at the forefront by challenging status quo, pushing conventional boundaries, and by addressing the toughest challenges that drive change in the industry. Constant changes in technology to meet the evolving and stringent emission, performance and quality standards have required the industry to keep adapting, innovating and improving. We have stayed ahead of that curve through each subsequent change by delivering innovative value engineered products that enabled compliance with each new standard with best-in-class reliability and durability. This technological know-how combined with our operational 'can-do' approach has consistently enabled our customers to take better products to market, faster.

Alkraft's product portfolio includes Radiators, Charge Air Coolers, Cooling System Modules, a wide range of Oil Coolers and Fuel Coolers. The company introduced its first generation Thermal Management product for Electric Vehicles in 2018. Subsequently, we developed a range of products covering Thermal Management of Traction Motor and Power Electronics, Cold Plates, Battery Thermal Management System, and modularised products for EV Charging Stations. Alkraft's history of innovation and leadership in change, complete suite of Thermal Management products and solutions, together with unrivalled operational excellence makes it the preferred Heat Transfer partner for OEMs across the world.

ALLISON TRANSMISSION INDIA PVT. LTD.**H9.E01**

411, Elegance Tower, 8 District Centre, Jasola
New Delhi - 110025, Delhi, India
Email: India.Sales@allisontransmission.com

COMPANY PROFILE

Allison Transmission is a leading designer and manufacturer of propulsion solutions for commercial and defense vehicles and the largest global manufacturer of medium and heavy-duty fully automatic transmissions that Improve the Way the World Works. Allison products are used in a wide variety of applications, including on-highway trucks, buses, off-highway vehicles and equipment (energy, mining and construction applications).

Founded in 1915, the company is headquartered in Indianapolis, Indiana, USA. With a presence in more than 150 countries, Allison has regional headquarters in the Netherlands, China and Brazil, manufacturing facilities in the USA, Hungary and India, as well as global engineering resources. Allison also has approximately 1,600 independent distributor and dealer locations worldwide.

With more than 70 years of moving earth and rock in coal, copper, gold, silver, diamond and other kinds of mines around the world, Allison fully automatic transmissions have proven themselves in some of the most challenging conditions. Allison fully automatic transmissions are engineered especially for the severe duty-cycles trucks face in mining environments. Rigid, articulated and wide-body dump trucks outfitted with Allison Automatics will accelerate quickly and smoothly.

Allison Transmission has a state-of-the-art manufacturing facility in Chennai to cater to ever demanding needs of our discerning customers.

COMPANY PROFILE

The Apollo Techno Group has established a robust presence in the manufacturing of road construction equipment, built on a solid foundation of customer value creation and over four decades of responsible business practices. As part of its diversification strategy, the Group has expanded into the production of underground construction equipment, specifically Horizontal and Vertical Drill machines. Today, Apollo Techno Industries Private Limited proudly leads the way as India's first manufacturer of Horizontal Directional Drilling machinery.

Our extensive experience in equipment manufacturing has enabled us to gain a profound understanding of customer needs, which we have translated into our unique Impact Design language. Recognized as a key player in the drilling machinery industry, we offer a wide range of products, including directional drills, mud pumps, rotary drilling rigs (piling rigs), diaphragm wall drilling rigs along with comprehensive on-site services.

Our organization operates on SAP ERP systems, employing modern manufacturing processes to ensure timely availability of spare parts. With innovative leadership and a commitment to strong customer relationships, Apollo Techno is a growing global force in equipment manufacturing. Our qualified and experienced team is dedicated to delivering total customer satisfaction through high-quality products and exceptional after-sales support.

COMPANY PROFILE

BAUER Equipment India is a subsidiary of the German giant, BAUER Maschinen GmbH. Established in 1994, the company has been a key player in the Indian construction and infrastructure sector for over two decades.

BAUER Equipment India offers a comprehensive range of foundation engineering equipment, including rotary drilling rigs, Trench cutter equipment, Grab equipment, and related drilling tools. They provide sales, after-sales service, and spare parts support to customers across India. Beyond equipment, the company focuses on delivering complete solutions. Leveraging BAUER's global expertise, they offer tailored solutions for various projects, from small-scale buildings to large-scale infrastructure developments. India's growing infrastructure needs have made it a strategic market for BAUER. The company caters to sectors such as dams, hydroelectric power, metro, highways, bridges, and urban infrastructure.

Backed by BAUER's global leadership in foundation engineering, the Indian subsidiary benefits from cutting-edge technology and best practices. With operations in Mumbai and Chennai, BAUER Equipment India ensures efficient service and support to its customers. The company is committed to understanding customer needs and providing solutions that meet their requirements.

BAUER Equipment India plays a vital role in supporting India's infrastructure development. Their high-quality equipment and solutions contribute to the construction of robust and sustainable projects, driving economic growth and improving the quality of life for millions.

COMPANY PROFILE

We are pleased to introduce ourselves as one of the leading manufacturers of High / Low carbon steelwires and wire ropes ----- Black and Hot dipped galvanized. Currently we are exporting our wire and wire ropes to various countries from Europe, USA, Singapore and Middle East. From here we can assure you that we can supply you the best quality material.

We are manufacturing wires for various applications like:

1. Flexible Duct Wire
2. Spring Steel Wire for Mattress
3. Collated Nails Wire
4. Galvanized Steel Wire
5. Gabion
6. Mattress Wire
7. Bucket Handle Wire
8. Mild Steel Wire
9. Rope Wire
10. Patented Galvanized Wire
11. Patented Black Wire
12. Wire Rope
13. Galvanized steel Core Wires for ACSR Wire and Strands
14. Stay Wires
15. Earth Wires
16. Cable Armouring wires
17. Strands required for vibration dampers
18. Messenger wires for ABC cables

Our production capacity is approx. 72000 Metric Tonnes of Wire and 15000 tons of steel wire ropes per annum.

COMPANY PROFILE

Build Form - Revolutionizing Modern Construction

Build Form is a trailblazer in construction innovation, specializing in advanced, modular formwork solutions that meet the evolving demands of modern projects. With over 25 years of expertise in plastic manufacturing, we deliver durable, eco-friendly systems designed for versatility, ease of use, and efficiency. Our lightweight, reusable formworks support faster, safer construction with minimal maintenance, helping professionals achieve superior results while reducing costs and environmental impact. Whether for residential, commercial, or infrastructure projects, Build Form stands as a trusted partner committed to quality, innovation, and sustainability in every build.

Key Features of our Revolutionizing Solutions

Effortless Handling:

Build Form's formwork systems are designed for easy assembly without heavy machinery. Each component weighs as little as 11 kg, making them manageable on-site, even in confined spaces. This feature is ideal for all construction scales, from small projects to large infrastructure builds.

Flexible & Adaptable:

Our modular formwork allows for diverse shapes and sizes, adaptable to walls, slabs, columns, stairwells, and more. This versatility enables the same components to be reused across multiple projects, maximizing investment.

Robust & Long-Lasting:

Made from Plastic, our formworks withstand challenging environments and can be reused over 100 times. The smooth surface ensures easy cleaning and quick turnover between pours, providing cost-effective and long-term reliability.

Sustainable & Environmentally Friendly:

Build Form products use recycled materials, significantly reducing waste. By choosing Build Form, users contribute to environmentally conscious construction, supporting sustainability goals without sacrificing quality.

COMPANY PROFILE

Focus

Our Vision is to establish ourselves as a brand which is dedicated to enhancing best process efficiency in the world of Manufacturing industries by providing comprehensive energy and eco-friendly solutions.

Ambition

Our mission is to assist our customers by offering top-notch solutions and cutting-edge lifetime services. To pursue our vision, we consistently strive to uphold the top standards of ethics & Perfections in our management practice. Our goal is to cultivate a corporate with a friendly work environment, where we nurture and support the talents of each team member, helping them to grow and find fulfilment in their professional pursuits.

Our Values

We, Burner India, Under the Leadership of Mr. Vinesh Bhatia, are committed to providing next-generation, eco-friendly, extremely efficient heating solutions to the industry. We are well known for our technical know-how, made-to-order solutions, strong service network. At each stage of manufacturing of the process & product heating equipment, our expert team makes sure that it was manufactured as per industry standards and the customer's demand.

Manufacturing Units

Production facilities is located at Gujarat, India. Efficient production with modern management methods and high-quality equipment has been created on an area of more than 30,000 m² at Unit-1 and 10,000 m² at Unit-2. The plant has more than 100 employees working in marketing, engineering, design, services, manufacturing and logistics to cater customer's needs.

COMPANY PROFILE

WEAR-RESISTANT PIPE SYSTEMS FOR SOLVING COMPLEX CONVEYING TASKS AND PROJECT REQUIREMENTS

Since 1948, Esser has been developing piping systems that are among the leading systems on the market today. Located in Warstein, Germany, we service customers in more than ten industries around the world, applying the same unique blend of engineering, quality and technological know-how to every project. Our products are known for their reliability and durability. They are precisely tailored to the requirements of each application. Our twin-walled pipe is hard to compare with other products on the market. The inner tubes are manufactured using our patented production process. This enables us to achieve hardness levels at the end of the Rockwell scale and thus a high resistance to wear. The outer tube retains its compressive strength. This makes our pipe components the ideal product when it comes to conveying abrasive materials under pressure - whether hydraulically or pneumatically. We manufacture standardized components on-site that are available at short notice. Customized solutions are also part of our portfolio. At Esser, we meet or exceed the highest international safety standards. This gives our customers the peace of mind they need for productive and efficient operations. As a sustainable company, we attach great importance to protecting our environment and using resources conscientiously. Investments in environmentally friendly production machines, the reduction of power losses and the expansion of renewable energies serve to reduce our CO2 footprint.

PRODUCT CATEGORIES

ESSER TWIN 700 - Pipelines for concrete pumps, ESSER TWIN 900 - Pipelines for concrete pumps

COMPANY PROFILE

Fiori Concrete Machines India Pvt Ltd, is a wholly owned subsidiary of Fiori Group S.p.A. Italy. The principal company, Fiori Group S.p.A. founded in 1942 is headquartered in Finale Emilia (MO) in Italy, is the pioneer in the field of providing efficient and economical solutions for job-site concreting.

The concept of Self-loading concrete mixer was developed by Fiori Group, in the year 1965. Since then, this product has gone through continuous improvisation to meet the growing quality demands in job-site concreting. It has evolved over the years in such a manner that they can produce certified quality concrete of any grade, as good as the concrete made by top quality batching plants.

Fiori's experience of dealing with customers with over 65+ countries across the world have helped in achieving a customer friendly machine while ensuring sustainability, energy efficiency and exceptional operational safety.

Fiori Concrete Machines India Pvt Ltd, is a dedicated new facility in Chennai, India, for manufacturing FioriSelf-Loading Concrete Mixers.

COMPANY PROFILE

Originally the machining department within Borghi Impianti Oleodinamici S.p.A., it was not until 1979 that FOR S.p.A. was established as an independent company with the construction of the current premises in Poggio Renatico (Ferrara).

Since its inception, quality, entrepreneurship and innovation have guided FOR S.p.A. to the forefront of hydraulic connectors and hose assemblies production.

The pursuit of quality takes place with the deployment of state-of-the-art production and the in-house management of the manufacturing process.

Connectors from FOR S.p.A. are manufactured from drawn barstock (straight parts), or from forgings (elbows, tees, crosses, and flanges).

Our connectors are zinc plated according to ISO 19598, and resist 1.400 hours to red corrosion in test environment according to ISO 9227 NSS, ASTM B 117/97 and DIN 50021 SS.

In order to safeguard integrity and avoid contamination, all parts are supplied with thread protections and other means of preservation.

COMPANY PROFILE

Gomadhi Mechbadger is an Indo-Italian joint venture bringing innovation and efficiency to the construction industry. We specialise in the manufacture of compact, multifunction construction material handling machines designed to thrive in the narrowest spaces and on the roughest terrains.

Our machines are not just about size; they are about power and precision. Engineered to accelerate material handling time at construction sites, Gomadhi Mechbadger equipment ensures your projects are completed faster and more efficiently. But we don't stop there. Understanding the diverse needs of construction, agriculture, and aerial maintenance professionals, we offer highly customizable solutions that adapt to your specific requirements.

Machine that not only meets but exceeds your expectations—one that offers high-tech features and is built for durability and versatility. Whether you're working on a crowded urban site or navigating the challenging conditions of agricultural land, our machines are the ideal support system to enhance your productivity.

Gomadhi Mechbadger is your partner in progress, combining Italian engineering finesse with Indian innovation to deliver world-class solutions. Join the revolution in material handling and discover the transformation of your workflow.

Explore our range and find the perfect fit for your next project. Gomadhi Mechbadger—engineered for the future.

Ground Floor, 27A, South Phase, Developed Industrial Estate, Guindy
Chennai - 600032, Tamil Nadu, India
Email: kevin@hindujahousingfinance.com
Website: www.hindujaleylfinance.com

COMPANY PROFILE

Hinduja Leyland Finance, a key player in India's non-banking financial sector, is promoted by Ashok Leyland and is a part of the Hinduja Group. Established in 2008, the company offers an extensive range of retail finance products, serving underserved population in urban, semi-urban & rural areas. Known for its commitment to excellence and integrity, Hinduja Leyland Finance has become a trusted partner for both individuals and businesses. Our finance and leasing solutions encompass a wide range of commercial vehicles, construction equipment, cars, multi-utility vehicles, tippers, two-wheelers, tractors, both new and used.

Our CV and CE finance business cater to diversified customer base comprising First Time Buyers, fleet operators (small, medium, strategic, and large), captive users, and self-employed individuals through our wide distribution network covering 1000+ locations. Through our extensive co-lending program with leading Banks, we cater to large operators with very competitive interest rates. We extend loans to smaller NBFCs that operate in microfinance, vehicle loans, affordable housing, and MSME lending space. Hinduja Leyland Finance entered the housing finance business in fiscal 2016 through its wholly-owned subsidiary, Hinduja Housing Finance Limited, which focuses on providing housing loans, including affordable housing loans. In collaboration with our parent company, Ashok Leyland Limited, we have formed a joint venture, Gro Digital Platforms Ltd. This is one of the leading freight aggregation platforms in the "earn" space, and afuel, tyre, and repairs aggregation platform in the "operate" space, featuring a customized high-end telematics platform. In the vehicle disposal ecosystem, we have established a digital presence through our wholly-owned subsidiary, "Gaadi Mandi" Digital Platforms Ltd. This platform facilitates the buying and selling of pre-owned vehicles and has developed digital capabilities in yard management, refurbishment, documentation, and refinancing.

COMPANY PROFILE

Hydraulics Trailer Owners Association (HTOA) is a solo body representing modular hydraulic trailer owners catering road transportation needs of over dimensional/overweight consignments of indivisible nature with sole motive of acting as a bridge between Government and Trailer owners for improvement of legal provisions leading to better compliance with Ease of Doing Business and serve nation. The Association is a non profit making body and works for the benefit of the members and in the interest of public with total commitment to work in the professional and most efficient manner. Our members (HeavyLift transport operators) are one of the key link for transporting equipment of large weight and dimensions on roads of India in spite of the infrastructure challenges to set-up the plant across the length and breadth of India for mega projects in Refinery, Petrochemicals & Fertilizer Projects; Power, Steel, Cement Plants, Railways and other infrastructural projects of National importance.

HTOA's Main Objective.

To acquire and disseminate knowledge about the working of Hydraulic Trailer operations in different countries and induce the members to raise the standards of service to various core industries by issuing circulars, pamphlets and periodicals & similar such documents including skill updation thru training, webinars etc.

Our Vision.

- Become a trusted voice for road Transport industry in India Our Vision.
- Bridge the gap between government policies & member acceptance for the same.
- Driving economic growth thru road transport in India.
- Skill Development of Transport Industry Workforce.
- We plan to put India on top of the world in road transportation.
- Facilitating nation building through Aatma Nirbhar Bharat & timely logistics of critical equipment's.

Am Reutgraben 2

Ettlingen - 76275, Baden-Wurttemberg, Germany

Email: info@imko.de

Website: www.imko.de

COMPANY PROFILE

IMKO GmbH is a state of the art producer of components and systems for moisture measurement in materials. With the SONO series, IMKO GmbH offers a new generation of moisture probes that we redeveloped particularly for the construction industry and food production and can also be used in many other industries. Characterized by the use of the latest TRIME radar technology, the benefits are to measure material moisture precisely, directly, trouble-free, cost-effectively and plug and play with all control systems in a wide variety of applications.

Hardly any other dimension has such a decisive influence on product quality as the moisture content - in product development as well as in production itself.

The SONO series are used for inline measurements in a wide variety of materials. The improved process control optimizes output, saves energy, increases productivity and gives a significant workload relief. Both, time-intensive and labor-intensive sampling for conventional measuring devices is reduced to a minimum.

COMPANY PROFILE

Indian Construction Equipment Manufacturers' Association (ICEMA) is an apex body for Construction Equipment (CE) manufacturers in India and represents over 135 OEMs, component manufacturers, financiers and other CE industry stakeholders. The members of the Association comprise 95% of the OEMs and component manufacturers in the Indian CE Industry, along with other leading companies that manufacture, trade and finance a variety of Construction, Earthmoving, Concrete, Mining, Material Handling and Material Processing equipment used for developing a robust, world-class infrastructure in the country. ICEMA boasts a stellar legacy of nearly 75 years. Constituted in 1949 as Tractor & Allied Equipment Manufacturers and Importers Association Ltd., with 10 Indian member companies, and rechristened as Indian Earthmoving & Construction Industry Association Ltd. (IECIAL) in 1986, the Association acquired its present nomenclature, viz., Indian Construction Equipment Manufacturers' Association (ICEMA), in 2012, in an endeavour to make it truly representative of the Indian CE industry and to expand its scope of services.

A non-government and not-for-profit organization, ICEMA serves as a reference point for India's CE industry. The Association supports and guides the CE industry and engages with the Government in shaping new policies, works towards development of new standards for construction equipment and creates platforms for knowledge sharing. The Association also serves as a bridge between the Indian and global construction equipment industries by interfacing with international counterparts.

At the heart of ICEMA's endeavors lies a relentless pursuit of excellence, epitomized by its commitment to developing a skilled workforce to meet the evolving demands of the industry. By nurturing talent and fostering innovation, ICEMA paves the way for a vibrant and sustainable future for the CE industry in India.

The Association's activities are guided by a Governing Council and eight ICEMA panels comprising of industry leaders, to achieve the objectives of the Indian CE industry's Vision Plan 2030 with the help and support of its members.

COMPANY PROFILE

Innotec Power is a rapidly expanding company at the forefront of the electrification revolution in the off-highway mobile equipment industry. As original equipment manufacturers (OEMs) increasingly transition to hybrid and electric technologies, Innotec Power is poised to meet their evolving needs. As a premier builder of high-performance electric motors and alternators, the company plays a critical role in enabling the efficient and reliable operation of electric and hybrid equipment. With a strong focus on innovation and customer satisfaction, Innotec Power is dedicated to delivering cutting-edge solutions that drive the success of its OEM partners and contribute to a more sustainable future.

Established in 2009, Innotec Power is a leading Manufacturer and Specialist in the design and production of Permanent Magnet Motors, Permanent Magnet Alternators, DC gensets and Control Systems. With arich history of serving Fortune 500 companies, we have developed extensive expertise in deliveringinnovative solutions for power generation, transmission, and control.

What sets us apart is our Ability to Customize! We understand that each customer has unique requirements, and we take pride in offering tailor-made solutions that perfectly match their specifications,working conditions, and needs. Our PM Motors and PM Alternators find applications in various non-conventional energy systems such as wind technologies, hydro-kinetic turbines, and biogas plants.

Additionally, we manufacture DC gensets/Auxiliary Power Units(APUs) and control systems, further expanding our capabilities in providing comprehensive power generation solutions and contributing to the growth of renewable energy and its impact on a sustainable future.

COMPANY PROFILE

Jindal Steel & Power (JSP) is an Indian industrial powerhouse with a dominant presence in steel, mining and infrastructure sectors. With more than three-decade-long illustrious history, JSP is continuously innovating, and scaling its capacity utilisations and efficiencies towards creating a self-reliant India. Led by Mr Naveen Jindal, the company produces best-in-class, cost-effective steel through backward and forward integration. It is undertaking ambitious expansion plans, and aims to be known as one of the most efficient, innovative, steel-makers in the world.

JSP's business operations span across the states of Odisha, Chhattisgarh and Jharkhand in India and across multiple global destinations including Australia and Africa. JSP has a steel-making capacity of 9.6 MTPA. JSP's captive iron ore mines at Tensa & Kasia in Odisha, have a production capacity of 3.11 MTPA and 7.5 MTPA respectively. JSP has a unique & diverse product portfolio that caters to markets across the steel value chain.

JSP has been operating within a well-defined ESG framework under which it plans to be one of the lowest Co2 emitting steel companies in the world within this decade. JSP is the first and only steel maker in India to have commissioned a Coal Gasification Plant (CGP) in 2014 which helps in eco-friendly steel production with lower carbon footprint. JSP is working aggressively to become carbon net zero at an accelerated pace.

JSP has been rated as the second-highest value creator in the world between the Years 2005-2009 by the Boston Consulting Group, and has also figured in the Forbes Asia list of Top 50 companies and Economic Times Sustainable Organisations 2022 list recently. The company is guided by its core philosophy of nation building and endeavours to strengthen India's industrial base by aiding infrastructural development, and through sustainable development initiatives. It deploys its resources to improve infrastructure, education, health, water, sanitation, and environment etc around its areas of operations, towards improving the quality of life of the communities.

National Realty Pvt. Ltd., 3rd Floor, Baner Road, Baner
Pune - 411045, Maharashtra, India
Email: india.sales@konecranes.com
Website: www.konecranes.com/en-in

COMPANY PROFILE

Konecranes moves what matters. We are a global leader in material handling solutions, serving a broad range of customers across multiple industries. Konecranes consistently sets the industry benchmark, from everyday improvements to the breakthroughs at moments that matter most, because we know we can always find a safer, more productive and sustainable way. Konecranes is a world-leading group of Lifting Businesses, serving a broad range of customers, including manufacturing and process industries, shipyards, ports and terminals. Konecranes provides productivity-enhancing lifting solutions as well as services for lifting equipment and machine tools of all makes. The Group has 16,200 employees at 600 locations in 50 countries. Konecranes is listed on the Nasdaq, Helsinki. The Group's brand strategy is based on the corporate Konecranes master brand, which is complemented by the Demag brand and a portfolio of freestanding power brands. Konecranes branded products are sold directly to end users, while power branded products are sold to distributors and independent crane builders. Demag branded products are also sold to distributors and independent cranebuilders.

IN India, Konecranes and Demag Private Limited is a 100% owned subsidiary of the Konecranes group based in Finland. We started our journey in India in early 2007 and have grown rapidly from a small setup of 15 employees to a company which today numbers more than 800 employees. The acquisition of WMI Cranes in 2011 and Demag Cranes in 2016 expanded its portfolio in India. Its Jejuri, Pune, manufacturing facility, head office, Baner, Pune and service branches across India provide advanced lifting solutions nationwide.

Industrial Equipment: Konecranes Industrial Equipment provides an extensive range of industrial cranes, from components and light duty applications to demanding process use and solutions - serving general manufacturing and various process industries. We are the world's largest supplier of industrial cranes and wire rope hoists and a technology leader with digital controls, software and automation.

Service: Konecranes Service provides specialized maintenance services and spare parts for all types and makes of industrial cranes and hoists, from a single piece of equipment to entire operations. Our objective is to improve the safety and productivity of our customers' operations.

COMPANY PROFILE

Established in 1987, MM Spares is a leading distributor of OE parts for backhoe loaders (JCB), hydracrane, tractors, and more. MM is a well-known brand and a symbol of trust in the Automobile Spare Part Industry all over India.

We have an unparalleled range of spare parts with an assurance for quality and proven performance. With constant innovation and development, we are committed to provide latest products and solutions. We also take feedback on regular intervals for continuous improvement. All our products come from best manufacturers and go through a series of testing by professional experts and modern testing instruments.

Over the past 30 years, we have expanded our range to high-end applications such as Fork Lifts, Ecel and Ace Hydra Cranes, Heavy Earth Moving and JCB Spares. We are also authorized distributors of other reputed companies including Corteco, Rane, MSL, Greaves, TVS Delphi, Lucas, Timken, ARB, VDO, Talbros, GNA Gears, Banco Radiators, Sadhu Forging, and many more.

With country-wide success, we have achieved trust and confidence of over 600 retailers and distributors all over India and abroad. At the heart of the company, we believe to engender and ensure Quality, Reliability, and Trust.

COMPANY PROFILE

Mahindra Powerol is a part of the Mahindra Group's Automotive & Farm Equipment Sectors (AFS). The company entered the field of Power Generation in 2001-02. The business has grown exponentially and crossed 1000 Crore mark in just over 10 years. Today, engines from Mahindra Powerol are powering Diesel Generator sets from 5 kVA to 625 kVA.

Since inception, Mahindra Powerol has made rapid strides in the Indian genset industry within a very short span of time. Mahindra Powerol DG sets are the first choice of telecom majors like Reliance Jio, Indus Towers, Bharti Infratel, Viom Networks, American Tower, Telesonic Networks, Etisalat, Ooredoo, Tata Tele, Vodafone, Nokia, BSNL and MTNL across India and globally.

Mahindra Powerol has been awarded with the prestigious Deming Prize in 2014. The Deming Prize is a global quality award instituted by Union of Japanese Scientists & Engineers (JUSE) that recognizes businesses that have successfully implemented Total Quality Management (TQM).

Mahindra Powerol has also won various awards like Frost & Sullivan "Voice of Customer" award for the most preferred Genset Brand in the telecom segment in India, Master Brand, Power Brand & the latest being the Superbrand. Besides Telecom, Mahindra Powerol DG sets are powering customers from adverse cross-section of industries and segments like Banks, Building & Construction, Public Sector Units, Hospitals, Hotels, Homes and Manufacturing units in India and in Global markets.

Mahindra Powerol Diesel Generators are also available in exclusive showrooms all over India. Presently there are more than 70 such Retail showrooms selling DG Sets across different cities in India.

COMPANY PROFILE

Mechano Automation and Systems (ROBUST) was established in the year 2011 and with rich and vast experience in the field of fluid power from 2014, we have become more specific in our business for manufacturing of hydraulic AC and DC power packs, valves, cartridges and hydraulic manifolds for mobile and industrial applications.

Our group company has been selling fluid power products for more than 30 years with premier distributorship status with most partners.

These products are used in construction equipment, agriculture equipment, material handling equipment and various other stationary and mobile applications such as stackers, pallet trucks, scissor lifts, docklevelers, conveyors, outriggers, cranes, articulated lifts to name a few.

Our commitment is to delight our customers with quality products and timely delivery. We invest in research and technology to make sure we are ahead of the competition. We provide customised solutions to our local and global customers.

Please feel free to keep in touch with us about any of your business-related requirements/queries. We look forward for the fruitful working relationship together and success for all concerned.

COMPANY PROFILE

Mitra Enterprises, founded in 2018, is a comprehensive industrial solutions provider with core operations in trading and manufacturing.

In the trading vertical, Mitra Enterprises is an authorized distributor of renowned global brands, including Uras Techno, Nippon Magnetics Inc., Cleveland Vibrator Company (USA), and Exen Corporation (Japan), across India, Nepal, Bhutan, Bangladesh, Sri Lanka, Philippines, Africa and the Middle East.

A key product line in Mitra Enterprises' offerings is the Exen Concrete Vibrator series. This series includes advanced models like the E32DH, EKCA, are the surface finish vibrators and Viback series is the Excavator Mounted Mass Concreting Hydraulic Powered Concrete Vibrators, each engineered to enhance concrete compaction efficiency in construction projects.

The Exen concrete vibrators deliver consistent, high-frequency vibrations that ensure thorough removal of air pockets, leading to stronger, more durable concrete structures. With ease of use, low maintenance, and high durability, these vibrators are ideal for both small-scale and large-scale construction applications, contributing to more efficient, high-quality building outcomes.

COMPANY PROFILE

Murugappa Morgan Thermal Ceramics Ltd is a joint venture entity between the 9 Billion \$ Murugappa groups of India and the 1 Billion \$ Morgan Advanced Materials of UK. MMTCL pioneered the introduction of Ceramic Fibre in India for heat management. We offer an exceptionally wide range of high temperature insulating fibre, refractory and microporous products for effective thermal management and fire protection in specialized applications.

Beginning 1984 we manufactured and supplied Insulation and Passive Fire protection solutions across the globe. Our Patented Superwool Plus Fibers were the first low bio persistent fibres to be launched in the country.

Our Heat Shields were custom designed to global standards in house to help the country leapfrog from BSIV to BS VI.

Our 2 strategically located and ISO certified state of the art manufacturing facilities in Ranipet and Motibhoyan churn out close to 11,000 tonnes of insulation materials for varied applications

Our factories are certified and approved by global agencies like UL and DNV to manufacture PFP systems for the Construction and the Marine Markets.

Our WDS®- Min-K™ - - FireMaster™ MP product range caters to insulation and PFP requirements in Niche segments like Aerospace, Automotive, Marine, Iron and Steel industries where space and weight is a premium and our Vacupor® range helps save energy in the cryogenic segment.

COMPANY PROFILE

Welcome to OMNI-X

Founded in 1987 as a small three-person team, OMNI-X has since grown into a global network of four independently operated facilities. Each location is strategically positioned to serve its region with dedicated local engineers, sales teams, and top-quality products. By manufacturing tools locally, we can offer our customers improved lead times and competitive pricing tailored to the specific needs of each area.

While our facilities operate independently day-to-day, they work closely together in key areas such as scientific innovation and technical support. This collaborative approach allows us to design the highest quality tools and provide comprehensive technical assistance to our customers long after their purchase.

COMPANY PROFILE

OP Srl is an Italian manufacturer of hydraulic hose and tube processing equipment, with a recognized international presence and more than forty years of experience in the market. Its strong features are the wideness of range, the versatility of its products, that can be used in variety of different sectors. The products offered include both equipment for the hose assembly (crimpers, hose saws, skivers, machines for fittings assembly, markers, washing units, test benches and complimentary accessories like hosecoilers, hose holders and prickling devices) and machines for the rigid tube processing (benders, 37°-90°flaring, deburring and DIN2353 rings pre-assembling machines, together with multifunctional centres, which reunite in a single unit all of the above mentioned operations). OP is a dynamic reality, whose activity is guided by innovation, cutting-edge technologies and a constant focus on research and development. The path of O+P is marked by a constant growth, which led it to become one of the international key players in its industry. Sign of this is the opening of three foreign branches: OP ShanghaiCo. Ltd., based in Shanghai, OP USA INC, based in Boston and OP INDIA Pvt. Ltd., based in New Delhi, each dedicated to serve their domestic market.

Coimbatore - 641401, Tamil Nadu, India

Email: mohan.d@propelind.com

Website: www.propelind.com/

COMPANY PROFILE

Started in 2009, Propel became the largest and fastest-growing crushing, screening, and washing equipment manufacturer in India within a short span of time. Decades of experience in engineering design and innovation and a strong focus on customer satisfaction are the foundations of Propel's success. We have a base of more than 2900+ customers worldwide and a product portfolio of 135+ equipment models ranging in capacity from 50 TPH to 1000 TPH (tons per hour). We offer stationary plants, semi-mobile plants, and mobile crushing and screening plants and a comprehensive range of washing systems.

We have world-class, vertically integrated manufacturing units that enable us to achieve impeccable process and quality control. We are present in 26+ countries and have huge plans for our foray into newer markets world-wide in the coming years. We provide cost-effective spare parts because we make every part indigenously. Enhanced performance and versatile applications at optimal cost have made us the market leaders.

Our product line features a comprehensive range of equipment, including Jaw Crushers, Cone Crushers, Vertical shaft impactors (VSI), Horizontal shaft impactors (HSI), Roll crushers, Feeders, Screens, Sand washers, Air classifiers, and Thickeners. We have introduced a new segment for EV dump trucks forming applications, available in two variants: 470MEV (6x4) and 470HEV (8x4) and the Mechanical Road Paver for road construction.

The global presence of the company's sales and service network and round-the-clock customer support make us the ultimate choice for customers.

Propel Industries is the first Indian company in this segment to get a CE (Conformité Européenne) certification. We have also implemented a quality management system in accordance with ISO 9001:2015.

COMPANY PROFILE

Sany India was incorporated in 2002 and offers the widest range of Construction Machinery in India & South Asia. Since 2012, Sany India has invested more than INR 1000 crores to develop infrastructure for R&D, Quality Inspection, Testing and Service at our manufacturing facility in Chakan, Pune. Through this facility, the company operates in multiple product categories like Excavation Equipment, Hoisting Solutions, Deep Foundation equipment, Mining equipment, Road equipment, Port Equipment, Concrete Machinery and Renewable Energy. Within a short span of 20 years, Sany India has established itself as a market leader for Deep Foundation Equipment, Hoisting Equipment, Excavators, Mining Solutions, Portland Concrete Equipment. The company has already established a strong network of around 42 dealers and 250 plus touch points across India and South Asia to cater to the growing demand and provide support to all its customers & associates. Sany has more than 35,000 machines delivered on the ground, contributing to infrastructure development projects in India & other South Asian countries. Owing to its widest product range, superior build quality, service commitment, innovative solutions and global expertise, Sany India has achieved market leadership in various construction equipment segments. With the Government of India's focus on infrastructure development and modernization, the company is poised for tremendous growth.

H5.H13

610, COURT ROAD, MOGA
Moga - 142001, Punjab, India
Email: manish@shant.co.in
Website: www.shant.co.in

COMPANY PROFILE

Through a strategic collaboration with Zhenjiang Hydraulics Co., Ltd. in China, Shant Transmissions Limited has established a robust presence in the Indian market for hydraulic components. Based out of Patiala, Punjab, Shant Transmissions operates a state-of-the-art testing center and assembly plant, enabling them to provide highly customized, cost-effective solutions to meet the diverse hydraulic steering units and hydraulic orbital motor requirements of their clientele. This includes supplying critical hydraulic systems and parts for a wide range of heavy-duty applications, from earth-moving equipment and harvesters to tractors, loaders, and even marine applications.

Shant Transmissions' deep technical expertise and manufacturing capabilities allow them to optimize the hydraulic performance of these mission-critical components, ensuring reliable, efficient operation for their original equipment manufacturer (OEM) customers. By leveraging the advanced engineering and production resources of their Chinese partner, Shant is able to deliver hydraulic solutions that not only meet the exacting specifications of each application, but also achieve significant cost savings compared to other suppliers. This makes Shant an invaluable partner for OEMs across India's construction, agriculture, and marine industries, who can count on them to provide customized, high-quality hydraulic systems that enhance the productivity and profitability of their equipment. Shant Transmissions' unique collaborative model and in-house testing capabilities give them a distinct competitive edge, solidifying their position as a trusted, innovative provider of hydraulic components in the Indian market.

COMPANY PROFILE

Shirodkar Preci Comp (SPC) stands as one of Asia's most respected engineering and manufacturing organizations, serving over 30 global customers in the precision machining industry. Renowned for our expertise and commitment to quality, we offer a complete, one-stop solution for high-precision machined components and assemblies.

With a team of highly experienced engineers and a state-of-the-art manufacturing facility, SPC is trusted across multiple industries, delivering critical components to demanding sectors worldwide:

- Mining** – High-performance components and sub-assemblies for powered roof supports used in longwall mining, designed to meet the rigorous demands of the industry.
- Hydraulics** – A wide range of components including hydraulic cylinders, rods, manifold blocks, pistons, covers, clamps, and various parts for motors, pumps, fittings, and hose hardware.
- Electromechanical Equipment** – Key components and assemblies for advanced systems such as kinetic energy storage, aircraft ground power units, frequency converters, and naval power supplies.

Our commitment to quality and safety is certified by TUV Nord, with industry-leading certifications:

- **ISO 9001:2015** – Quality Management Systems
- **AS 9100D** – Aviation, Space, and Defense Manufacturing
- **ISO 14001:2015** – Environmental Management Systems
- **ISO 45001:2018** – Occupational Health & Safety

Visit our booth at Bauma India 2024 to explore our capabilities, discuss how SPC can add value to your projects, and discover why we are the trusted choice for precision-engineered solutions across industries.

457, GIDC, Por Ramangamdi
Vadodara - 391243, Gujarat, India
Email: Ganesh.raman@simem.com
Website: www.simem.com

COMPANY PROFILE

SIMEM Group is revolutionizing the concrete industry in India by introducing advanced innovations in batching, mixing, and precasting, drawing from its success in major global infrastructure projects such as the Panama Canal expansion, the Brenner and Torino-Lyon tunnels, and record-setting hydropower initiatives.

In partnership with RCC Conveyors, SIMEM aims to elevate service offerings for large civil construction contractors by integrating expertise in batching and conveyor systems. This strategic collaboration will facilitate a broad spectrum of concrete solutions, catering to urban development projects as well as extensive infrastructure works like dams and bridges. SIMEM's remarkable achievements include the delivery of 5 million cubic meters of concrete for the Panama Canal, a monumental feat that showcases their expertise in large-scale projects. Additionally, SIMEM holds the Guinness World Record for the largest single-day concrete pour, achieving an impressive 23,200 cubic meters for a dam in Ethiopia. They also set the record for the largest monthly concrete pour, with a staggering 361,333 cubic meters at the Nam Theun Dam in Laos. These milestones underscore SIMEM's leadership in the concrete industry and its commitment to excellence in infrastructural development.

With cutting-edge technologies for concrete placement and high-output plants capable of producing up to 1,400 m³/hour, SIMEM is set to redefine standards of reliability and performance for India's most ambitious civil projects. Their comprehensive offerings also emphasize eco-friendly concrete and advanced recycling systems, promoting sustainable construction practices that align with global environmental standards.

Gurugram - 122002, Haryana, India
Email: saikat.prabhakar@symx.ai
Website: symx.ai/

COMPANY PROFILE

SYMx.AI (formerly Symboticware) is a mining technology and AI company that transforms the industry with innovative, data-driven solutions tailored to optimize operations for greater productivity, efficiency and sustainability. Our product suite comprises three standout platforms designed to enhance efficiency and performance in the mining sector:

- **X.Machines:** An advanced Asset Performance Management platform. X.Machines provides real-time insights into asset health and performance, allowing mining operations to reduce downtime, increase output, and optimize fuel consumption.
- **X.Parts:** A predictive maintenance and parts management solution powered by AI. By analyzing equipment and maintenance data, X.Parts predicts part failures, helps optimize inventory, and ensures critical components are always on hand, minimizing costly disruptions.
- **X.Connect:** A robust Internet of Things and mesh WiFi platform that connects your mining operations with the global network. X.Connect enables real-time data collection from all assets and devices across the site, ensuring smooth data flow and improved decision-making.

Each of these products plays a key role in enhancing operational efficiency, minimizing downtime, and creating more sustainable mining practices. The expected impact is a 9% reduction in fuel consumption, a 14% reduction in maintenance costs, and a 50% reduction in unscheduled downtime.

COMPANY PROFILE

A joint venture between Tata Motors Limited (40%) and Hitachi Construction Machinery Company Limited(60%), Tata Hitachi provides world class construction equipment to address India's infrastructure and mining needs.

Focused on developing global products to suit Indian working conditions, the organization's product lineup includes a wide range of excavators: from 2T – 800T Excavators, Backhoe Loaders, Wheel Loaders and 35T – 290T Rigid Dump Trucks. Tata Hitachi has two plants at Dharwad – Karnataka and Kharagpur –West Bengal. The plants epitomize world class manufacturing and state-of-the-art-technology.

Our comprehensive range of support solutions such as Full Maintenance Contracts, Annual Maintenance Contracts, Extended Warranty, maximize the returns of the customer's investment by optimizing equipment utilization. It also helps strengthen our relationship through the customer life cycle experience.

At Tata Hitachi, we prioritize our outreach to customers through a strong distribution network that aids in the servicing and selling of products. Our vast network includes a marketing head office, regional offices, branch offices and dealerships spread across the length and breadth of the country. Our dealers are our extended arms – our face to our customers.

We are also now in the Used Equipment market with the Value+ and Premium Used range of certified used equipment so that customers have access to good quality equipment that adds value to their business. We have also launched our Re-Man center at Kharagpur where we offer a selection of options for re manufactured components that provide added value to our customers at a price advantage over new components.

1ST FLOOR NIRMAN BHAVAN, SURVEY NO 127/1, GAJJAR HALL,
OPP LAW GARDANELLISBRIDGE,
Ahmedabad - 380006, Gujarat, India
Email: gcagovcont@gmail.com
Website: www.gcaindia.co.in

COMPANY PROFILE

In 1959, The formation of Gujarat Contractors Association took its final shape at AHMEDABAD (Gujarat). It is also now registered as a Charitable Trust & society with Charity Commissioner of Ahmedabad with No. F/11807/Ahmedabad. During this long period of 64 years, we have created huge assets in the state, such as roads, buildings, dams, bridges, canals, sports-stadiums, industrial plants, attracting huge investments and vast expansion of construction activities.

Construction as a business started getting recognition only in the early period of 20th century. Prior to that it was supposed to be jobs left to mason or carpenters to carry out house building and other civil works, gradually the scenario changed dramatically in the last 20 years. Simultaneously the complexity of processing and publishing of tenders, Evaluation and award of contract as well as billing and payments process also increased. But right in time and idea of formation of Gujarat Association mooted, materialized and founded. The recognition of our Gujarat Contractors Association as the representative body of contracting fraternity by Govt. of Gujarat and its various Boards, Nigams was a matter of proud for all of us. This was in the Year 1965. This made easy way for the Association for official representation on various issues. As the activities of the Association increased, more and more contractors registered as the members of Association, from all parts of Gujarat and some from other states also.

All the members of Our Association Contributed : by way of devoting time, supporting and funding activities, our members always rose together-stood together to fight for justice. Our Association is THANKFULL TO YOU ALL.

During this period Builders' Association of India is having its head quarter at Mumbai. It has 93 centres all over India. The BAI is more visible in tackling the contractor's issues at Central Government. Department authorities and national level institutions and NGOs. Our Gujarat Contractors Association has become a life time member of builders Association of India in its affiliated category. Since then we are working together as a team with BAI.

TJK MACHINERY INDIA PVT. LTD. was formed with an aim to be the leading solution provider of concrete steel reinforcement machinery and plants in the Country. The Infra boom and dynamics in India are changing and similar to what China witnessed. With this experience of over two decades, a comprehensive product range, and a customer-oriented approach, TJK now is on the path to establish itself as a reliable and innovative provider of solutions to customers in INDIA.

TJK Intelligent Equipment Manufacturing (Tianjin) Co., Ltd. is a leading manufacturer of concrete steel reinforcement machinery and plants. With a history dating back to its establishment in 2002, the company has accumulated 22 years of experience and expertise in the industry. It initially gained recognition as the top company in China for wire processing and electrode welding equipment. Over the years, TJK has closely followed the evolving European and global markets, adapting to changing demands and technological advancements. As a result, the company has developed a comprehensive range of equipment, including cut and bend machinery, as well as full production lines. This extensive product line allows TJK to cater to various customer needs and requirements.

TJK prides itself in providing wholehearted and straightforward customer service, placing a strong emphasis on customer satisfaction. The company strives to offer customized solutions tailored to the specific requirements of each customer. TJK's commitment to serving customers with simplicity sets it apart in the industry.

In 2020, TJK took a significant step towards expanding its activities by becoming a publicly listed company on the Shenzhen Stock Exchange (stock code 300823). This strategic move demonstrates TJK's ambition and highlights its commitment to growth and innovation. Operating in over 120 countries and regions, TJK maintains a global presence. The company's approach to innovation is customer-centric, with a focus on understanding and addressing customer needs. TJK continuously strives to provide flexible, suitable, and competitive solutions to its customers. Moreover, the company takes pride in its ability to deliver these solutions in record time, emphasising efficiency and timely service.

COMPANY PROFILE**About Volvo CE India**

Volvo Construction Equipment (Volvo CE) is a leading international company specializing in the development, manufacturing, and marketing of construction equipment. Driven by passion, curiosity, and our overarching purpose—to build the world we want to live in—we have earned a trusted position as a leader in the industry.

Beyond offering a diverse product range, we provide efficient global service and a suite of modern customer solutions. With a heritage spanning over decades, Volvo CE is recognized for its unwavering commitment to innovation, sustainability, and superior quality. Central to our vision is a commitment to a more sustainable future in the construction equipment industry. We lead with cutting-edge technologies and innovative machines, emphasizing heightened productivity, efficiency, reduced carbon footprint, and a safer work environment.

Volvo CE India products are supported by a nationwide dealer network, ensuring round-the-clock spares and support. Our dedicated aftermarket teams offer advice on various Volvo services to help maximize returns on investment. Backed by a team of professionals, a comprehensive product range, a global network, and a steadfast commitment to a greener future, we are positioned to empower our customers to Build a Better Tomorrow.

Email: sales@wandfluh.com
Website: www.wandfluh.com

COMPANY PROFILE

In Zeiten sich ständig ändernder technischer, ökonomischer und ökologischer Anforderungen sind innovative Produkte und immer kürzere Entwicklungs- und Lieferzeiten gefragt. Dies gilt auch im Bereich der Hydraulik, sowohl für Ventile als auch für Systeme. Um diesen Herausforderungen gerecht zu werden, setzen wir auf eine hohe Fertigungstiefe, moderne Infrastruktur und Prozesse sowie gut ausgebildetes Personal. So können wir den steigenden Anforderungen unserer Kunden an Leistung und Qualität gerecht werden. Und es gibt uns auch die Flexibilität bei kundenspezifischen Produktmodifikationen, die den Weg für noch innovativere und effizientere Hydrauliksysteme ebnen. Denn wir sind davon überzeugt, dass das volle Potenzial heutiger Technologien nur in der engen Zusammenarbeit mit den Kunden ausgeschöpft werden kann. Davon profitieren sowohl die Kunden als auch die Anwender.

Zusammen mit unserem weltweiten Netzwerk von hochqualifizierten und motivierten Hydraulikspezialisten freuen wir uns darauf, Sie bei Ihren aktuellen und zukünftigen Herausforderungen im Bereich der Hydraulik zu unterstützen.

ZENITH INDUSTRIAL RUBBER PRODUCTS PRIVATE LIMITED

H11.Q55

Free Press House, Nariman Point
Mumbai - 400021, Maharashtra, India
Email: siddharth.s@zenithrubber.com
Website: zenithrubber.com

COMPANY PROFILE

Zenith Rubber has been at the forefront of manufacturing industrial rubber products since 1965.

Zenith Industrial Rubber Products Private Limited, has been a leading manufacturer and exporter of high-quality industrial rubber sheeting products since its establishment in 1965. Over the years, Zenith has achieved remarkable success in the global market and has become recognized as a trusted supplier.

With a strong focus on delivering excellence, Zenith offers a diverse range of products including wear-resistant rubber sheets, antiskid flooring, waterproofing membranes, coated fabrics, rubber inflatables, rubber moulded and extruded profiles. These offerings showcase the company's expertise and commitment to providing solutions that meet the varied needs of customers.

Zenith's dedication to quality and compliance is evident through its status as a government-recognized export house. This recognition highlights the company's commitment to upholding industry standards and ensuring customer satisfaction.

Supported by advanced infrastructure, Zenith boasts an impressive production capacity with 4 Intermix, 4 calendar, 30 Rotocure lines and 8 press lines. This infrastructure investment allows the company to meet the demands of the market effectively and efficiently.

With an installed capacity of 90 tons of rubber compound per day, Zenith continues to strengthen its position in both domestic and international markets. Through its extensive experience, leadership, and dedication to quality, Zenith has earned a reputation as a reliable and trusted provider in the industrial rubber sheet manufacturing industry.

COMPANY PROFILE

Welcome to ZNL Bearings, where craftsmanship meets innovation. Located in Gujarat, India, our manufacturing facility was established in 1996, but our legacy of expertise extends over three decades. At ZNL Bearings, we consider ourselves more than just a company; we represent a harmonious blend of engineering excellence and global outreach. With a strong presence in over 45 countries, we have earned the trust and admiration of discerning customers worldwide.

Our remarkable ability to engineer a diverse range of bearings to the highest quality standards reflects our relentless pursuit of excellence. We have achieved significant milestones in the international bearing market with unwavering determination. Every aspect of our operations embodies sophistication and precision. We view challenges as opportunities for innovation, continually expanding the boundaries of what is possible in bearing manufacturing.

Choose ZNL Bearings for a transformative partnership that exceeds your expectations. We are committed to elevating your vision with our world-class bearings. Welcome to the future of bearing excellence—welcome to ZNL.

We are certified ISO/TS16949 by TÜV Rheinland for designing and manufacturing more than 2,500 bearings sizes. We have also implemented S.A.P. for effective manufacturing. Our credentials include registrations with SAIL, TNEB, GEB, ASRTU, and MECON Limited. We have made breakthroughs with BHEL and ONGC and introduced the “RABBIT” automatic production line for Ball Bearing and Roller Bearing Ring Grinding, as well as the “R&S” automatic assembly line for Ball Bearing and Taper Roller Bearing. Additionally, we are an approved vendor listed in the Eastern Railway vendor directory.

Our website, sudarshancadd.com, showcases our range of services tailored to support industries such as Architectural, Construction, Fabricators, EPC companies, Oil and Gas, Processing Plants and Manufacturing industry.

We are committed to enhancing project outcomes by offering precise, scalable, and cost-effective solutions, from conceptual design to construction documentation.

At Sudarshan CADD, we combine technical precision with a commitment to enhancing project efficiency, accuracy, and visualization through state-of-the-art technology. Whether it's residential, commercial, or industrial projects, our goal is to empower our clients to achieve excellence at every project stage.

Partnering with us means benefiting from streamlined workflows, improved project visualization, and reduced rework, enabling clients to save time and resources while achieving optimal results.

XRG CONSULTING PRIVATE LIMITED

H1.U46

302,3rd Floor, 705, Road.No.36, Jubilee Hills, Hyderabad

Hyderabad - 500033, Telangana, India

EPC World
Engineering Projects Construction
Extensive Coverage Obsessive Readership

INFRASTRUCTURE & CONSTRUCTION MAGAZINE

- ❖ The Most Authoritative & Credible Voice For EPC, Construction & Infrastructure industry
- ❖ Delivered to top executives, owners and industry professionals globally, nationally and regionally through its extensive network of print, digital and event media
- ❖ CIDC Vishwakarma Award winning content expanding paid circulation and readership
- ❖ Most powerful and significant brand serving and connecting leading industry associations and research firms

General Information

Plan of the halls with exhibitors

Exhibitor Profiles

4

Product Index
List of exhibitors by product categories

List of exhibitors by country / region

A

Aggregates for the concrete and mortar processing	1.7.12
Attachments earth-moving machines	4.2.2
Attachments for construction vehicles	4.2.1
Autoclaves	3.5.4
Automation	4.4.3
Axles	4.1.4

B

Batteries	4.1.14
Bin equipment	2.2.2
Bins	2.3.10
Blasting equipment	2.1.16
Body assemblies and trailers	1.1.6
Bolt cutters	1.6.13
Bottle hoists, electrical lifts	1.5.7
Brake and clutch linings	4.2.19
Brakes	4.1.8
Briquetting plants	2.3.7
Brushes, technical	4.2.13
Bulldozers and graders	1.2.6

C

Cable laying machines	1.4.1
Cable sanitation and renovation	1.4.3
Canal maintenance equipment	1.6.17
Canal sheeting equipment	1.6.16
Cardan shafts	4.1.5
Central lubrication systems, lubricants	4.2.22
Clothing	4.6.4
Coking plants	2.3.14
Complete processing plant	2.3.1
Compressed air tools	1.6.4
Compressors	1.6.15
Concrete and mortar buckets	1.9.10
Concrete compaction	1.7.10
Concrete guns	1.7.6
Concrete injectors	1.7.7
Concrete pumps	1.7.1
Concrete removing and rust-protection agents	1.9.9
Concrete vibrator	1.7.13
Construction site fences	1.9.13
Construction site lighting	1.9.12

Construction waste chutes	1.9.15
Consulting / engineering	4.3.6
Continuous conveying	2.2.1
Contractors' air heaters	1.9.5
Control and process control engineering	3.6.6
Cookers	3.3.3
Coolers	4.2.24
Coolers	3.1.6
Coupling	4.1.7
Cranes	1.5.1
Crushers	2.3.2

D

Dedusting	4.6.5
Dedusting units	2.3.12
Dewatering	2.1.13
Dewatering units	2.3.6
Distributor booms for concrete pumps	1.7.2
Drilling equipment and systems	1.2.7
Driver seats	4.2.15
Drivers' cabs	4.2.14
Dryers for sand and gravel	2.3.11
Dumper trucks	1.1.1

E

EDP hardware and software for fleet management	4.3.5
Electrical drive, control and process control engineering	4.1.18
Electrical tools	1.6.6
Electricity equipment for vehicles	4.1.15
Engine exhaust gas purifiers	4.2.29
Equipment and accessories	4.1.17
Equipment and accessories, other	4.2.30
Equipment and tools for reinforcing steel processing	1.6.2
Equipment rental companies	4.3.3
Excavator-loaders	1.2.3
Excavators	1.2.2
Exploration drilling	2.1.2
Explosion protection equipment's	4.2.28

F

Facilities for lowering groundwater	2.1.6
Filters for motors/engines	4.2.20
Financing / leasing / insurance companies	4.3.4

Fire extinguisher systems	4.2.27
Forklifts	1.5.9
Formwork accessories	1.8.7
Formwork cleaning, repair and regeneration	1.8.5
Formwork plates	1.8.4
Formwork systems for bridge building	1.8.2
Formwork systems for civil engineering	1.8.1
Formwork systems for tunnel construction	1.8.3
Frequency and current transformers	4.1.13

G

Garbage compactors	1.6.19
Gaskets	4.2.21
Gear units	4.1.3
Gearwheels	4.1.2
Goods technology and operation, monitoring, documentation and evaluation	4.5.2
Granulation machines	2.3.9
Ground water lowering systems, construction pumps	1.6.3

H

Hangars, mobile and stationary	1.9.4
Heading (also for tunneling)	2.1.3
Heaters, coolers, etc.	4.2.16
High-pressure and steam cleaners	1.6.10
Hoists and winches	1.5.6
Hybrid drive	4.1.19
Hydraulic drive, control and process control engineering	4.1.9
Hydraulic hoses	4.2.7
Hydraulic tools	1.6.5

J

Joint cutters	1.6.8
---------------	-------

L

Laser cutting systems	1.6.9
Lift trucks	1.5.10
Lifting technology, others	1.5.11
Lime sandstone presses	3.5.3
Linings for crushers, mills, etc.	4.2.10
Loaders	1.2.4
Loading rails	1.9.11
Longwall mining	2.1.9

M

Machinery and plant for the cement industry	3.1.1
Machinery and plant for the gypsum industry	3.1.2
Machinery and plant for the lime industry	3.1.3
Machines and plants for producing concrete blocks and plates	3.2.2
Machines and plants for producing fresh concrete	3.2.1
Machines and plants for working reinforced concrete	3.2.6
Machines and systems for producing gypsum and gypsum plasterboard	3.1.8
Machines for tunnel construction / Tunneling machines	1.2.1
Marine mining	2.1.15
Mast climbing platforms	1.5.5
Measuring, steering, controlling (software, sensor technology, recording, documentation and evaluation)	4.4.1
Mechanical conveyor systems (conveying worms, band conveyors, conveyor belts, vibration machines)	3.6.1
Metering and weighing equipment	3.6.4
Mills	2.3.3
Mixing plants / mixers	3.1.7
Mixing plants / mixers	3.3.2
Mixing plants / mixers	3.4.2
Mixing plants / mixers	3.5.2
Mobile gas stations	1.9.14
Mobile toilet units	1.9.3
Mortar pumps	1.7.5
Motor caravans, job site and office caravans	1.9.2
Motors and engines	4.1.1

N

Navigation equipment	4.5.4
Noise-protection systems	4.2.23

O

Open cast mining, extraction	2.1.14
Other power distribution elements and lighting	4.1.16
Others trucks and commercial vehicles	1.1.7
Ovens, cookers, autoclaves	3.1.4

P

Packaging systems and accessories	3.6.5
Palletising machines	2.3.8
Paving stone placing machines	1.3.8
Petrol-driven drills	1.6.7

Pile drivers and pulling tools	1.2.8
Pipeline and cable detectors	1.4.2
Plant engineering for lightweight building blocks	3.2.5
Plant engineering for piping and shaft construction	3.2.3
Plant engineering for producing pre-fabricated concrete parts	3.2.4
Plate vibrators	1.3.2
Pneumatic conveyor systems	3.6.2
Pneumatic conveyors	1.7.4
Pneumatic drive, control and process control engineering	4.1.10
Portakabins	1.9.1
Power distributors	1.9.6
Power generation units, mobile	4.1.12
Power generation units, stationary	4.1.11
Professional associations / organizations	4.3.2
Protective ventilation and air-conditioning systems	4.2.25
Public agencies, business and professional associations, other organizations	4.3.8
Pulverizing calcination plants	3.1.5
Pumps	2.1.7

R

Remote control technique and data transmission	4.5.1
Remote radio controls	4.2.26
Rendering machines	1.7.9
Rescue equipment	4.6.2
Research and advice	4.3.7
Respiratory equipment	4.6.1
Road sweepers	1.1.5
Rollers	1.3.1
Roof for roadways supports	2.1.5
Room and pillar and vein mining (also tunneling)	2.1.10
Ropes, reels, chains, etc.	4.2.9
Round shaft chisels and similar tools	4.2.6
Rubber/metal connectors	4.2.3

S

Safety nets and belts	1.9.8
Sand and shot blasting cleaners	1.6.11
Scaffolding	1.8.8
Scrapers	1.2.5
Scrapers for gravel extraction	2.1.8
Screen decks	4.2.11
Screening machines	2.3.4
Semitrailer trucks	1.1.3
Shaft sinking	2.1.1

Shaft support	2.1.4
Signal and locking systems for construction sites	1.9.7
Site hoists	1.5.2
Software systems for formwork planning	1.8.6
Soil stabilizers	1.3.4
Sorting equipment	2.3.5
Special machines for road construction, maintenance and repair	1.3.5
Special tires	4.2.17
Steel material	4.2.31
Steering mechanisms	4.1.6
Stockyard systems	2.2.3
Stone processing equipment	1.6.1
Stowing	2.1.12
Surveying/measuring technology for mining	2.1.17
Surveyor's equipment	1.6.12
Systems for the bitumen production	3.3.4

T

Tampers	1.3.3
Teeth and cutting strips	4.2.5
Telephones, radio systems, intercom systems and signal systems	4.5.3
Telescopic conveyor belts (self propelling)	1.7.11
Testing equipment	4.6.3
Testing facilities	4.4.2
Tire chains and anti-skid chains	4.2.18
Track-laying chassis	4.2.4
Track-laying machines	1.3.6
Tractors	1.1.2
Trade publishers, trade literature, films and photographic documentation	4.3.1
Transport and storage systems	3.6.3
Transport platforms	1.5.3
Truck carriages for special body assemblies	1.1.4
Truck mixers	1.7.3
Tubes and hoses for concrete pumps, mortar pumps and pneumatic conveyors	4.2.8
Turnkey mixing systems	3.3.1
Turnkey systems	3.4.1
Turnkey systems	3.5.1

V

Vacuum lift systems	1.5.8
Ventilation and air-conditioning	2.1.11
Vulcanization equipment and materials	4.2.12

W

Wall trenching cutters	1.3.7
Waste concrete recycling, residual concrete washing systems	1.7.8
Water treatment systems	2.3.13
Welding sets and accessories	1.6.14
Wheelbarrows and construction ladders	1.6.18
Working platforms	1.5.4

1 All Around Construction Sites

1.1 Construction vehicles

- 1.1.1 Dumper trucks
- 1.1.2 Tractors
- 1.1.3 Semitrailer trucks
- 1.1.4 Truck carriages for special body assemblies
- 1.1.5 Road sweepers
- 1.1.6 Body assemblies and trailers
- 1.1.7 Others trucks and commercial vehicles

1.2 Earth-moving machines

- 1.2.1 Machines for tunnel construction / Tunneling machines
- 1.2.2 Excavators
- 1.2.3 Excavator-loaders
- 1.2.4 Loaders
- 1.2.5 Scrapers
- 1.2.6 Bulldozers and graders
- 1.2.7 Drilling equipment and systems
- 1.2.8 Pile drivers and pulling tools

1.3 Road Construction and Maintenance Equipment

- 1.3.1 Rollers
- 1.3.2 Plate vibrators
- 1.3.3 Tampers
- 1.3.4 Soil stabilizers
- 1.3.5 Special machines for road construction, maintenance and repair
- 1.3.6 Track-laying machines
- 1.3.7 Wall trenching cutters
- 1.3.8 Paving stone placing machines

1.4 Pipe & Cable Laying Equipment & Tools

- 1.4.1 Cable laying machines
- 1.4.2 Pipeline and cable detectors
- 1.4.3 Cable sanitation and renovation

1.5 Lifting appliances and conveyors

- 1.5.1 Cranes
- 1.5.2 Site hoists
- 1.5.3 Transport platforms
- 1.5.4 Working platforms
- 1.5.5 Mast climbing platforms
- 1.5.6 Hoists and winches

- 1.5.7 Bottle hoists, electrical lifts
- 1.5.8 Vacuum lift systems
- 1.5.9 Forklifts
- 1.5.10 Lift trucks
- 1.5.11 Lifting technology, others

1.6 Construction equipment, tools and special systems

- 1.6.1 Stone processing equipment
- 1.6.2 Equipment and tools for reinforcing steel processing
- 1.6.3 Ground water lowering systems, construction pumps
- 1.6.4 Compressed air tools
- 1.6.5 Hydraulic tools
- 1.6.6 Electrical tools
- 1.6.7 Petrol-driven drills
- 1.6.8 Joint cutters
- 1.6.9 Laser cutting systems
- 1.6.10 High-pressure and steam cleaners
- 1.6.11 Sand and shot blasting cleaners
- 1.6.12 Surveyor's equipment
- 1.6.13 Bolt cutters
- 1.6.14 Welding sets and accessories
- 1.6.15 Compressors
- 1.6.16 Canal sheeting equipment
- 1.6.17 Canal maintenance equipment
- 1.6.18 Wheelbarrows and construction ladders
- 1.6.19 Garbage compactors

1.7 Handling and processing concrete and mortar at construction sites

- 1.7.1 Concrete pumps
- 1.7.2 Distributer booms for concrete pumps
- 1.7.3 Truck mixers
- 1.7.4 Pneumatic conveyors
- 1.7.5 Mortar pumps
- 1.7.6 Concrete guns
- 1.7.7 Concrete injectors
- 1.7.8 Waste concrete recycling, residual concrete washing systems
- 1.7.9 Rendering machines
- 1.7.10 Concrete compaction
- 1.7.11 Telescopic conveyor belts (self propelling)
- 1.7.12 Aggregates for the concrete and mortar processing
- 1.7.13 Concrete vibrator

1.8 Formwork and scaffoldings

- 1.8.1 Formwork systems for civil engineering

- 1.8.2 Formwork systems for bridge building
- 1.8.3 Formwork systems for tunnel construction
- 1.8.4 Formwork plates
- 1.8.5 Formwork cleaning, repair and regeneration
- 1.8.6 Software systems for formwork planning
- 1.8.7 Formwork accessories
- 1.8.8 Scaffolding

1.9 Site installations

- 1.9.1 Portakabins
- 1.9.2 Motor caravans, job site and office caravans
- 1.9.3 Mobile toilet units
- 1.9.4 Hangars, mobile and stationary
- 1.9.5 Contractors' air heaters
- 1.9.6 Power distributors
- 1.9.7 Signal and locking systems for construction sites
- 1.9.8 Safety nets and belts
- 1.9.9 Concrete removing and rust-protection agents
- 1.9.10 Concrete and mortar buckets
- 1.9.11 Loading rails
- 1.9.12 Construction site lighting
- 1.9.13 Construction site fences
- 1.9.14 Mobile gas stations
- 1.9.15 Construction waste chutes

2 Mining, Extraction and Processing of Raw Materials

2.1 Machines for extraction of raw materials and for mining

- 2.1.1 Shaft sinking
- 2.1.2 Exploration drilling
- 2.1.3 Heading (also for tunneling)
- 2.1.4 Shaft support
- 2.1.5 Roof for roadways supports
- 2.1.6 Facilities for lowering groundwater
- 2.1.7 Pumps
- 2.1.8 Scrapers for gravel extraction
- 2.1.9 Longwall mining
- 2.1.10 Room and pillar and vein mining (also tunneling)
- 2.1.11 Ventilation and air-conditioning
- 2.1.12 Stowing
- 2.1.13 Dewatering
- 2.1.14 Open cast mining, extraction
- 2.1.15 Marine mining

- 2.1.16 Blasting equipment
- 2.1.17 Surveying/measuring technology for mining

2.2 Handling of raw materials

- 2.2.1 Continuous conveying
- 2.2.2 Bin equipment
- 2.2.3 Stockyard systems

2.3 Mineral processing (incl. coke oven equipment)

- 2.3.1 Complete processing plant
- 2.3.2 Crushers
- 2.3.3 Mills
- 2.3.4 Screening machines
- 2.3.5 Sorting equipment
- 2.3.6 Dewatering units
- 2.3.7 Briquetting plants
- 2.3.8 Palletising machines
- 2.3.9 Granulation machines
- 2.3.10 Bins
- 2.3.11 Dryers for sand and gravel
- 2.3.12 Dedusting units
- 2.3.13 Water treatment systems
- 2.3.14 Coking plants

3 Production of Building Materials

3.1 Manufacture of cement, lime and gypsum compounds for building materials

- 3.1.1 Machinery and plant for the cement industry
- 3.1.2 Machinery and plant for the gypsum industry
- 3.1.3 Machinery and plant for the lime industry
- 3.1.4 Ovens, cookers, autoclaves
- 3.1.5 Pulverizing calcination plants
- 3.1.6 Coolers
- 3.1.7 Mixing plants / mixers
- 3.1.8 Machines and systems for producing gypsum and gypsum plasterboard

3.2 Machines and systems for producing concrete, concrete products and pre-fabricated components

- 3.2.1 Machines and plants for producing fresh concrete
- 3.2.2 Machines and plants for producing concrete blocks and plates
- 3.2.3 Plant engineering for piping and shaft construction
- 3.2.4 Plant engineering for producing pre-fabricated concrete parts

- 3.2.5 Plant engineering for lightweight building blocks
- 3.2.6 Machines and plants for working reinforced concrete

3.3 Machines and plants for producing asphalt

- 3.3.1 Turnkey mixing systems
- 3.3.2 Mixing plants / mixers
- 3.3.3 Cookers
- 3.3.4 Systems for the bitumen production

3.4 Machines and plants for producing pre-mixed dry mortar, plaster, screed and building supply store products

- 3.4.1 Turnkey systems
- 3.4.2 Mixing plants / mixers

3.5 Machines and plants for producing lime sandstone and building products using power plant residue (fly ash, slag, etc.)

- 3.5.1 Turnkey systems
- 3.5.2 Mixing plants / mixers
- 3.5.3 Lime sandstone presses
- 3.5.4 Autoclaves

3.6 Building material handling and packaging (in a plant)

- 3.6.1 Mechanical conveyor systems (conveying worms, band conveyors, conveyor belts, vibration machines)
- 3.6.2 Pneumatic conveyor systems
- 3.6.3 Transport and storage systems
- 3.6.4 Metering and weighing equipment
- 3.6.5 Packaging systems and accessories
- 3.6.6 Control and process control engineering

4 Compo3ice Suppliers

4.1 Transmission engineering, fluid technology and power generation units

- 4.1.1 Motors and engines
- 4.1.2 Gearwheels
- 4.1.3 Gear units
- 4.1.4 Axles
- 4.1.5 Cardan shafts
- 4.1.6 Steering mechanisms
- 4.1.7 Coupling
- 4.1.8 Brakes
- 4.1.9 Hydraulic drive, control and process control engineering

- 4.1.10 Pneumatic drive, control and process control engineering
- 4.1.11 Power generation units, stationary
- 4.1.12 Power generation units, mobile
- 4.1.13 Frequency and current transformers
- 4.1.14 Batteries
- 4.1.15 Electricity equipment for vehicles
- 4.1.16 Other power distribution elements and lighting
- 4.1.17 Equipment and accessories
- 4.1.18 Electrical drive, control and process control engineering
- 4.1.19 Hybrid drive

4.2 Attachments, Accessories and wear parts

- 4.2.1 Attachments for construction vehicles
- 4.2.2 Attachments earth-moving machines
- 4.2.3 Rubber/metal connectors
- 4.2.4 Track-laying chassis
- 4.2.5 Teeth and cutting strips
- 4.2.6 Round shaft chisels and similar tools
- 4.2.7 Hydraulic hoses
- 4.2.8 Tubes and hoses for concrete pumps, mortar pumps and pneumatic conveyors
- 4.2.9 Ropes, reels, chains, etc.
- 4.2.10 Linings for crushers, mills, etc.
- 4.2.11 Screen decks
- 4.2.12 Vulcanization equipment and materials
- 4.2.13 Brushes, technical
- 4.2.14 Drivers' cabs
- 4.2.15 Driver seats
- 4.2.16 Heaters, coolers, etc.
- 4.2.17 Special tires
- 4.2.18 Tire chains and anti-skid chains
- 4.2.19 Brake and clutch linings
- 4.2.20 Filters for motors/engines
- 4.2.21 Gaskets
- 4.2.22 Central lubrication systems, lubricants
- 4.2.23 Noise-protection systems
- 4.2.24 Coolers
- 4.2.25 Protective ventilation and air-conditioning systems
- 4.2.26 Remote radio controls
- 4.2.27 Fire extinguisher systems
- 4.2.28 Explosion protection equipment's
- 4.2.29 Engine exhaust gas purifiers
- 4.2.30 Equipment and accessories, other
- 4.2.31 Steel Material

4.3 Services

- 4.3.1 Trade publishers, trade literature, films and photographic documentation
- 4.3.2 Professional associations / organizations
- 4.3.3 Equipment rental companies
- 4.3.4 Financing / leasing / insurance companies
- 4.3.5 EDP hardware and software for fleet management
- 4.3.6 Consulting / engineering
- 4.3.7 Research and advice
- 4.3.8 Public agencies, business and professional associations, other organizations

4.4 Test, measurement and process control engineering

- 4.4.1 Measuring, steering, controlling (software, sensor technology, recording, documentation and evaluation)
- 4.4.2 Testing facilities
- 4.4.3 Automation

4.5 Communication and navigation

- 4.5.1 Remote control technique and data transmission
- 4.5.2 Goods technology and operation, monitoring, documentation and evaluation
- 4.5.3 Telephones, radio systems, intercom systems and signal systems
- 4.5.4 Navigation equipment

4.6 Job safety

- 4.6.1 Respiratory Equipment
- 4.6.2 Rescue equipment
- 4.6.3 Testing equipment
- 4.6.4 Clothing
- 4.6.5 Dedusting

A Complete Construction & Engineering Magazine

PROJECTS MIRROR

An Unique Platform Geared for Brand Promotion

Covering Projects in Sectors: Roads & Bridges, Mining ,
Power ,Water, Manufacturing, Oil & Gas,Irrigation ,Transport Infrastructure,
Commercial Infrastructure

Readership: 2,00,000 Plus & reaching to all Decision Makers
like MD, Directors ,Project Managers, Procurement Managers,
Product Managers from Project Promoters, EPC Companies,
Process Industries,Contractors & consultants ,PSU's, Banks &
Financial Institutions, Architects , Builders & Developers

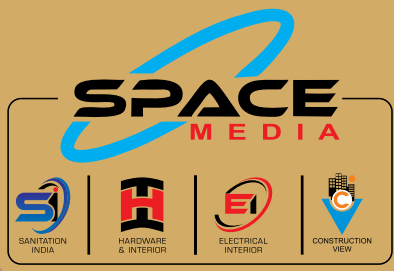

Contact Us: info.projectsmirror@gmail.com

to get BUSINESS OPPORTUNITIES...

Use Net Banking, Mobile and other Digital platforms to limit human contact

"SPACE MEDIA PUBLICATION" Has Gained Immense Expertise in Offering Magazines, Printing of Magazine Like "SANITATION INDIA"(Since 2005) "HARDWARE & INTERIOR"(Since 2015) & "ELECTRICAL INTERIOR "(Since 2018) & "CONSTRUCTION VIEW" (Since 2021) in Indian Market. And this Magazine is Being Distributed all over India to Manufacturers, Wholesalers, Distributors, Dealers, Architects, Builders, Interior Designer, Govt. Department, Libraries Book Stalls etc.

"SANITATION INDIA MAGAZINE" Cover the Manufacturing of Bathroom Fittings, Sanitary ware, Kitchen Accessories, Glass ware Total Piping Solution and Ceramic Tiles.

"HARDWARE & INTERIOR MAGAZINE" Cover the Mfrs of Door Handles, Cabinet Handle, Digital Locks, Drawer Channel, Tower Bolt, Kitchen Tools. Wire Basket, Exclusive Hardware, Cabinet Handle etc.

"ELECTRICAL INTERIOR MAGAZINE" Cover the Manufacturing of Capacitor, Wire Cables, Transformers Digital Meter, Switch gears, Electrical and Electronic Appliances etc...

"CONSTRUCTION VIEW" A monthly magazine related to the Construction Industry. Distribution: Among the leading Manufacturers, Wholesalers, Distributors, Dealers, Architects, Builders, Interior Designer, Govt. Department, Project Contractors & Consultants, Corporate Houses, EPC Companies, Traders, OEMs, Bank & Financial Institutes, Infrastructure Industries.

A Research driven third party is constantly improving the fortunes of construction equipment industry...and how

Vinni Chemicals with focus on persistent research in Engine Fluids and custom manufacturing for some of the most prominent OEMs in India, has been instrumental in upscaling profitability for the end user and bonding with the brand of their equipment.

Keeping pace with world initiatives in sustainability and emission control, our products like Performance Enhancing Fuel Additives, Coolants, Greases, Engine Oils and Brake Fluids have redefined benchmarks of excellence, often exceeding industry standards.

Vinni: Partners in Fluid Dynamics

TECHNOLOGY HIGHLIGHTS:

20+ years
in Research

Approvals from
world's top most labs

Partnering OEMs in
Automotive & Petroleum
Industry

Technical Collaborations with
 

VOLUME*

*Per month/Per shift

COOLANTS

1600,000 Litres/month

LUBRICANTS

2800,000 Litres/month

GREASES
