

Press release

Launch of ceramitec 2024

March 15, 2023

- Exhibitors can register now for ceramitec 2024
- Allocation of stand space to begin in mid-September
- ceramitec and analytica to be held simultaneously once again in 2024

Companies interested in ceramitec 2024 can sign up now. The leading international trade fair for the ceramics industry will be held from April 9 – 12, 2024, on the exhibition grounds in Munich and will occupy three halls – A4 to A6 – once again. The East Entrance will serve as the access point.

Early Bird and registration deadline

The Early Bird special will be available for exhibitors through June 30. Companies that sign up by this date will receive vouchers for free one-day tickets to the trade fair. The registration deadline and the subsequent start of stand-space allocation are set for September 15, 2023.

New key topics and new exhibitor directory

ceramitec 2024 will focus on a number of new key topics: “decarbonization,” “hydrogen technology,” “digitalization,” “energy efficiency,” “energy storage,” “green technologies” and “circular economy.” As part of this focus, the nomenclature used in the past will be incorporated into a new, multidimensional exhibitor directory. This will create a better overview of the trade fair’s range of topics and enable new issues to be addressed. With the help of the new directory, visitors will be able to more easily find exhibitors and more systematically prepare their visit.

ceramitec talks

ceramitec will also offer a wide-ranging conference program called “ceramitec talks” that will be held in Halls A4 and A6.

Parallel with analytica

Once again, ceramitec will be organized simultaneously with analytica, the world’s leading trade fair for laboratory technology, analysis and biotechnology that will occupy Halls B1 and B2 as well as A1 to A3. This parallel structure proved to be successful in 2018 and 2022. It also provides exhibitors and visitors of both trade fairs with synergies.

You will find more information online at <https://ceramitec.de>

About ceramitec

ceramitec is the leading trade fair for the ceramics industry. Every branch of the industry is represented, from classic ceramics, raw materials and industrial ceramics to technical ceramics and powder metallurgy. “ceramitec: Technologies · Innovations · Materials” is held every three years. The next edition will be held in Munich from April 9 – 12, 2024.

Messe München

Messe München is one of the leading exhibition organizers worldwide with more than 50 of its own trade shows for capital goods, consumer goods and new technologies. Every year, a total of over 50,000 exhibitors and around three million visitors take part in more than 200 events at the exhibition center in Munich, at the ICM – Internationales Congress Center München, the Conference Center Nord and the MOC Veranstaltungszentrum München as well as abroad. Together with its subsidiary companies, Messe München organizes trade shows in China, India, Brazil, South Africa and Turkey. With a network of associated companies in Europe, Asia, Africa, and South America, and with around 70 representatives abroad for more than 100 countries, Messe München has a truly global presence.
