Halls, general

One-story construction

The maximum construction height is **6 m**. The maximum advertising height (upper edge) is **6 m**.

Two-story construction

The maximum construction height is **7.50 m**. The maximum advertising height (upper edge) is **7.50 m**.

In addition, the maximum construction height (clearance) alongside the hall walls must be observed (see description of halls and outdoor exhibition grounds).

The partition walls facing the neighboring stand must be kept white, neutral, free of installations and clean above a height of **2.50 m**, in Hall A1 and B1 **3.50 m**. Messe München GmbH supplies partition walls only at the request and expense of the exhibitor. Partition walls or additional cabin walls (height **2.50 m**, in Hall A1 and B1 **3.50 m**) can be ordered in the Exhibitor Shop. In the case of advertising structures directly facing adjoining stands, there must be a minimum distance of **2 m** to the stand perimeters. Flashing or changing lights must not be used for advertising purposes. The stand design must be adapted to suit the type of rented stand (row, corner, end, island stand), e. g. by partition wall systems. The exhibition stand should also meet the character of the respective trade fair to preserve the visual identity of the event. Messe München GmbH is entitled to demand changes in stand design on this account.

Exhibitors who have booked the turnkey INHORGENTA MUNICH stand package will be sent additional documentation. Apart from the information given in the online application, an order of the INHORGENTA MUNICH stand package in the Exhibitor Shop at inhorgenta.com is required. In cases where no order forms have been received by the due date, Messe München GmbH reserves the right to erect a standard booth construction and charge it to the exhibitor.

Stand construction approval

As a matter of principle, every planner/designer of an exhibition stand is responsible for compliance with public statutory regulations, insofar as applicable to exhibition stands, and compliance with Messe München GmbH's Technical Guidelines as well as the General Terms of Participation.

If items are to be suspended from the hall ceiling, the work involved must be carried out by Messe München GmbH's contractors. The placing of motor vehicles of any kind on the stand area for exhibition or decorative purposes is prohibited and is permissible only in exceptional cases on the prior written consent of the Exhibition Management. Moreover, multi-story stands and special constructions (such as bridges, stairs, cantilever roofs, galleries, etc.) are as a general rule subject to separate approval. Please consult the "Building Regulations" set out in the Exhibitor Shop. **Please note under all circumstances the requirements set out in the Technical Guidelines and the information included in the individual notices.** You will get access to the Exhibitor Shop at inhorgenta.com in good time in order to place your orders for additional stand services.

In addition and amendment of the booth construction regulations set out in the Technical Guidelines, the following provisions apply:

The exhibitor has to take into account the character and appearance of INHORGENTA MUNICH as a premium order show with respect to booth design and furnishings. The booth is to be designed so as to contribute to a high-class overall appearance of INHORGENTA MUNICH. In particular, the following provisions shall apply. The exhibition space is to be fully covered with carpeting or other floor coverings in as-new condition. In Hall A1 and B1, a minimum booth construction height of **3.50 m** is required. Walls and partition walls of which the supports and profiles are visible, are not allowed in Hall A1 and Hall B1. Also fabric coverings may not be used as walls and partition walls in these two halls. On open stand designs, only a raised floor is permitted as floor covering in Hall B1. Moreover, it is mandatory that the partition walls on the closed sides of row, corner and end booths (i. e. on the sides not facing the aisles), are to be in new condition. The booth walls must be painted with dispersion paint or high quality covered. Untreated booth walls are not permitted. The company name and registered office of the exhibitor must be visibly displayed on the booth. No items may be fastened to the outer walls of the booth, in particular no merchandise. If the outer walls are to be used for presentation purposes, this is only permitted in display cases integrated into the booth walls. Glass cabinets positioned at the open sides must be aligned within the booth perimeters. Closed walls of more than **2 m** in length facing open sides of neighboring stands or the main aisles must be broken up with display cases or attractive graphic designs. The booth equipment, in particular the inside walls and furnishings must be as good as new. Insofar as furnishings, e. g. tables and chairs, are to be covered with decorative materials, the material must be of high quality. The booth equipment should maintain a uniform design. Graphic designs and letterings must match this overall design. All merchandise in the booth is to be visibly displayed and not be covered by other goods or objects, completely or in part. In particular, merchandise to be presented may not be stacked, heaped together or mixed with other goods and displayed in boxes, cartons or other containers.

By December 10, 2024, the exhibitor must present to Messe München GmbH's Technical Exhibition Services Division for approval the following documents in duplicate:

- dimensioned booth construction drawings incl. floor plan and elevations on a scale of 1:50
- meaningful, 3-D color views or meaningful color photographs of the full booth
- a written booth construction description, also specifying materials selected, and
- representations of product displays in the booth.

Approval may be tied to conditions if required to comply with regulations under public law or if applicable to exhibition booths or under Messe München GmbH booth construction provisions, which are an integral part of the contract. If approval is denied or if the exhibitor fails to present the requested documents by December 10, 2024, Messe München GmbH is entitled to set up an INHORGENTA MUNICH system stand which matches the respective hall concept, at the expense of the given exhibitor and at the prices valid at the time of the event.

Should the aforementioned documents not be presented to Messe München GmbH's Technical Exhibition Services Division by December 10, 2024, Messe München GmbH is entitled to charge the exhibitor a lump-sum compensation of **EUR 1,000**, unless the exhibitor is not at fault for the delay. Messe München GmbH's right to claim further damages remains unaffected. The exhibitor may demand a reduction in the lump-sum compensation if he proves that Messe München GmbH has incurred less damage.

It is not permitted to show the selling price openly. Under No. 64 GewO (German trade regulation act), it is permissible to sell only to

commercial resellers, commercial consumers and bulk purchasers. In case of substantiated violation, Messe München GmbH is entitled to close down the exhibitor's stand.
