Vehicles may only be parked on the exhibition grounds in the designated areas and only temporarily for the purpose of unloading or loading materials. On completion of loading/unloading, the vehicle must leave the exhibition center immediately; no parking beyond this activity is permitted.

Messe München GmbH reserves the right to remove vehicles, trailers, containers, bins, empties or full loads of any kind parked illegally or in no-stopping zones without prior notification at the expense and risk of the party responsible. Guarding and safekeeping are excluded.

Right of transportation and forwarding

The operation of exhibitor-owned forklift trucks, cranes, high-lift pallet trucks and low-lift trucks with operator platforms is not permitted on the Messe München exhibition grounds. The deposit will be returned on exit and is subject to compliance with the specified deposit period. If the deposit period is exceeded, the deposit will be forfeited. The deposit period is dependent on the respective vehicle class and can be found in the traffic guide.

Special Terms of Participation (B)

The General Terms and Conditions of Participation A and the Technical Guidelines of Messe München GmbH shall apply, insofar as the present Special Terms of Participation do not contain any provisions in derogation thereof.

Cont. B 6 Dates of setting up and dismantling (cf. A 15)

Truck guidance system for long vehicles

For vehicles with an overall length exceeding **8 m**, a time slot must be booked in advance via the online portal specified in the traffic guide for loading or unloading at the times specified in the traffic guide. On site, these vehicles must be registered at check-in before accessing the site, stating the time slot reservation number in order to complete the process.

Rental Spaces for Containers and Exhibits

Parking spaces for containers and exhibits in the loading yards may only be occupied as of 18:00 on the last day of setup. They must be vacated no later than one hour after the end of the trade fair on the last show day. In the event of violation of these provisions, Messe München GmbH is entitled to demand a lump-sum compensation amounting to the respective net rent per space plus VAT for each day on which the rental space was occupied too early or vacated too late.

Last setup day

On the last day of setup, **April 12, 2027**, the time available for stand construction is 07:00 to 18:00.

All delivery and stand-construction vehicles must be removed from the halls, the loading yards around the halls, and the outdoor exhibition area by 18:00. Vehicles which are still in the said areas after this time will be removed by Messe München GmbH at the risk and expense of the respective exhibitor.

Furbishing work and decoration in the exhibitor's own stand space is possible from 18:00 until 20:00. An extension of setup time after 20:00 is only permitted in exceptional cases and subject to a fee. A night work permit must be obtained on site from the security service.

Start of dismantling

Vehicles of stand construction companies and suppliers shall not be admitted before 17:00 on April 15, 2027. If exhibition goods are removed or the stand dismantled before the end of the fair, Messe München GmbH may demand payment of a contractual penalty of **EUR 500** from the exhibitor.

B 7 Stand design and equipment

Stand designs for two-story constructions, for stands larger than **100 m²**, stand structures exceeding **3 m** in height or with a stand covering require prior authorization. Dimensioned drawings including floor plans and elevations on a scale of 1:100 must be submitted digitally in PDF format (not protected) to Messe München GmbH, Technical Exhibition Services Division for approval no later than 6 weeks before setup begins.

Halls, general

Single-story construction

The maximum construction height is **6 m**. The maximum advertising height (upper edge) is **7.50 m**.

Two-story construction

The maximum construction height is **6 m**. The maximum advertising height (upper edge) is **7.50 m**.

In addition, the maximum construction height (clearance) alongside the hall walls must be observed (see description of halls and outdoor exhibition grounds).

The partition walls facing the neighboring stand must be kept white, neutral, free of installations and clean above a height of **2.50 m**. It is recommended that exhibitors install partition walls (height **2.50 m**) as demarcation to neighboring stands. Messe München GmbH supplies partition walls only at the request and expense of the exhibitor. Partition walls or additional cabin walls (height **2.50 m**) can be ordered in the Exhibitor Shop. In the case of advertising structures directly facing adjoining stands, there must be a minimum distance of **2 m** to the stand perimeters. Flashing or changing lights must not be used for advertising purposes. The stand design must be adapted to suit the type of rented stand (row, corner, end, island stand), e.g. by partition wall systems. The exhibition stand should also meet the character of the respective trade fair to preserve the visual identity of the event. Messe München GmbH is entitled to demand changes in stand design on this account.

The erection of closed walls is permitted if they account for no more than max. **70%** of the given side wall of the stand, whereby a closed wall may not exceed a length of max. **6 m**. A closed wall **6 m** in length must be followed by an opening with a width of at least **2 m**. This ruling does not apply if:

- the respective structure is set back from the stand perimeter by at least **2 m**.
- the height of structures at the stand perimeter does not exceed **1.20 m**.

If, for safety reasons, a closed structure exceeding **1.20 m** in length should be necessary, exhibitors are requested to consult with the Technical Exhibition Services. Messe München GmbH reserves the right to allow exceptions to this ruling in individual.

Stand construction approval

As a matter of principle, every planner/designer of an exhibition stand is responsible for compliance with public statutory regulations, insofar as applicable to exhibition stands, and compliance with Messe München GmbH's Technical Guidelines as well as the General Terms of Participation. No approval of plans from Messe München GmbH is necessary given compliance with the following requirements:

- stand and/or advertising structures no higher than **3 m**
- stand area no larger than **100 m²**
- stand is without covering.

Any stand concepts in non-compliance with the aforementioned requirements are to be submitted digitally, in PDF format for approval to Messe München GmbH's Technical Exhibition Services Division, containing to-scale stand design plans (ground plan, elevations and sectional drawings) no later than 6 weeks prior to official setup date. If items are to be suspended from the hall ceiling, the work involved must be carried out by Messe München GmbH's contractors. The placing of motor vehicles of any kind on the stand area for exhibition or decorative purposes is prohibited and is permissible only in exceptional cases on the prior written consent of the Exhibition Management. Moreover, multi-story stands and special constructions (such as bridges, stairs, cantilever roofs, galleries, etc.) are as a general rule subject to separate approval. Please consult the "Building Regulations" set out under "Notices—Applications" in the Exhibitor Shop for further information. **Please note under all circumstances the requirements set out in the Technical Guidelines and the information included in the individual notices.** For further processing, the exhibitor service media for ordering additional stand services will be made available to you online via our Exhibitor Shop in due time, or sent to you per e-mail.
