

IFAT India 2015 — Exhibitor Testimonials

– in alphabetical order of surname –

Kumarjyoti Chakraborty, Deputy Manager, Putzmeister:

“We are participating for the first time in IFAT India 2015. The show brought together the Government, manufacturing industry, academia & associations on a common platform to discuss the challenges in the field and to provide solutions for the same.”

Rutger De Bruijn, Director, The Netherlands Pavilion:

“Swacch Bharat Abhiyan is the best step taken by the Modi government as many initiatives are being lined up for the growth of India. We are helping the Indian government in various ways through constant innovations in waste management. IFAT India is like a missing link between the Indian government and the private sector, uniting them to promote a clean India and a green future. We look forward to participating in the next edition.”

Milan Desai, Vice President Control & Industry Solutions, Phoenix Contact:

“We provide automation solutions to the industry. There is no other platform like IFAT India where solid waste management is concerned. We have been taking part in the trade fair for the last three years. We always experience a good number of visitors at our stand.”

Dominik Emmerich, Manager Sales, RKW Agri:

“We were running out of business cards and contact forms. We did not get time to go out of our booth as we had so many good and qualified leads. IFAT India is the perfect platform.”

Manfred Endt, Managing Director, AGRU Plastic Technology:

“We have been exhibiting at other expos in Mumbai but this year’s IFAT India was the best of them all. The organization and the set-up of the stalls were very professional. The highlight were the visitors—many interested business people! We are very satisfied and achieved all our targets. Both, new potential business customers but also existing ones visited our booth. The IFAT is a very important event for our company group, not only in India. We will definitely participate in 2016 again.”

Thomas Hayn, Shareholder and Founder, Hammel Standard:

“Hammel Standard, which was founded only recently, produces recycling machinery tailored for the emerging markets. At IFAT India 2015 we made a number of good contacts and one excellent lead that will hopefully turn into business within the next days. India is our big chance! We will participate again in IFAT India 2016.”

Rüdiger Heidebrecht, Head of Department Training & International Cooperation, German Association for Water, Wastewater and Waste (DWA):

“IFAT India was a great success for us. We organized the first Indian university challenge on integrated water resources management and academic teams battled for the first prize—a visit to IFAT 2016 in Munich.”

Ganesh Kamath, Director, Organica Biotech:

“This is our third year of participation in IFAT India. Like every year this year, too, the visitor quality has been good. IFAT India 2015 has helped us in expanding our business opportunities. We are definitely looking forward to the next edition.”

Jens Koster, Director Waste Energy Plant, Doosan Lentjes:

“IFAT India 2015 is the best platform for us as it gives us exposure to state-of-the-art technologies and trends in the environment sector. We are showcasing technologies in integrated solid waste management. This event is providing huge opportunities to most of the exhibitors and I hope this show will grow bigger each year.”

Charif Lafiqir, Regional Sales Director, ATARFIL:

“It is a pleasure to participate in IFAT India for the third time. I am very happy with the quality of visitors this year. We are showcasing our technology and innovations in safe containment at the event.”

Tobias Loeffelsend, Sales Director, BROCK:

“The quality of visitors at IFAT India 2015 was much higher. We are satisfied with the results and glad that we participated at IFAT India. We had visitors from Germany, Dubai, Saudi Arabia. We look forward to participating in the next edition as well.”

Chuck Miller, Executive Vice President, Smith & Loveless:

“Smith & Loveless' legacy within the industry is pioneering and developing factory-built pump stations and treatment systems. We not only give our customers products assembled in a quality-controlled environment, but provide single-source responsibility and support throughout the life of the product. This is the second year we are participating in IFAT India and we are very happy with the visitor turnout and look forward for the next edition.”

Nilesh Patel, Technical Advisor, Indo-German Environment Partnership for Urban and Industrial development (GIZ):

“IFAT India is a bridge between the international and local markets. GIZ presented lectures, practical demonstrations and is glad to be supporting IFAT India. It is important that students implement their technical knowledge into practical challenges. We are hoping to support their capacity development. We even intend to expand other activities in the future. On behalf of GIZ we conducted a skills demonstration for workers on health and safety.”

Poonam Poladia, Marcom Head, Endress + Hauser:

“We have been associated with IFAT India since inception. We provide quality and quantity technologies, one of which is flow measurement applications. This is a great platform for industry professionals to find out about new technologies and about companies working in this sector. We are happy with the visitor response so far.”

V.G. Sakthikumar, Director, Schwing Stetter India:

“Schwing Stetter has always laid emphasis on understanding customer needs. IFAT India gives a chance to meet all kinds of clients from the international market on the same stage and interact on a personal level. The conferences held on a daily basis provide us with the technical details about the products given by renowned speakers from various institutes.”

Asif Sikwani, Country Head, Global Business Unit Water Treatment, Bilfinger Water Technologies:

“We provide our customers with screening and filtration expertise that is essential for their global water and industrial applications. We are happy to associate with IFAT India as events like these give us a podium wherein our target customers can understand our products and technologies.”

Nishant Thakre, CMG Head, ION Exchange India:

“There have been positive changes in the environment industry. We are happy to be associated with IFAT India and with the response we have achieved. Through the medium of IFAT India, we got a chance to introduce our products. The business opportunities that we received at the trade fair were remarkable. We will definitely participate in the next edition.”

Nagraj Uppunda, Managing Director, Mody Pumps:

“We have been associated with IFAT India for the last three years. We aim to customize products based on customer needs. This year has been better as compared to previous editions. IFAT India provides a good platform to connect with Indian and international players. We would be happy to participate next year as well.”

Christine von Lonski, General Manager, German Water Partnership:

“India has to solve a lot of problems on the environmental side. They know that time is running out and they have to solve them now. GWP and its partners have the right solutions, that’s why we participate in IFAT India every year. For us it is the best place to meet the right decision makers. We look forward to participating in IFAT India 2016.”
