INHORGENTA

Security brochure

Your safety - Our top priority: The INHORGENTA MUNICH security concept

Messe München is one of the world's leading trade fair organizers. With a diverse portfolio of trade fairs, congresses and events, it creates excellent platforms for exhibitors and visitors to take advantage of business opportunities, discover innovations and exchange knowledge. INHORGENTA MUNICH, Europe's leading platform for jewelry, watches and gemstones, is no exception.

Munich is not only the safest metropolitan city in Germany, but also home to an exhibition center that meets the highest security standards. Especially for the exclusive organization of INHORGENTA MUNICH, Messe München relies on a comprehensive security concept that is individually tailored to the needs of exhibitors, visitors and partners.

Our security services at a glance

Security center - your contact around the clock

The security center is the heart of our security management. Located directly on the exhibition grounds, it is manned around the clock by the security service. This is where all security-related information comes together. Whether you have concerns, emergencies or need to coordinate security staff - the control center is your first point of contact.

Security patrols - presence for your safety

Regular patrols by uniformed security personnel ensure visible and rapid intervention in the exhibition halls and outdoor areas. The security patrols are directly available to you as contact persons and guarantee a prompt response to security-related incidents.

Stand security - customized protection

Your exhibits and stands deserve special protection. With our stand security service, we offer you the opportunity to book a personal security guard for defined periods of time - whether during the day or at night. Choose from various service providers and benefit from customized protection, individually tailored to your needs.

Video surveillance - security at a glance

Comprehensive video surveillance ensures seamless monitoring and enables incidents to be efficiently tracked and investigated. For additional protection, we offer you the option of equipping your stand with your own individual video surveillance system - an effective tool for deterrence and documentation.

Security fence - your protected event area

A specially installed security fence surrounds INHORGENTA MUNICH and creates a clear boundary to parallel events. Access is restricted to authorized persons only - a further contribution to a safe and exclusive trade fair experience.

Strong room - maximum protection for your valuables

Our specially designed strong room is available for particularly valuable exhibits. Located within the security area and guarded around the clock, it offers maximum security for your most valuable items.

Medical service - Medical care on site

Safety includes health. Our medical service is present throughout the entire trade fair, from the set-up phase to dismantling. With fixed guards at the West and East entrances and in Hall C4, medical professionals are always close by. If necessary, the public rescue service will provide support.

Fire department and fire protection - responsive and proactive

The Munich fire department has its own fire station on the site to ensure comprehensive fire protection. Preventive measures are developed in close cooperation with the fire department in order to be able to act quickly and effectively in an emergency.

Cooperation with authorities - security through partnership

In close cooperation with the police station 25 and other authorities, we provide the highest level of security. In addition to the presence of police officers on site, potential threat scenarios are analyzed and measures prepared in advance of the event.

Our safety promise

Your security is our claim. If you have any questions about our security services or other security-related topics, our Security team is always available to help.
