International Trade Fair for Construction Machinery,
Building Material Machines, Mining Machines and Construction Vehicles.

bauma CONEXPO INDIA

31 Jan. - 03 Feb. 2023

Chief Guest

"Electric, hybrid, and biofuel-compatible machinery holds great potential to reduce the fossil fuel dependence of the construction equipment industry and improve productivity and cost efficiency outcomes for the infrastructure development and construction industries. Hence, I am delighted to see the new technology displays at this trade fair and extend my best wishes to the organizers and all participants."

Shri. Nitin J Gadkari

Honourable Minister of Road Transport & Highways,
Government of India

Guest of Honour

"We will soon become the only state in India with the largest number of six-lane expressways, and therefore, I am delighted that this edition of bauma CONEXPO INDIA is being held in Uttar Pradesh. By attracting large investments in industry and infrastructure over the past few years, Uttar Pradesh has demonstrated manufacturing excellence. Hence, I welcome all your contributions towards nation-building in our state and across India."

Shri. Nand Gopal Gupta

Cabinet Minister - Industrial Development, Export Promotion,
NRI, Investment Promotion, Government of Uttar Pradesh

Special Guest

"India is emerging as a leader in tunnel construction at high altitudes and hence, we need more congruence with equipment manufacturers. Through this medium of bauma CONEXPO INDIA, I invite manufacturers to visit our project sites, focus on targeted R&D initiatives, and develop technologies to suit our specific requirements."

Lt. General Rajeev Chaudhry, VSM

Director General, Border Roads Organisation (BRO)

"Infrastructure development in India is on an accelerated growth path, and we are proud to serve the market with best-in-class latest technologies which enable timely project completion and better outcomes for all stakeholders. Hence, we are delighted with the vibrant participation and representation of the entire infrastructure development ecosystem at this forum."

Arvind Garg

Chairman, bauma CONEXPO INDIA, and Senior Vice President & Head Construction & Mining Machinery Business, Larsen & Toubro Ltd

"The main highlight of this show has been the strong interest in sustainable technologies and manufacturers' initiatives to cater to this surging demand through innovative product launches."

Dimitrov Krishnan

President, Indian Construction Equipment Manufacturers' Association (ICEMA) & Managing Director, Volvo CE India

"This edition has been a great success due to presence of key stakeholders from government and industry. We met many key customers here and established new relationships too. The level of conferences and panel discussions were inspirational, drawing good participation from attendees. Overall, we had a good experience at this forum and hope to leverage these networks for future business."

Deepak Garg

Managing Director, Sany Group (India and South Asia)

We are delighted with the quality of visitors at this edition. The presence of key decision-makers from central and state governments, and key buyers from public and private sector was encouraging. We use this platform to showcase our latest technologies and innovations for the Indian market, and we are satisfied with response and queries received at our booth. The conferences were very well-curated and raised important suggestions for the further growth of our industry.

V. G. Sakthikumar

Managing Director, Schwing Stetter India

"At this edition, we have received encouraging visitor turnout owing to the presence of Shri. Nitin Gadkari ji. He also launched some of our products at this forum. We are happy with the interactions with some of the renowned EPC contractors who are currently building large projects like metros and bridges in the country."

Manish Mathur

Chief Executive Officer - Cranes,
Action Construction Equipment
(ACE)

"We are happy to launch our latest machines at the hands of the honorable minister. There have been quality footfalls at our booth and meetings with key customers for all products, especially our rough terrain cranes. This edition has been a high-energy inspirational experience for our entire team."

Jaideep Shekhar

Managing Director,
Terex India Pvt Ltd

"This is my first visit to bauma CONEXPO INDIA, and I am glad to have this huge opportunity to learn, network with peers in the industry, and meet present and future customers. An event of this scale allows one to interact and connect with all stakeholders in the infrastructure segment and understand how new business opportunities can be unlocked."

Shubhabrata Saha

Managing Director &
Chief Executive Officer,
AJAX Engineering Pvt Ltd

"This year again the show matched up to its international appeal and created the right platform to do business. Visitor footfalls were encouraging, and we received a good number of queries for our equipment technologies. We hope to translate this into business in the near future. The presence of key decision makers from government and public sector companies contributed to the overall positive experience."

**Vivekanand
Vanmeeganathan**

Country Head and Managing Director,
Caterpillar India

"This trade fair has proved once again why it is an unmissable opportunity for developers to leverage the collective intelligence and creative spirit of the Indian industry. Today, AI and IoT-enabled machinery is transforming critical infrastructure projects on the ground by providing real-time data and facilitating quick decision-making. I am pleased to witness the scale and range of technology solutions presented on this platform. We have had good meetings and fruitful discussions for the future of India's technology empowered construction industry."

Arvind Patel,

Managing Director,
Patel Infrastructure Ltd,
and Chairman,
Gujarat Contractors Association

This edition was a real success in terms of top-quality exhibitors who showcased latest construction technologies. We were delighted to host the all-India builders and contractors meeting at this forum which brought together the community from all parts of India to share knowledge and solutions to on-ground challenges. Interacting with government delegations at the well-curated conferences and networking forums was also a good experience. Overall, I offer my congratulations to the organisers for concluding this successful edition.

Niimesh Patel,

President,
Builders Association of India (BAI)

"bauma CONEXPO INDIA has done a great job by bringing the whole construction equipment ecosystem under one roof. I am delighted to witness the wide range of electric and hybrid vehicles launched at this platform. These technologies are the future of our industry, and I am happy to see them live at this platform."

E Ganesh,

Treasurer, Tamil Nadu Construction
Equipment Owners Association

"This is a good platform to interact with machinery manufacturers and share our expectations of manufacturing at scale to reduce costs; indigenous production; and focus on the country's wide network of state highways, district and village roads, in addition to national highways. Overall, this has been a good experience."

Sudershan K Popli,

Advisor (Road Safety),
National Highways Authority
of India

"I appreciate the organisers of this trade fair for curating a good experience for all participants, including regular updates about the technologies and manufacturers coming to this forum. This helps us make informed decisions and maximise the time spent at this trade show. I am delighted to visit this latest edition of bauma CONEXPO INDIA."

Sanjay Londhe,

Director & CEO - Projects,
Ashoka Buildcon Ltd

ICEMA Panel Discussion

This conference covered the Indian growth story led by infrastructure development. The distinguished panellists represented some of the leading equipment OEMs like L&T, Volvo, and Sany, as well as India's top construction companies like Tata Projects and equipment rental company like Sanghvi Movers.

The panellists described the key trends shaping the country's construction landscape and the initiatives by the equipment industry towards nation building.

India - Europe Day

This conference brought together technical experts and industry leaders from both India and Europe to share critical learnings, emerging opportunities, and current and future challenges.

As construction and infrastructure development across the world adopts green practices, sustainable solutions, and alternative fuels, key stakeholders from both regions exchanged ideas and case studies on how to drive projects' efficiency and machinery productivity using latest technologies.

Border Roads Organisation (BRO) in Nation Building

This conference saw key speakers from the BRO and India CE industry exchange ideas on how to build more congruence to develop machineries that can solve on-ground challenges in high-altitude construction, tunnel building, and sub-zero temperatures.

Describing some of the key projects undertaken by the BRO in recent times, such as the world's highest motorable road in Umling La near Rohtang Pass, the BRO encouraged the industry to support with R&D for nation building.

Quarry Forward 2023

With rapid growth in mining industry, this conference brought together a large number of quarry owners and mining contractors as speakers and delegates from across the country to debate about emerging technologies, global best practices, and strategies for efficiency and sustainability.

This conference attracted a large number small and mid-sized mining contractors who are seeking to procure latest equipment to drive productivity outcomes of their mining projects.

Operators Skill Development (OSD) program

This program saw a mix of classroom and outdoor sessions where India's top-rated equipment operators and trainers demonstrated their skills. At this forum, industry leaders discussed the need for well-trained and certified professionals who are future-ready to operate the next-generation of construction vehicles and equipment.

Considering the accelerated pace of infrastructure development and construction activity in the country, the Indian industry has prioritised skills development, and this was reflected at this conference.

Bharat Nirman Mahotsav

An initiative from bauma CONEXPO India to promote the infrastructure and construction machinery equipment's industry in India.

We at bauma CONEXPO India appreciated and valued various infrastructure activities that are currently underway across the country. This industry is a conglomerate of not just those heavy machinery manufacturers but also includes those relentless government officials, contractors, manufacturers, engineers, equipment operators and many more. Through this activity we recognized the hard work of these titans, we identified and appreciated this talents across India.

We travelled around 17 cities, across 5 states covering 4500 kms.

Buyer-Seller Forum

This dedicated meeting zone witnessed 4982 focussed meetings between equipment buyers and manufacturers, dealers, etc. Some of India's largest construction companies, from both the public and private sectors, participated as buyers in this forum.

Combined with the presence of finance companies at the exhibition, the Buyer-Seller Forum helped close high-value deals and real business transactions for both demand and supply side parties. This edition once again proved the importance of Buyer-Seller forum as a platform for unlocking commercial deals for all participants.

Demo Area

One of the main outdoor areas that attracted massive footfalls, the Demo Area saw participation of leading equipment OEMs like ACE, DOOSAN BOBCAT, LIUGONG & SCHWING STETTER amongst many others. This dedicated space saw 100+ live product demonstrations, including operators training sessions.

The equipment and vehicles displayed at this area showcased technologies to overcome on-ground challenges at real project sites, thus helping procurement managers to make buying decisions.

VR Zone

The VR Zone at bauma CONEXPO INDIA 2023 was an excellent opportunity for construction professionals to experience the latest technology and equipment in a safe and immersive environment. It was a must-see exhibit for anyone interested in the future of construction technology.

Guests tried out new, digitally-driven technologies in a real construction site environment on a test site set up specifically for this purpose. Here, construction machines operated automatically and were networked with each other, drones monitored the construction progress at regular intervals and everything was controlled and documented remotely with the construction site control system.

Entertainment Evenings

Success deserves celebration, and therefore every show day ended with energetic musical performances in the venue garden. Performers were invited from various regions of the country to offer a delightful, memorable experience for all exhibition participants.

Here are some glimpses of the performances.

'Adopt clean fuels, diesel gear may draw extra cess'

SHARADHA ALAM / Feb 13, 2023, 08:01 IST

ARTICLES

Union Road Transport and Highways Minister Nitin Gadkari has urged construction machinery manufacturers to make equipment which runs on alternative fuel instead of diesel to curb air pollution.

Speaking at a trade fair for the construction equipment industry in Greater Noida on Tuesday, the minister said, "You manufacturers should make more green."

Infrastructure development provides the most basic platform to serve various economic activities that drive the economic growth of a country. The stable growth in creating industrial and business, especially roads, provides significant returns and contributes to economic growth.

The Indian construction equipment is a sunrise sector contributing significantly towards critical infrastructure development across the country. The stable growth in creating industrial and business, especially roads, provides significant returns and contributes to economic growth.

RADO

The four-day trade fair for the construction equipment industry began on January 31, after a four-year hiatus.

Gadkari also said that India surpassed Japan in auto sales last year and became the third largest auto market in the world. "We have seen some results in auto sales including in development of construction machinery. We are developing green expressways."

The minister also talked about road safety. He stressed the need to fix working hours for drivers and sleep detection devices in vehicles "as every year India records five lakh accidents".

Anurag Garg, chairman of Bauma Conexpo India, said, "UP is witnessing vibrant construction activity. Infrastructure development today is transforming not just the urban areas but also the Tier 2 and 3 cities as well as the rural areas. By embracing modern construction equipment and technologies, project leaders in these smaller towns and villages are demonstrating the power of technology to drive prosperity."
