

SL6H

Datasheet

Dimensions	125 x 156 mm
Max Length	6600 mm
Max Weight	Advance: 100 Kg Big: 200 Kg
Max Speed	Advance: 0.8 m/s Big: 0.3 m/s
Service Class	Intensive operation
Power supply	100-240V 50/60 Hz
Rated Power	70 W
Stand-by	1 W
Rated Load	Advance: 150 N Big: 350 N
Protection degree	IP20
Temperature range	-15/+50°C
Accessories Output	12 Vdc (1A max)
Settings	keypad or FACE PRC app
Firmware update	Standard USB

HERMETICITY

- air permeability ISO12207:2017 with Class 2
- gaskets and rail design engineered to guarantee full perimeter airtightness

POWERFUL & COMPACT

- 125 mm height of the automation beam
- special wheels designed for maximum weight-bearing in a single-wheel carriage (100 Kg)

HIGH CUSTOMIZATION

- window or LCD screen with different cut-out sizes
- different colour options for HPL laminate
- lead foil for X-ray shielding in different thickness
- recessed or lift handle options
